In these essays,  
dancers and scholars  
from around the world  
carefully consider the  
transformation of an  
improvised folk form  
from North Africa and

the Middle East into a  
popular global dance  
practice. They explore  
the differences  
between the solo  
improvisational forms  
of North Africa and the  
Middle East, often  
referred to as raqs  
sharki, which are part  
of family celebrations,  
and the numerous  
globalized versions of  
this dance form, belly  
dance, derived from  
the movement  
vocabulary of North  
Africa and the Middle  
East but with a variety  
of performance styles  
distinct from its site of  
origin. Local versions of  
belly dance have  
grown and changed  
along with the role that  
dance plays in the  
community. The global  
evolution of belly  
dance is an inspiring  
example of the  
interplay of  
imagination, the

internet and the social forces of local communities.
