Real, current macroeconomic events connected to the theory The new fourth edition of Blanchard's respected Macroeconomics text has been substantially revised to account for the impact of the GFC on the Australasian Economy and the many issues it raises. Thus, in addition to a first discussion of the crisis in Chapter 1 and numerous boxes and discussions throughout the book, we have brought forward the chapter on the GFC to Chapter 9.

Macroeconomics is the only intermediate resource with a truly Australasian focus, demonstrating economic ideas and issues with hundreds of local and international examples. This comprehensive resource presents an integrated view of macroeconomics, drawing on the implications of equilibrium conditions in three sets of markets: the goods market, the financial markets and the labour market.

CHINESE LINK: Zhongwen Tiandi Level 2 provides a practical, learner-centered, and enjoyable language and culture learning experience for intermediate level Chinese learners, as well as an efficient and comprehensive teaching resource for instructors. The intermediate level in the Chinese Link: program, this series systematically emphasizes and integrates the "5Cs" principles of the National Standards for Foreign Language Education-- Communication, Cultures, Comparisons, Connections, and

Communities--throughout the program. While learners of Chinese at the intermediate level need to continue to build their mastery of commonly used vocabulary and grammatical structures, they also need to begin to train for advanced level language usage: Chinese Link Level 2 supports these two needs. Chinese Link Level 2 continues to systematically build learners' abilities in the four skills of listening, speaking, reading, and writing so that they can reach the intermediate level of competence. The content and exercises in the intermediate level program build upon what has been studied in the introductory level program, gradually adding more sophisticated vocabulary and grammatical structures. Frequent consolidation and review exercises are included. Chinese Link Level 2 also helps learners get ready for advanced Chinese study by introducing formal and written expressions and increasing students' "media literacy." This is accomplished by providing exposure to common Chinese idioms and the stories behind them, and by including texts written in the style of newspaper, magazines, and Internet news articles. Chinese Link Level 2 / Part 1 is comprised of 10 lessons, presenting traditional and simplified character versions side-by-side, allowing students to focus on one or the other, or to see the variations between the characters. Chinese Link Level 2 Parts 1 and 2 are designed to be completed in an academic year of college-level study.

Concise and lucid writing made this book in its first edition the leading research methods text written specifically for counselors. The text introduces reader to the basics of how to do research-from formulating a problem, doing a literature review, selecting a design, collecting and analyzing data, through reporting results. It also provides readers with the information they need to become intelligent consumers of published research. Covering a broad range of quantitative, qualitative, and mixed methods designs, as well as action research and program evaluation, the text presents the most common types of research used in the field of counseling. From reviews of the text: "The content is strong and clearly explained. . . This is the best [counseling research text] I have seen." - Monica Osburn, UNC-Pembroke and Webster "The majority of my students report it is easy to follow and understand, even those with limited research knowledge. . . . So often I find counseling students viewing research methods courses as courses they must just 'get through' and not ones that will help them in their future careers. This book . . . does help students understand how this knowledge can benefit them in their future practice. -Ryan Melton, Portland State University "The book is very clear and concise, and it is an easy text for the students to understand. The many examples used throughout the text and sample paper are great resources for the students. . . . It is relevant to counseling students, it has information required by CACREP, and it is a comprehensive research textbook that is easy for students to follow. The examples given are superb" -Lakitta D. Johnson, Jackson State University Personalize learning with MyEducationLab® MyEducationLab® is an online homework, tutorial, and assessment program designed to work with the text to engage students and improve results. In his 2 terms as prime minister, from 1963–1968, Lester B. Pearson oversaw the revamping of Canada through the

introduction of Medicare, the Canada Pension Plan, the Commission on Bilingualism and Biculturalism, the Auto Pact, and the new Maple Leaf flag. Pearson came to power after an impressive career as a diplomat, where he played a vital role in the creation of NATO and the United Nations, later serving as president of its General Assembly. He put Canada on the world stage when he won the 1957 Nobel Peace Prize for his handling of the Suez Crisis, during which he brokered the formation of a UN peacekeeping force. Author Andrew Cohen, whose books have focused on Canada's place in the world, is the perfect author to assess Pearson's legacy.
