With the newly inaugurated US Presidential Administration signing several orders to mitigate discrimination and racism within the United States government, attentions globally are once again brought to the Black Lives Matter campaign, and its message. Discrimination in business contexts, social interactions, and educational institutions remains a concern for leaders today. The empowerment of marginalize communities has been rapidly spreading through societies, thanks to the platforms that social media now offer. The Research Anthology on Empowering Marginalized Communities and Mitigating Racism and Discrimination is a three-volume, hand-selected compilation of the highest quality research on the empowerment of marginalized communities that have been experiencing ongoing discrimination. To shed light on the underpinnings of disparities between marginalized groups and overreaching society, this text explores social justice applications and practices and the changes being made or pushed for around the globe that promote equality, fair

treatment, and inclusivity. This book is ideal for sociologists, teachers, activists, practitioners, managers, administrators, policymakers, government officials, researchers, academicians, and students working in fields such as gender studies, race studies, social justice, behavioral studies, history, sociology, anthropology, psychology, law, as well as anyone interested in the current practices and advances in mitigating racism and discrimination in society.

Chinar I: Anthology Of Prose & Poems For Class Xi (Published In Cooperation With J & K State Board) New Saraswati House India Pvt Ltd
 Yun Muxi was a young scriptwriter in the 21st century who once time-traveled back into the olden days of China. There, she met and fell in love with the Emperor, Duanmu Gongyu. After a torturous heartbreak, the duo separated and never saw each other again. When Yun Muxi returned to the modern world, she ended up working with a rising actor, Gong Yu, who happened to be the same man she once loved with her whole heart. As soon as he set his eyes on her, the feelings of yesterday came back and he was determined to make her his again. As Gong Yu tried to woo Yun Muxi repeatedly, she realized that she found it hard to resist his charms. However, the duo was trapped in a series of events that made falling in love impossible. The modern-day Yun Muxi now has a daughter while the father of the child remained unknown. Gong Yu, on the other hand, had developed a history of heart attack. On top of that, their story unraveled with shocking truths at every turn. The star-crossed lovers were faced with steep challenges that constituted the endless list and many sacrifices had to be made. Would they eventually be given the chance to love freely?

 In all six of its volumes The Broadview Anthology of British Literature presents British literature in a truly distinctive light. Fully grounded in sound literary and historical scholarship, the anthology takes a fresh approach to many canonical authors, and includes a wide selection of work by lesser-known writers. The anthology also provides wide-ranging coverage of the worldwide connections of British literature, and it pays attention throughout to issues of race, gender, class, and sexual orientation. It includes comprehensive introductions to each period, providing in each case an overview of the historical and cultural as well as the literary background. It features accessible and engaging headnotes for all authors, extensive explanatory annotations, and an unparalleled number of illustrations and contextual materials. Innovative, authoritative and comprehensive, The Broadview Anthology of British Literature has established itself as a leader in the field. The full anthology comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible by using the passcode obtained with the purchase of one or more of the bound volumes. For the second edition of this volume a considerable number of changes have been made. Henry Fielding's Tragedy of Tragedies has been added, as has a new section of material from eighteenth-century periodicals. A new Contexts section entitled "Transatlantic Currents" includes writings by such figures as Paine, Franklin, and Price, as well as material on the slave trade. The Contexts sections on "Town and Country" and on "Mind and God, Faith and Science" have also been expanded; a variety of writings on the Royal Society and other scientific matters have been added to the latter. Additional chapters from Equiano's Interesting Narrative have been added, and there are new selections by Samuel Johnson (including his "Letter to Lord Chesterfield" and facsimile pages from the Dictionary). Book 3 from Gulliver's Travels has been added; that work now appears in its entirety. There are also additional selections by Pope, Pepys, and Astell. The Castle of Otranto and The Wivings have been moved from the bound book to the website component of the anthology. (Both are available as volumes in the Broadview Editions series, and may be added at a very modest additional cost in a shrink-wrapped combination package.)

Chinar - I : An Anthology Of Prose And Poems For Class Xi (J & K Board) Broadview Press Growing up parentless, Shi Yan, who was left with a large amount of inheritance money, bore a general disinterest in life. The only times he felt alive was when adrenaline coursed through his veins. He quickly found that extreme sports, bungyjumping, cave diving & skydiving, gave him the biggest kicks. The bigger the adrenaline kick, the closer he was to death, the more alive he felt. Waking up in a pile of dead bodies in an unknown land, after a diving adventure had ended disastrously, he quickly realizes the body he now possessed was not his own. Follow Shi Yan as he explores this new world where danger lurks around every corner, and death is only a breath away; a world in which Shi Yan could not feel any more alive.

The Broadview Anthology of British Literature, Volume 5: The Victorian Era – Third Edition American Library Association

The issue of social justice has been brought to the forefront of society within recent years, and educational institutions have become an integral part of this critical conversation. Classroom settings are expected to take part in the promotion of inclusive practices and the development of culturally proficient environments that provide equal and effective education for all students regardless of race, gender, socio-economic status, and disability, as well as from all walks of life. The scope of these practices finds itself rooted in curriculum, teacher preparation, teaching practices, and pedagogy in all educational environments. Diversity within school administrations, teachers, and students has led to the need for socially just practices to become the norm for the progression and advancement of education worldwide. In a modern society that is fighting for the equal treatment of all individuals, the classroom must be a topic of discussion as it stands as a root of the problem and can be a major step in the right direction moving forward. Research Anthology on Instilling Social Justice in the Classroom is a comprehensive reference source that provides an overview of social justice and its role in education ranging from concepts and theories for inclusivity, tools, and technologies for teaching diverse students, and the implications of having culturally competent and diverse classrooms. The chapters dive deeper into the curriculum choices, teaching theories, and student experience as teachers strive to instill social justice learning methods within their classrooms. These topics span a wide range of subjects from STEM to language arts, and within all types of climates: PK-12, higher education, online or in-person instruction, and classrooms across the globe. This book is ideal for in-service and preservice teachers, administrators, social justice researchers, practitioners, stakeholders, researchers, academicians, and students interested in how social justice is currently being implemented in all aspects of education.

For the second edition of this volume a number of changes have been made. Elizabeth Gaskell's "Our Society at Cranford" has been added, as has Anthony Trollope's "A Turkish Bath." Charles Dickens is now represented with a number of short selections. The selection of poems by D.G. Rossetti has been expanded considerably (the entire 1870 House of Life sequence is included), as has that by Michael Field. A selection of poems by two key figures who also appear in the anthology's twentieth century volume (Thomas Hardy and W.B. Yeats) is also now included. Several of the Contexts sections in the volume have been expanded—notably "The Place of Women in Society," which now includes material concerning the Contagious Diseases Acts) and "Britain, Empire, and a Wider World," which now includes a section on the Great Exhibition of 1851. The volume will also include additional visual material—including four more pages of full color illustrations. Inevitably, some selections have been dropped from the bound book; these will all remain available, however, on the anthology's website component. The most significant change in that direction is Dickens's A Christmas Carol. As well as remaining available on the website, that work—like Hard Times, Great Expectations, and approximately 100 other titles from the Victorian period, is available as a stand-alone volume in the Broadview Editions series, and may be added (at little or no additional cost to the student) in a shrink-wrapped combination package.

Reimagine learning with this book's practical advice, case studies and strategies on using digital storytelling as a vehicle for student inquiry and assessment. Award-winning educator and speaker Michael Hernandez brings more than 20 years of classroom experience to addressing some of the most existential challenges in education today: artificial intelligence, steep declines in student engagement and the need for authentic learning experiences. The solution: digital storytelling as a framework for learning. Rather than viewing storytelling as a nice-to-have reward for students after their "real work" has been completed, this book shows educators how to use story projects — from data visualizations to social media posts, to podcasts and video documentaries — as the scaffold upon which to position curricular skills and knowledge. The process helps students make interdisciplinary connections, activates higher level thinking and critical analysis skills, and provides multimodal learning opportunities. This book offers practical ways to elevate teaching and learning in every grade level and subject area. Focusing on student-centered, project-based learning experiences, the book demonstrates how to use digital tools to: • Leverage curiosity as the engine for learning. • Provide purpose for the skills and knowledge central to curriculum. • Create uncheatable, authentic assessments. • Develop a mindset of collaboration, mental agility and resilience. • Cultivate digital literacy skills and ethical mindsets. • Bring purpose and joy back to learning. More than a practical edtech guide, this book explores the "why" behind digital storytelling as much as the "how." Educators will learn how to help students explore cultural and historical context, develop social-emotional resiliency, and develop the skills they need to become engaged global citizens. Audience: Elementary and secondary educators; instructional coaches; educational leaders

The education system is constantly growing and developing as more ways to teach and learn are implemented into the classroom. Recently, there has been a growing interest in teaching computational thinking with schools all over the world introducing it to the curriculum due to its ability to allow students to become proficient at problem solving using logic, an essential life skill. In

order to provide the best education possible, it is imperative that computational thinking strategies, along with programming skills and the use of robotics in the classroom, be implemented in order for students to achieve maximum thought processing skills and computer competencies. The Research Anthology on Computational Thinking, Programming, and Robotics in the Classroom is an all-encompassing reference book that discusses how computational thinking, programming, and robotics can be used in education as well as the benefits and difficulties of implementing these

elements into the classroom. The book includes strategies for preparing educators to teach computational thinking in the classroom as well as design techniques for incorporating these practices into various levels of school curriculum and within a variety of subjects. Covering topics ranging from decomposition to robot learning, this book is ideal for educators, computer scientists, administrators, academicians, students, and anyone interested in learning more about how computational thinking, programming, and robotics can change the current education system.
