This book elucidates the foundations of the theoretical and historical concepts associated with Tabla. It presents a comprehensive compendium on the subject in the light of well-researched historical facts and sound analysis. It throws new light on the origin and development of Tabla, drawing significantly from the author's original research on the topic. Besides, a detailed study of the genealogical and technical aspects of the six acknowledged schools or gharanas, the author has painstakingly collected the names of the younger generation of

practitioners, the torchbearers of their respective traditions. The book contains a rich repertoire of compositions from various schools of Tabla. Beginners as well as fairly advanced students, practitioners, academics and even researchers will find many interesting facts and useful material throughout the book. It also pays tribute to many legendary Tabla maestros, whose lives and struggles are truly inspirational.

Tabla virtuoso, composer and percussionist Zakir Hussain is an international music phenomenon. The eldest son of the legendary Ustad Allarakha, Zakir gave his first public concert at the age of seven and was immediately hailed a child prodigy. In later years, his masterful dexterity and creative genius led to his becoming one of the most sought-after accompanists to the very best of Hindustani classical musicians and dancers. Zakir Hussain is equally recognized as one of the foremost contemporary jazz and world music percussionists; he has performed at innumerable concerts both as a solo artist and with renowned jazz musicians on the grand stages of the world, from the Royal Albert Hall to Madison Square Garden. With John McLaughlin, L. Shankar and T.H. Vinayakram, Zakir Hussain created music history with the band Shakti. He has acted in James Ivory's *Heat and Dust* and Sai Paranjpye's *Saaz*, and scored music for directors such as Bernardo Bertolucci (*Little Buddha*), Aparna Sen (*Mr. & Mrs. Iyer*) and Ismail Merchant (*In Custody*, *The Mystic Masseur*); he has also played the tabla for countless 1960s Hindi film soundtracks. In an in-depth conversation with Zakir Hussain, Nasreen Munni Kabir takes the readers through the story of his life: how he was deemed an 'unlucky' child; the early years of growing up in Mahim; his training from age four with his extraordinary father; and his experiences and memories working with a host of legendary musicians, including Pandit Ravi Shankar, Ustad Ali Akbar Khan and Ustad Vilayat Khan. A born storyteller, Zakir speaks with humour and humility of his understanding of music, his relationship with his students, his dedication and love for the tabla, and the way he negotiates life as an acclaimed celebrity living in both America and India. *Zakir Hussain: A Life in Music* is

a brilliant introduction to the life and times of a huge music star, a revered role model and a visionary world musician.

This book explores the Islamicate cultures that richly inform Bombay cinema. These cultures are imagined forms of the past and therefore a contested site of histories and identities. Yet they also form a culturally potent and aesthetically fertile reservoir of images and idioms through which Muslim communities are represented and represent themselves. Islamicate influences inform the language, poetry, music, ideas, and even the characteristic emotional responses elicited by Bombay cinema in general; however, the authors argue that it is in the three genre forms of The Muslim Historical. The Muslim Courtesan Film and The Muslim Social that these cultures are concentrated and distilled into precise iconographic, performative and narrative idioms. Furthermore, the authors argue that it is through these three genres, and their critical re-working by New Wave filmmakers, that social and historical significance is attributed to Muslim cultures for Muslims and non-Muslims alike. Shri Mataji writes that "India is a very ancient country and it has been blessed by many seers and saints who wrote treatises about reality and guidelines on how to achieve it." This is just such a book. This book is both an introduction to Sahaja Yoga, describing the nature of the subtle reality within each of us, and a step-by-step handbook on how to be a good Sahaja Yogi, the nature of Sahaj culture, how to be a leader and how to raise children. "The knowledge of Sahaja Yoga cannot be described in a few sentences or one small book, but one should understand that all this great work of creation and evolution is done by some great subtle organization, which is in the great divine form."

The Encyclopedia of Percussion is an extensive guide to percussion instruments, organized for research as well as general knowledge. Focusing on idiophones and membranophones, it covers in detail both Western and non-Western percussive instruments. These include not only instruments whose usual sound is produced percussively (like snare drums and triangles), but those whose usual sound is produced concussively (like

castanets and claves) or by friction (like the cuíca and the lion's roar). The expertise of contributors have been used to produce a wide-ranging list of percussion topics. The volume includes: (1) an alphabetical listing of percussion instruments and terms from around the world; (2) an extensive section of illustrations of percussion instruments; (3) thirty-five articles covering topics from Basel drumming to the xylophone; (4) a list of percussion symbols; (5) a table of percussion instruments and terms in English, French, German, and Italian; and (6) an updated section of published writings on methods for percussion.

Rarely do we come across books on musical instruments. And one covering the whole gamut of Indian Classical musical instruments is practically unheard of. This book by Dr. Suneera Kasliwal covers almost all instruments in vogue in the classical music scenerio of southern and northern India. Apart from delving deep into the history and evaluation of each of these instruments , this well researched book deals with their structural and manufacturing details and the basic techniques of sound production. Beautifully illustrated, this book is recommended for all those who have genuine interest in Indian Classical music and instruments.
