 Research & Education Association Research & Education
 Association (REA) is an organization of educators, scientists, and
 engineers specializing in various academic fields. Founded in
 1959 with the purpose of disseminating the most recently
 developed scientific information to groups in industry,
 government, high schools, and universities, REA has since
 become a successful and highly respected publisher of study
 aids, test preps, handbooks, and reference works. REA's Test
 Preparation series includes study guides for all academic levels in
 almost all disciplines. Research & Education Association publishes
 test preps for students who have not yet completed high school,
 as well as high school students preparing to enter college.
 Students from countries around the world seeking to attend
 college in the United States will find the assistance they need in
 REA's publications. For college students seeking advanced
 degrees, REA publishes test preps for many major graduate
 school admission examinations in a wide variety of disciplines,
 including engineering, law, and medicine. Students at every level,
 in every field, with every ambition can find what they are looking
 for among REA's publications. While most test preparation books
 present practice tests that bear little resemblance to the actual
 exams, REA's series presents tests that accurately depict the
 official exams in both degree of difficulty and types of questions.
 REA's practice tests are always based upon the most recently
 administered exams, and include every type of question that can
 be expected on the actual exams. REA's publications and
 educational materials are highly regarded and continually receive
 an unprecedented amount of praise from professionals,
 instructors, librarians, parents, and students. Our authors are as
 diverse as the fields represented
