Cooper, Heron and  
Heward (2007) define  
ABA as the following:  
Applied behavior  
analysis is the science  
in which tactics derived  
from the principles of  
behavior are applied  
systematically to  
improve socially  
significant behavior,  
and experimentation is  
used to identify the  
variables responsible  
for behavior change.  
What does this mean?  
Applied Behavior  
Analysis The science in  
which tactics derived  
from the principles of  
behavior are applied to  
improve socially

significant behavior, experimentation used to identify variables responsible for improvement.
