Yearling

Suspension is probably
the most
misunderstood aspect
of motorcycle
performance. This
book, by America's
premier suspension
specialist, makes the
art and science of
suspension tuning
accessible to
professional and
backyard motorcycle
mechanics alike. Based
on Paul Thede's wildly
popular Race Tech
Suspension Seminars,
this step-by-step guide
shows anyone how to
make their bike, or

their kid's, handle like a pro's. The book gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually

any handling problem. Cycle World Magazine

 Soon to be an Apple TV+ animated series starring Golden Globe nominee Beanie Feldstein and Emmy Award winner Jane Lynch, it's no secret

that Harriet the Spy is a timeless classic that kids will love! Harriet M. Welsch is a spy. In her notebook, she writes down everything she knows about everyone, even her classmates and her best friends. Then Harriet loses track of her notebook, and it ends up in the wrong hands. Before she can stop them, her friends have read the always truthful, sometimes awful things she's written about each of them. Will Harriet find a way to put her life and her friendships back together? "What the novel showed me as a child is that words have the power to hurt, but they can also heal, and that it's much better in the long run to use this power for good than for evil."—New York Times

bestselling author Meg Cabot
