Current Special Forces doctrine is very limited concerning the conduct of guerrilla warfare combat operations in urban environments. The focus of the current doctrine is on conducting combat operations in rural environments. The material available on urban environments is defined in broad terms primarily focused on the larger picture of unconventional warfare. Some considerations and characteristics of urban tactical operations are addressed but are so general they could be applied to a conventional infantry unit as easily as to a guerrilla force. Traditionally, Special Forces guerrilla warfare doctrine has focused on its conduct in a rural environment as historically, most guerrilla movements have formed,

operated, and been supported outside of the cities. Increasing world urbanization is driving the "center of gravity" of the resistance, the populace and their will to resist, into urban settings. As populations have gravitated to the cities on every continent, the ability to prosecute a successful guerrilla war has often depended on the ability to conduct combat operations in these environments. Predominantly, the aspects of unconventional warfare that were executed in urban settings were those such as intelligence activities, recruiting, sabotage, or subversion. Guerrilla warfare combat operations were done in urban environments only when absolutely necessary.

On March 17, 2011, many Syrians rose up against the authoritarian Asad regime that had ruled them with an iron fist for forty years. Initial successes were quickly quashed, and the revolution seemed to devolve into a civil war pitting the government against its citizens and extremist mercenaries. As of late 2015, almost

300,000 Syrians have been killed and over half of a total population of 23 million forced out of their homes. Nine million are internally displaced and over four million are wandering the world, many on foot or in leaky boats. Countless numbers have been disappeared. These shocking statistics and the unstoppable violence notwithstanding, the revolution goes on. The story of the attempted crushing of the revolution is known. Less well covered has been the role of artists and intellectuals in representing to the world and to their people the resilience of revolutionary resistance and defiance. How is it possible that artists, filmmakers and writers have not been cowed into numbed silence but are becoming more and more creative? How can we make sense of their insistence that despite the apocalypse engulfing the country their revolution is ongoing and that their works participate in its persistence? With smartphones, pens, voices and brushes, these artists registered their determination to keep the idea of the revolution alive. Dancing in Damascus traces the first

four years of the Syrian revolution and the activists' creative responses to physical and emotional violence.

A well-known novelist and journalist from the coastal city of Jableh, Samar Yazbek witnessed the beginning four months of the uprising first-hand and actively participated in a

variety of public actions and budding social movements. Throughout this period she kept a diary of personal reflections on, and observations of, this historic time. Because of the outspoken views she published in print and online, Yazbek quickly attracted the attention and fury of the regime, vicious rumours started to spread about her disloyalty to the homeland and the Alawite community to which she belongs. The lyrical narrative describes her struggle to protect herself and her young daughter, even as her activism propels her into a horrifying labyrinth of insecurity after she is forced into living on the run and detained multiple times, excluded from the Alawite community and renounced by her family, her hometown and even her childhood friends. With rare empathy and journalistic prowess Samar Yazbek compiled oral testimonies from ordinary Syrians all over the country. Filled with snapshots of exhilarating hope and horrifying atrocities, she offers us a wholly unique perspective on the Syrian uprising. Hers is a modest yet powerful testament to the

strength and commitment of countless unnamed Syrians who have united to fight for their freedom. These diaries will inspire all those who read them, and challenge the world to look anew at the trials and tribulations of the Syrian uprising.

In Syria, culture has become a critical line of defence against tyranny. *Syria Speaks* is a celebration of a people determined to reclaim their dignity, freedom and self-expression. It showcases the work of over fifty artists and writers who are challenging the culture of violence in Syria. Their literature, poems and songs, cartoons, political posters and photographs document and interpret the momentous changes that have shifted the frame of reality so drastically in Syria. Moving and inspiring, *Syria Speaks* is testament to the courage, creativity and imagination of the Syrian people. 'Syria Speaks is a remarkable achievement and a remarkable book - a wise, courageous, imaginative and beautiful response to all that is ugly in human behaviour. This extraordinary anthology

gives a voice to those we may have forgotten, or whom we may classify as simply passive and silent victims. The people shown living, dreaming and speaking here are far more than victims and only silent if we refuse to hear them.' A.L. Kennedy 'An extraordinary collection, revealing a dynamic and exciting culture in painful transition - a culture where artists are really making a difference ... You need to read this book.' Everyman's Dictionary of Economics, the third volume of The Collected Works of Arthur Seldon, translates the often obscure jargon and technical terminology of economics into direct, plain English understandable by both the academic and the layperson. The most abstruse topic becomes clear as he conveys the sense in ordinary language, without loss of meaning through oversimplification. Everyman's Dictionary of Economics covers a wide range of economic thought and includes every relevant term that the average person might

encounter in a written or other treatment of the subject. In addition to conveying a sense of how economic thought has evolved over the centuries, the Dictionary stimulates and challenges readers in its questioning of conventional wisdom about government intervention and manipulation of economies. It too has "stood the test of time"; nearly thirty years after the second edition and forty years after the first, this book still engages readers--economists and nonprofessionals alike. Everyman's Dictionary of Economics, Volume 3 of The Collected Works of Arthur Seldon, is an indispensable reference for laypeople and for academics. The entire series includes: Volume 1: The Virtues of Capitalism (September 2004) Volume 2: The State Is Rolling Back (November 2004) Volume 3: Everyman's Dictionary of Economics (January 2005) Volume 4: Introducing Market Forces into "Public" Services (February 2005) Volume 5: Government Failure and Over-Government (May 2005) Volume 6: The Welfare State: Pensions, Health, and Education (October 2005) Volume 7: The IEA, the LSE, and the

The first large-scale exhibition exploring contemporary abstract painting. In a major

exhibition at the Museum of Contemporary Art, Los Angeles, director Jeffrey Deitch considers the reemergence of abstract painting among a broad range of artists whose work is as diverse conceptually as it is aesthetically. Looking back to Andy Warhol's seminal *Shadow*, *Oxidation*, and *Rorschach* paintings as among the many touchstones that underwrite the contemporary impulse to abstraction, the show features artists such as Julie Mehretu, whose large-scale works densely layer maplike markings; Josh Smith, whose lush canvases often explore a single theme repeatedly, such as his signature; and Tauba Auerbach, whose highly formal explorations of materials challenge conventional modes of perception. Additional artists include Rudolf Stingel, Christopher Wool, Glenn Ligon, Urs Fischer, Mark Bradford, Wade Guyton, Kelley Walker, Seth Price, Kerstin Brätsch and Adele Röder, and Sterling Ruby. The exhibition catalogue features a roundtable discussion between Jeffrey Deitch, art historian Johanna Burton, and curators James Meyer and Scott Rothkopf.

From 1970 until his death  
in 2000, Hafiz Asad ruled  
Syria with an iron fist. His  
regime controlled every  
aspect of daily life.

Seeking to preempt  
popular unrest, Asad  
sometimes facilitated the  
expression of anti-  
government sentiment by  
appropriating the work of  
artists and writers, turning  
works of protest into  
official agitprop. Syrian  
dissidents were forced to  
negotiate between the  
desire to genuinely  
criticize the authoritarian  
regime, the risk to their  
own safety and security  
that such criticism would  
invite, and the fear that  
their work would be co-  
opted as government  
propaganda, as what  
miriam cooke calls  
“commissioned criticism.”

In this intimate account of  
dissidence in Asad’s Syria,  
cooke describes how  
intellectuals attempted to  
navigate between charges  
of complicity with the

state and treason against  
it. A renowned scholar of  
Arab cultures, cooke  
spent six months in Syria  
during the mid-1990s  
familiarizing herself with  
the country’s literary  
scene, particularly its  
women writers. While she  
was in Damascus,  
dissidents told her that to  
really understand life  
under Hafiz Asad, she had  
to speak with playwrights,  
filmmakers, and, above  
all, the authors of “prison  
literature.” She shares  
what she learned in  
Dissident Syria. She  
describes touring a  
sculptor’s studio, looking  
at the artist’s subversive  
work as well as at pieces  
commissioned by the  
government. She relates a  
playwright’s view that  
theater is unique in its  
ability to stage protest  
through innuendo and  
gesture. Turning to film,  
she shares filmmakers’  
experiences of making  
movies that are praised  
abroad but rarely if ever  
screened at home. Filled  
with the voices of writers  
and artists, Dissident  
Syria reveals a  
community of conscience  
within Syria to those  
beyond its borders.

teachers working with children with special needs in mainstream or special school settings are increasingly discovering the value of research to inform and improve their teaching. This highly accessible text features:

- identification of the key research issues which relate to different aspects of SEN and inclusion
- guidance on how to carry out research in order to enhance teaching and learning for children whose progress is causing concern
- explanations of a range of approaches to

research, including empirical studies of individuals, groups and institutions with children, parents, teachers and other professionals

- advice on how to use and disseminate research findings

The authors support their basic guidance with a variety of examples of published research and they offer a framework and practical suggestions for planning and carrying out school-based investigations with different purposes in mind. This text will be relevant to teachers and

SENCOs, and to mentors and tutors in their supporting role.
