 Discover the darker side of the Garden State with this anthology of gritty mystery stories. Akashic Books continues its award-winning series of original noir anthologies, launched in 2004 with Brooklyn Noir. Each volume is comprised of all-new stories, each one set in a distinct location within the geographical area of the book. In New Jersey Noir, a star-studded cast of authors sifts through the hidden dirt of the Garden State. Featuring brand-new stories (and a few poems) by Joyce Carol Oates, Jonathan Safran Foer, Robert Pinsky, Edmund White & Michael Carroll, Richard Burgin, Pulitzer Prize-winner Paul Muldoon, Sheila Kohler, C.K. Williams, Gerald Stern, Lou Manfredo, S.A. Solomon, Bradford Morrow, Jonathan Santlofer, Jeffrey Ford, S.J. Rozan, Barry N. Malzberg & Bill Pronzini, Hirsh Sawhney, and Robert Arellano. Praise for New Jersey Noir "Oates's introduction to Akashic's noir volume dedicated to the Garden State, with its evocative definition of the genre, is alone worth the price of the book . . . Highlights include Lou Manfredo's "Soul Anatomy," in which a politically connected rookie cop is involved in a fatal shooting in Camden; S.J. Rozan's "New Day Newark," in which an elderly woman takes a stand against two drug-dealing gangs; and Jonathan Santlofer's "Lola," in which a struggling Hoboken artist finds his muse . . . Poems by C.K. Williams, Paul Muldoon, and others—plus photos by Gerald Slota—enhance this distinguished entry." —Publishers Weekly "It was inevitable that this fine noir series would reach New Jersey. It took longer than some readers might have wanted, but, oh boy, was it worth the wait . . . More than most of the entries in the series, this volume is about mood and atmosphere more than it is about plot and character . . . It should go without saying that regular readers of the noir series will seek this one out, but beyond that, the book also serves as a very good introduction to what is a popular but often misunderstood term and style of writing." —Booklist, Starred Review "A lovingly collected assortment of tales and poems that range from the disturbing to the darkly humorous." —Shelf Awareness

 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been cus tomarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of

interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones). Now for the first time in e-book, a collection of Tanith Lee's short stories and novella about the fantastical adventures of Cyrion, a

hero larger than life. Roilant needs a hero—fast. He's trapped, betrothed to his cousin Eliset in an agreement made to help the destitute branches of their family line. But rumor has it that Eliset is a witch, a villainess behind the deaths of many in his family, and if Roilant weds her, he'll meet the same fate. Roilant didn't put much stock in the rumors—until, that is, he tried to call off the betrothal. Since then, he's been plagued by a series of nightmares demanding he return to Eliset's side by the end of the month. If he goes to her, he'll surely be murdered for his fortune, but if he stays, he fears his cousin will kill him and his beloved, the woman he loves. Convinced only one man alive can help him, Roilant stumbles into the Honey Garden inn looking for a legend—a man named Cyrion. All anyone seems to have are stories, but everyone's heard tell of the mighty Cyrion. They say that he looks like an angel, with hair like the sky of earnest sunrise. That he's an adventurer, a vanquisher of evil and a defender of man. That he's a fearless swordsman, a master of disguise, and a genius detective. Some say he's defeated demons and outwitted wizards. That he's solved impossible mysteries and survived inescapable death. But is he for real? And—more importantly—is he for hire?

Chapter ElevenDeveloping countries Humanresource development whetherneed to be improvedDo developing countries need to help human resource development to assist their businesses development, it is possible due to staff individual lacks knowledge to do whose job in whose organization ? What is the developing and developed countries' organizational human resource strategic difference, e.g. award strategies? I shall indicate one developing country, such as South Africa's businesses' general organizational human resource strategy case to explain whether what causes their human resource strategies, e.g. award management strategies are different to compare developed countries, such as US, UK as well as I also indicate what weak points that they ought to concern in order to improve these developing countries' businesses productivities and

efficient, if South Africa 's firms hope to raise staff performance to be better. In general, South Africa employers feel human resource development strategy is needed to innovate and attempt to ensure that they meet the needs of their economy. So, South Africa employers are considering whether how they ought need to improve their human resource strategies in their organizations in order to raise productive efficiencies and performance to their employees effectively. In fact, because South Africa country lacks effective human resource development to recommend to itself country's businessmen how to select the right employees to do right positions, how to evaluate whom has more effort to be promoted to do senior position, lacking fair reward and welfare to compensate to their employees. So, it brings many reasons to explain why in South Africa society unemployment and poverty still existence. Not all of the reasons have to do with the capabilities of people, may have to do with the unequal distribution of productive assets in South Africa society. Nowadays, the South Africa employers only feel South Africa workers are only their own labour to use or sell. Hence, they won't like to provide reasonable and fair award to compensate for their Africa employees general lack high education level and skills. So, it also influences their award will not increase. Moreover, there are South Africans who have skilled labours to sell and they can not find buyers because there are not enough jobs, their skills do not match the demands, and there is a systematic process for information to flow between government, the workplace and labour. Hence, many South African people are unemployed, due to their knowledge are not enough to satisfy or accept to employers' demands. It will cause South African income inequality will be continue serious. The salary range between the high education level and low education level of labours' difference is large. A cycle of income inequality, low skills and poor education have limited economic growth.

We revisit Lipset's law, which posits a positive and significant relationship between income and democracy. Using dynamic and heterogeneous panel data estimation techniques, we find a significant and negative relationship between income and democracy: higher/lower incomes per capita hinder/trigger democratization. Decomposing overall income per capita into its resource and non-resource components, we find that the coefficient on the latter is positive and significant while that on the former is significant but negative, indicating that the role of resource income is central to the result.

Following the Pulitzer prize-winning collection Stag's Leap, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

Well hark at you, stumbling upon my autobiography. Bet you wouldn't have put money on that three years ago, eh?! Please don't stress yourself out too much, though, it's actually socially acceptable nowadays that you're interested. Firstly I'd like to emphasise that I have WRITTEN THIS BOOK MYSELF, so be assured you're getting the TOOTH, the WHOLE TOOTH and NOTHING BUT THE TOOTH! (Which was my original choice of title, but babe, we're so over that.) This book documents my story, year by year, from my humble beginnings growing up in the East End of London, becoming one of the nation's most talked-about people overnight to finally moving up the spectrum from guilty pleasure, and getting nearer to national treasure. It will make you laugh, cry, and most importantly you'll discover who I really am. If it doesn't do any of those things you're not legally entitled to a refund - just clearing that up ;-). I hope you enjoy reading this book as much as I have enjoyed writing it. This book has been like therapy, and LORD was I in need. Enjoy!
