LUIS KENYON

Ahcwrk305
 This unit of competency describes the skills and knowledge required to coordinate work site activities for small scale projects. This unit applies to individuals who work under broad direction and take responsibility for their own work including limited responsibility for the work of others. They use discretion and judgement in the selection and use of available resources.

Ahcnsy306
 This unit of competency describes the skills and knowledge required to recognise common weed species and apply a range of weed treatments and

control options.

Ahcnsy201

This unit of competency describes the skills and knowledge required to plan and coordinate weed control activities using appropriate strategies to provide effective, economic control while minimising environmental damage. The unit applies to individuals who work under broad direction and take responsibility for their own work. They use discretion and judgement in the selection, allocation and use of available resources and for solving problems.

Ahcpmg301

This unit of competency describes the skills and knowledge required to inspect park or recreational facilities to identify hazards, existing and potential risks and

non-conformities with Australian Standards and workplace health and safety requirements.

AHCPGD401

This unit of competency describes the skills and knowledge required to monitor and control the nutritional requirements of and applications to plants across a range of situations and environments. It applies to individuals who take responsibility for their own work and for the quality of the work of others. They use discretion and judgement in the selection, allocation and use of available resources. All work is carried out to comply with workplace procedures.

Ahcber301

This unit of competency describes the skills and knowledge required to

safely handle, transport and store chemicals.

Ahcchm304

This unit of competency describes the skills and knowledge required to design plant displays in a wide range of locations and situations, buildings and structures. It applies to permanent, semi-permanent and temporary displays of plant life under a range of gardening, exhibition, visual merchandising, marketing and commercial leasing and hiring activities. It applies to individuals who analyse information and exercise judgement to complete a range of advanced skilled activities and demonstrate deep knowledge in a specific technical area. They have accountability for the work of others and analyse, design and communicate solutions to a range of complex problems. All work is carried out to comply with workplace procedures.

Ahcpmg201

This unit of competency describes the skills and knowledge required to

implement a propagation plan for a range of plants using a range of different propagation methods.

AHCWRK209

This unit of competency covers the skills and knowledge required to work effectively within own area of responsibility while responding to an emergency disease or plant pest incursion.

Ahctrf301

This unit of competency describes the skills and knowledge required to follow workplace procedures and instructions and to participate in environmentally sustainable work practices.

AHCPCM301

This unit of competency describes the skills and knowledge required to construct soil profiles for the establishment of high-performance sports and recreational turf surfaces. It applies to the construction of turf playing surfaces in new projects and to the complete renovation of

existing soil profiles in sporting, commercial and public recreational open spaces such as golf greens and tees, cricket pitches and other turfed sporting surfaces.

Ahcpgd305

This unit of competency describes the skills and knowledge required to install water features. Water features may include waterfalls, ponds, waterways and fountains. They may be prefabricated as supplied by irrigation suppliers and garden centres or formed 'in situ'. This unit applies to individuals who take responsibility for their own work and for the quality of the work of others. They use discretion and judgement in the selection, allocation and use of available resources. All work is carried out to comply with workplace procedures.

Ahclsc309

This unit of competency describes the skills and knowledge required to transplant established plants with developed root systems.
