You can't get any further down than the bottom of the world - Antarctica. Cold, desolate, nothing but ice and snow for miles and miles. Carrie Stetko is a U.S. Marshal, and she's made The Ice her home. In its vastness, she has found a place where she can forget her troubled past and feel at peace... Until someone commits a murder in her jurisdiction and that peace is shattered. The murderer is one of five men scattered across the continent, and he has more reason to hide than just the slaying. Several ice samples were taken from the area around the body, and the depth of the drilling signifies something particular was removed. Enter Lily Sharpe, who wants to know what was so important another man's life had to be taken for it. But are either of the women prepared for the secrets and betrayals at the core of the situation?

A shocking expose of the CIA's role as drug baron. On March 18, 1998, the CIA's Inspector General, Fred Hitz, told astounded US Reps that the CIA had maintained relationships with companies and individuals that the Agency knew to be involved in the drug business. More shocking was the revelation that the CIA had received from Reagan's Justice Department clearance not to report any knowledge it might have of drug-dealing by CIA assets. Many years' worth of CIA denials, much of it under oath to Congress, were sunk. Hitz's admissions made fools of some of the most prominent names in US journalism and vindicated others that had been ruined. Particularly resonant was the case of the San Jose Mercury News, which published a sensational series on CIA involvement in the smuggling of cocaine into black urban neighborhoods, and then under pressure conspired in the destruction of its own reporter, Gary Webb. In *Whiteout*, Alexander Cockburn and Jeffrey St. Clair finally put the whole story together, from the earliest days, when the CIA's institutional ancestors cut a deal with America's premier gangster and drug trafficker, Lucky Luciano. This is a thrilling history that stretches from Sicily in 1944 to the killing fields of Laos and Vietnam, to CIA safe houses in Greenwich Village and San Francisco where CIA

men watched Agency-paid prostitutes feed LSD to unsuspecting clients. We meet Oliver North, as he plotted with Manuel Noriega and Central American gangsters. We travel to little-known airports in Costa Rica and Arkansas. We hear from drug pilots and accountants from the Cali Cartel. We learn of DEA agents whose careers were ruined because they tried to tell the truth. Cockburn and St. Clair show how the CIA's complicity with drug-dealing criminal gangs was part and parcel of its attacks on labor organizers, whether on the docks of New York, Marseilles, or Shanghai. They trace how the Cold War and counter-insurgency led to an alliance between the Agency and the vilest of war criminals like Klaus Barbie, or fanatic opium traders like the mujahedin in Afghanistan. Cockburn and St. Clair horrifyingly affirm charges of outraged black communities that the CIA had undertaken enduring programs of experiments on minorities. They show that the CIA imported Nazi scientists straight from their labs at Dachau and Buchenwald and set to work, developing chemical and biological agents, tested on blacks, some of them in mental hospitals. Cockburn and St. Clair dissect the shameful way American journalists have not only turned a blind eye to the Agency's misdeeds, but also helped plunge the knife into those who tried to tell the truth. Fact-packed and fast-paced, *Whiteout* is a richly detailed excavation of the CIA's dirtiest secrets. For anyone who wants to know the real truth about the Agency, this is the book to start with.

White-out: n. a surface condition . . . in which no object casts a shadow, the horizon cannot be seen, and only dark objects are discernible . . . Whiteout: when the heavy weather of daily life establishes the measure of the measureless; when the predatory nature of the accidental conjures cowboys and the comatose; when the sickly sweet pop of life underfoot contrasts the televised image, shrinking to a pinprick. Whiteout: calques and towers, twin polar storms, falling, burning. Whiteout: "a book of white nothing." George Murray's sixth collection has been a decade in the making. At once taut, tender and terrifying, haunted and haunting, Whiteout shatters convention in the collision of order and rage, formlessness and hard-won serenity.

When she was a toddler, Jessica Goodfellow's twenty-two-year-old uncle, along with six other climbers from the 1967 Wilcox Expedition to Denali, was lost in an unprecedented ten-day storm blasting winds of up to three-hundred miles per hour. Just as North America's highest peak is so massive that it has its own distinct weather system—changeable and perilous, subject to sudden whiteout conditions—a family whose loved one is irretrievably lost has a grief so blinding and vast that it also creates its own capricious internal weather, one that lasts for generations. Whiteout is Goodfellow's account of growing up in this unnavigable and often unspoken-of climate of bereavement. Although her poems begin with a missing body, they are not an elegy. Instead, Goodfellow struggles with the absence of cultural ritual for the uncontainable loss of a beloved one whose body is never recovered and whose final story is unknowable. There is no solace here, no possible reconciliation. Instead, Whiteout is a defiant gaze into a storm that engulfs both the wildness of Alaska and of familial mourning.
