They are among the most famous and compelling photographs ever made in archaeology: Howard Carter kneeling before the burial shrines of Tutankhamun; life-size statues of the boy king on guard beside a doorway, tantalizingly sealed, in his tomb; or a solid gold coffin still draped with flowers cut more than 3,300 years ago. Yet until now, no study has explored the ways in which photography helped mythologize the tomb of Tutankhamun, nor the role photography played in shaping archaeological methods and interpretations, both in and beyond the field. This book undertakes the first critical analysis of the photographic archive formed during the ten-year clearance of the tomb, and in doing so explores the interface between photography and archaeology at a pivotal time for both. Photographing Tutankhamun foregrounds photography as a material, technical, and social process in early 20th-century archaeology, in order to question how the photograph made and remade 'ancient Egypt' in the waning age of colonial order.

The world has always been fascinated with ancient Egypt. When the Romans conquered Egypt, it was really Egypt that conquered the Romans. Cleopatra captivated both Caesar and Marc Antony and soon Roman ladies were worshipping Isis and wearing vials of Nile water around their necks. What is it about ancient Egypt that breeds such obsession and imitation? Egyptomania explores the burning fascination with all things Egyptian and the events that fanned the flames--from ancient times, to Napoleon's Egyptian campaign, to the Discovery of Tutankhamen's tomb by Howard Carter in the 1920s. For forty years, Bob Brier, one of the world's foremost Egyptologists, has been amassing one of the largest collections of Egyptian memorabilia and seeking to understand the pull of ancient Egypt on our world today. In this original and groundbreaking book, with twenty-four pages of color photos from the author's collection, he explores our three-thousand-year-old fixation with recovering Egyptian culture and its meaning. He traces our enthrallment with the mummies that seem to have cheated death and the pyramids that seem as if they will last forever. Drawing on his personal collection — from Napoleon's twenty-volume Egypt encyclopedia to Howard Carter's letters written from the Valley of the Kings as he was excavating — this is an inventive and mesmerizing tour of how an ancient civilization endures in ours today.

Tut: The Story of My Immortal Life is a funny, fast-paced novel for young readers by P.J. Hoover which chronicles the mischievous adventures of King Tut, now an immortal eighth-grader living in Washington, D.C.. You'd think it would be great being an Egyptian demigod, but if King Tut has to sit through eighth grade one more time, he'll mummify himself. Granted the gift of immortality by the gods—or is it a curse?—Tut has been stuck in middle school for ages. Even worse, evil General Horemheb, the man who killed Tut's father and whom Tut imprisoned in a tomb for three thousand years, is out and after him. The general is in league with the Cult of Set, a bunch of guys who worship one of the scariest gods of the Egyptian pantheon—Set, the god of Chaos. The General and the Cult of Set have plans for Tut... and if Tut doesn't find a way to keep out of their clutches, he'll never make it to the afterworld alive.
