Intimate Landscapes, an exhibition of fifty-five color photographs by Eliot Porter, is the first one-man exhibition of color photographs ever presented at The Metropolitan Museum of Art. Works by Eliot Porter entered the Museum's collection as far back as 1949, when Georgia O'Keeffe presented from the Estate of Alfred Stieglitz an important collection of photographs assembled by Stieglitz himself. This collection included three early black and white prints by Eliot Porter, one of which is reproduced in this catalogue. All the photographs in the present exhibition brilliantly reflect the standards of excellence that are Eliot Porter's greatest contribution to the field of color photography. Upon seeing these photographs, the viewer is immediately struck by the artist's distinctly individual and intimate interpretation of the natural world.

The new book, like the earlier ones, explains all operations, features, menus, and controls of the Coolpix P500 camera in clear language, providing guidance not only about how to accomplish things with the camera, but when and why to use certain features. "From how many frames you need to shoot per second to capture that WOW moment to where to focus on a bird with a big beak to get the best depth of field, this book has it all for the wildlife photographer. It is an impressive mix of technology with just plain good advice for image-taking, and they discuss each point specifically for shooting wildlife, because it is a totally unique type of photography. The lighting and shutter speed for a macro flower shot is not the same that you'd need for a bird in flight or a kangaroo jumping across a field. Mix together this fantastic info with the

many years of experience that the Gerlachs have shooting and teaching and the absolutely jaw-dropping images and you really do have a perfect storm for a book"--
