This book examines the development of Chinese children's literature from the late Qing to early Republican era. It highlights the transnational flows of knowledge, texts, and cultures during a time when children's literature in China and the West was developing rapidly. Drawing from a rich archive of

periodicals, novels, tracts, primers, and textbooks, the author analyzes how Chinese children's literature published by Protestant missionaries and Chinese educators in the late nineteenth and early twentieth centuries presented varying notions of childhood. In this period of dramatic transition from the dynastic Qing empire to the new Republican China, young readers were offered different models of childhood, some of which challenged dominant Confucian ideas of what it meant to be a child. This volume sheds new light on a

little-explored aspect of Chinese literary history. Through its contributions to the fields of children's literature, book history, missionary history, and translation studies, it enhances our understanding of the negotiations between Chinese and Western cultures that shaped the publication and reception of Chinese texts for children. *Divorce Horse* Ohio State University Press

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass*

The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the

dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, *The American Yawp* incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before

chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

*The Stolen Bride* WaterBrook

The definitive collection of terrifying stories by "one of the greatest writers of the 20th century" (Ray Bradbury), edited by award-winning author Victor LaValle Among the greats of 20th-century horror and fantasy, few names stand above Richard Matheson. Though known by many for novels like *I Am Legend* and his sixteen *Twilight Zone* episodes, Matheson truly shines in his chilling, masterful short stories. Since his first story appeared in 1950, virtually every

major writer of science fiction, horror, and fantasy has fallen under his influence, including Stephen King, Neil Gaiman, Peter Straub, and Joe Hill, as well as filmmakers like Stephen Spielberg and J.J. Abrams. Matheson revolutionized horror by taking it out of Gothic castles and strange cosmos and setting it in the darkened streets and suburbs we recognize as our own. He infused tales of the fantastic and supernatural with dark explorations of human nature, delving deep into the universal dread of feeling alone and threatened in a dangerous world. The Best of Richard Matheson brings together his greatest hits as chosen by Victor LaValle, an expert on horror fiction and one of its brightest talents, marking the first major overview of Matheson's

legendary career. "[Matheson is] the author who influenced me most as a writer." -Stephen King "Richard Matheson's ironic and iconic imagination created seminal science-fiction stories . . . For me, he is in the same category as Bradbury and Asimov." -Steven Spielberg "He was a giant, and YOU KNOW HIS STORIES, even if you think you don't." -Neil Gaiman For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary

authors, as well as up-to-date translations by award-winning translators.

This ground-breaking text explores the intersection between dominant modes of critical educational theory and the socio-political landscape of American Indian education. Grande asserts that, with few exceptions, the matters of Indigenous people and Indian education have been either largely ignored or indiscriminately absorbed within critical theories of education. Furthermore, American Indian scholars and educators have largely resisted engagement with critical educational theory, tending to concentrate instead on the production of historical monographs, ethnographic

studies, tribally-centered curricula, and site-based research. Such a focus stems from the fact that most American Indian scholars feel compelled to address the socio-economic urgencies of their own communities, against which engagement in abstract theory appears to be a luxury of the academic elite. While the author acknowledges the dire need for practical-community based research, she maintains that the global encroachment on Indigenous lands, resources, cultures and communities points to the equally urgent need to develop transcendent theories of decolonization and to build broad-based coalitions.
