Karen Pryor's Clicker  
Training

The hidden brain is the voice in our ear when we make the most important decisions in our lives—but we're never aware of it. The hidden brain decides

whom we fall in love with and whom we hate. It tells us to vote for the white candidate and convict the dark-skinned defendant, to hire the thin woman but pay her less than the man doing the same job. It can direct us to safety when disaster strikes and move us to extraordinary acts of altruism. But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a

mob. In a series of compulsively readable narratives, Shankar Vedantam journeys through the latest discoveries in neuroscience, psychology, and behavioral science to uncover the darkest corner of our minds and its decisive impact on the choices we make as individuals and as a society. Filled with fascinating characters, dramatic storytelling, and

cutting-edge science, this is an engrossing exploration of the secrets our brains keep from us—and how they are revealed.

Clicker Training for Dogs

Presents the techniques and benefits of clicker training for the show ring.

**Foundation Training for the Companion Dog**

Dogwise Publishing

A rare and absolutely enchanting look inside the Harvard of wild animal

wranglers As is obvious to anyone who has read her most e-mailed New York Times article of 2006, "What Shamu Taught Me About a Happy Marriage," Amy Sutherland knows a thing or two about animals. In *Kicked, Bitten, and Scratched*, she takes readers behind the gates of Moorpark Community College, where students are taught such skills as how to train a hyena to pirouette and coax a tiger to open wide for a vet exam. As she follows the faculty, student body, and four-footed teaching

aides at Moorpark's Exotic Animal Training and Management program, Sutherland produces a true walk on the wild side, filled with wonder, comedy, occasional heartache, and transcendent beauty.

*Try Tracking!* Harper Collins

*Agility Right From The Start* is the first training resource you should have and the last one you'll need.

*A Step-By-Step Guide to Teaching New Skills and Fun Tricks in 15 Minutes a Day* Dogwise Publishing

It is such a joy to work with a dog who proactively engages in behaviors while you build a relationship that will surprise you in its depth and versatility. Clicker training has proven to be the most effective means of developing a "Thinking Dog," one who offers behaviors in anticipation of a reward rather than a dog who has been trained only to wait for his owner's commands. One of the biggest obstacles the new clicker trainer faces, however, is his or her own history of training

and habits of working with a dog. But you can make the transition once you understand how dogs learn and the mechanisms of operant conditioning. Learn from author Gail Fisher's crossover experiences as well as those of the hundreds of students she has helped make the change over the past thirteen years. You will learn: \* How dog training has evolved over the past 100 years, the strengths and weaknesses of various training styles, and to what extent you can intergrate your

previous methods with clicker training. \* The particular challenges you will face as you crossover from whatever style of training you have used in the past (compulsion, luring, etc.) to clicker training. \* The detailed nuts and bolts of clicker training - from getting a behavior started, to methods of rewarding, to reducing the need to click and treat over time while still getting the results you want. \* How to work with dogs trained with force or harsh methods and change them into

behavior-offering  
dynamos.

Crunch & Des Simon &  
Schuster

The core of your training  
and your ultimate  
performance rests on  
engagement - on having a  
dog that wants - demands  
to work with you. This  
book is about building  
that relationship through  
reinforcement,  
motivation, and clear  
criteria.

Clicker train your cat in  
just 15 minutes a day with  
this easy-to-use guide  
Clicker training uses  
positive reinforcement to

teach your cat new skills,  
encourage good behavior,  
and correct undesirable  
behavior. How to Clicker  
Train Your Cat makes cat  
training easy with short,  
targeted lessons that  
teach everything from  
basic commands to fun  
tricks. Just communicate  
the desired behavior,  
click, and give your cat a  
treat--it's that simple! This  
guide to cat training  
includes: A progressive  
approach--Start small with  
essential commands and  
practical skills that serve  
as a foundation for  
additional training, solving

behavioral problems, and bonding through play. Step-by-step instructions-- Find clear directions that break down each cat training lesson into small steps so both you and your cat feel confident and comfortable. Cat communication basics-- Learn what your cat is telling you through their body language, facial expressions, and vocalizations, and how their unique traits require training them differently than other animals. Build a stronger connection and improve your cat's

behavior with this positive approach to cat training. **Don't Shoot the Dog** Simon and Schuster "... A new method of animal training using positive reinforcement and a 'clicker' is easy for you and fun for your dog."--Cover. *The Art of Teaching and Training* HarperCollins UK Clicker train your dog in just 15 minutes a day with this easy-to-use guide Clicker training uses positive reinforcement to teach your dog new skills and behaviors--just command, click, reward,

and repeat! Clicker Training for Dogs makes training easy for both you and your canine friend, with short, targeted lessons that teach everything from basic cues to fun tricks. You'll also learn how to use clicker training for dogs to solve common behavioral problems, including barking for attention and pulling on the leash. Clicker Training for Dogs includes: Brief bursts of training--Short sessions--just 15 minutes a day-- make it easy to find time for consistent dog training

while being brief enough to keep your pup engaged. Step-by-step instructions--Find clear directions that break down each training lesson into small steps so you can feel confident that you're teaching each concept correctly. Pro tips--Get pointers that help you make the most out of each training session and troubleshoot potential setbacks, such as your dog getting confused. Improve your pup's behavior and build a stronger bond with Clicker Training for Dogs.

*A Positive Training Plan for Competition Success* Sunshine Books (MA)  
Almost every dog has some degree of prey drive - it's in his genes - some more than others. You may experience it when your otherwise well mannered dog suddenly takes off chasing after a rabbit, squirrel, or a jogger. The old approach to solving this problem involved the use of "corrective" devices like choke chains and electronic fences. A better approach includes training and management

techniques that reward your dog for choosing to focus on and stay near you, the owner. Clarissa von Reinhardt has been working on the issue of how to deal with unwanted predatory behavior for many years. In this fascinating and inspiring book, she takes the readers step by step through her training methods, inviting them to learn more about a dog's complex spectrum of behavior, and ultimately to maintain as much control as possible over the urge to chase prey.

The New Click to Calm:  
Solutions for All Dogs in a  
Challenging World Æclipse  
Press

From the founder of “clicker” training, the widely praised humane approach to shaping animal behavior, comes a fascinating book—part memoir, part insight into how animals and people think and behave. A celebrated pioneer in the field of no-punishment animal training, Karen Pryor is responsible for developing clicker training—an all-positive, safe, effective way to

modify and shape animal behavior—and she has changed the lives of millions of animals. Practical, engrossing, and full of fascinating stories about Pryor’s interactions with animals of all sorts, *Reaching the Animal Mind* presents the sum total of her life’s work. She explains the science behind clicker training, how and why it works, and offers step-by-step instructions on how you can clicker-train any animal in your life. For bonus video clips, slide shows, articles,

downloadable exercises, and links expanding on the contents of the book, go to [ReachingtheAnimalMind.com](http://ReachingtheAnimalMind.com).

*Mind Games for Dogs*

Sunshine Books

Positive Answers for the Aggressive Dog. The dog that bites. The dog that attacks other dogs. The dog who may not survive his own aggressive behavior. What can be done to help these dogs? When Emma Parsons, canine behavior consultant, discovered that her own dog was

aggressive, she developed innovative and effective strategies to calm, alter, and re-shape his reactive displays, and those of her clients' dogs.

*Clicker Training for the Show Ring* Sunshine Books (MA)

Mother Nature equipped our canine companions with an ability to smell that is at least 300 times some say 1,000 times more powerful than our own. It is the most important way that your dog gathers information about the world. Tracking is something that comes

naturally to each and every dog, no matter what age, what breed or what size. Teaching your dog to track is the perfect way to spend time together, build your relationship and challenge both of you mentally and physically. You can teach very young puppies to track even before they can start formal obedience training, and Try Tracking! methods work with adult dogs too. Why you and your dog should Try Tracking! Tracking is fun both you and your dog when you

use these positive methods. Any age dog can be taught to track 7 week-old puppies or senior citizens. It improves fitness for both dog and owner! You'll gain a new-found respect for just how smart your dog is.

*Awesome Obedience*

Shedd Aquarium Society  
Victoria Stilwell provides her successful programme for perfect dog training.

[Don't Shoot the Dog!](#)

\*Howell Book House

Target training provides another way to help you shape behaviors, lets you build speed from the

beginning, and focuses your dog on the training. Save your back, work at a distance, or get tricky parts of the dog, such as back feet, moving the way you want them to move. Learn how to train your dog to target your hand, a contact disk or a target stick, then utilize targets to build complex behaviors; learn how to break down a behavior into easily trainable steps to get great results; use target training for at-home manners, therapy dog work, canine sports, or to teach tricks; teach

your dog to work at a distance with speed and accuracy. Targeting can help you get to your goal no matter what it is! *The Puppy Tracking Primer* Dogwise Publishing With almost 200 pages, corresponding photos, and step-by-step instructions, *Puppy Start Right* is the ideal book for fostering and enhancing a “parenting relationship” among people and their dogs! This book is a great resource for all dog parents, dog trainers, puppy socialization class instructors, shelters, and

adoption agencies. Whether you are raising a new puppy, have recently adopted an adolescent dog, or are living with an adult dog, *Puppy Start Right* is the book for you. This book sets the foundation for a lifelong partnership between you and your dog based on a mutual understanding and trust. *Puppy Start Right* is more than a puppy book about socialization; it’s a positive approach to problem solving, prevention, and training, all without the use of force. Problem-solving

topics address common behaviors of adolescent dogs, including mouthing/biting, jumping, chewing, digging, counter surfing, and stealing objects. Prevention topics include confinement/independence training, food bowl exercises, handling and restraint, and more. The book also includes: • The Developmental Life Stages of Dogs •

Domestication, Social Behavior, How Dogs Perceive the World, and Canine Communication • How Dogs Learn • Positive Socialization and What to do if Your Dog is Frightened? • Applying the Problem-Solving Model to Prevent Common Behavior Problems • House Training in 5 Easy Steps • Foundation Training Exercises Agility Right from the Start Karen Pryor Clicker
