FROM SOCIAL OUTCAST TO NECROPHILE
AND MURDERER -- HIS APPALLING CRIMES

STUNNED AN ERA. San Francisco, the 1920s. In an age when nightmares were relegated to the fiction of Edgar Allan Poe and distant tales of the Whitechapel murders, a real-life monster terrorized America. His acts of butchery have proved him one of history's fiercest madmen. As an infant, Earle Leonard Nelson possessed the power to unsettle his elders. As a child he was unnaturally obsessed with the Bible; before he reached puberty, he had an insatiable, aberrant sex drive. By his teens, even Earle's own family had reason to fear him. But no one in the bone-chilling winter of 1926 could have predicted that his degeneracy would erupt in a sixteen-month frenzy of savage rape, barbaric murder, and unimaginable defilement -- deeds that would become the hallmarks of one of the most notorious fiends of the twentieth century, whose blood-lust would not be equaled until the likes of Henry Lee Lucas, John Wayne Gacy, and Jeffrey Dahmer. Drawing on the "gruesome, awesome, compelling reporting" (Ann Rule) that is his trademark, Harold Schechter takes a dark journey into the mind of an unrepentant sadist -- and brilliantly lays bare the myth of innocence

that shrouded a bygone era.

Follows the case of Christine Paolilla, who brutally murdered four people with the help of her boyfriend, who later committed suicide.

Manson in His Own Words W. W. Norton & Company

This book examines major political movements during the Cold War through the rhetorical trope of the Nazi analogy. The examination pits ideas concerning utopian and dystopian social orders against the problems associated with reproducing rhetorical tropes throughout the various agencies of mass American culture.

Goodbye Helter Skelter W. W. Norton & Company

In a series of prison interviews, a journalist

probes the minds of the women who killed for Charles Manson in this "fascinating study of human behavior" (Kirkus). In the summer of 1969, Leslie Van Houten and Patricia Krenwinkel carried out horrific acts of butchery on the orders of the charismatic cult leader Charles Manson. But to anyone who knew them growing up, they were bright, promising girls, seemingly incapable of such an unfathomable crime. Award-winning journalist Nikki Meredith began visiting Van Houten and Krenwinkel in prison to discover how they had changed during their incarceration. The more Meredith got to know them, the more she was lured into a deeper dilemma: What compels "normal" people to do unspeakable things? The author's relationship with her subjects provides a chilling lens through which we gain insight into a particular kind of woman capable of a particular kind of brutality. Through their stories, Nikki Meredith takes readers on a dark journey into the very heart of evil.

In 1927, Charley Braggs arrived home to find two of his children dead. The doctor who observed the children in their last

moments diagnosed food poisoning as the cause. There was no need for an autopsy. His wife, Nannie, blamed tainted grains as the source but Charley wasn't convinced. Charley didn't feel safe around his wife. In the middle of the night, he took his eldest daughter and ran for his life. The outpouring of sympathy doubled for Nannie when they discovered her husband's treachery. To her community, she was a sweet lady renowned for her cheerful disposition. But behind the facade was a much darker and sinister reality. A truth that four of her future husbands, two of her sisters, her mother, her mother-in-law, her nephew and her grandson would perilously discover. *Black Widow* is a dramatic and chilling account of one of the most shocking true crime stories in American history. Ryan Green's riveting narrative draws the reader into the real-live horror experienced by the victims and has all the elements of a classic thriller. CAUTION: This book contains descriptive accounts of abuse and violence. If you are especially sensitive to this material, it might be advisable not to read any further

Lullaby and Good Night W. W. Norton & Company

A journalist's twenty-year fascination with the Manson murders leads to shocking new revelations about the FBI's involvement in this riveting reassessment of an infamous case in American history. Over two grim nights in Los Angeles, the young followers of Charles Manson murdered seven people, including the actress Sharon Tate, then eight months pregnant. With no mercy and seemingly no motive, the Manson Family followed their leader's every order -- their crimes lit a flame of paranoia across the nation, spelling the end of the sixties. Manson became one of history's most infamous criminals, his name forever attached to an era when charlatans mixed with prodigies, free love was as possible as brainwashing, and utopia -- or dystopia -- was just an acid trip away. Twenty years ago, when journalist Tom O'Neill was reporting a magazine piece about the murders, he worried there was nothing new to say. Then he unearthed shocking evidence of a cover-up behind the "official" story, including police carelessness, legal misconduct, and potential surveillance by intelligence agents. When a tense interview with Vincent Bugliosi --

prosecutor of the Manson Family and author of *Helter Skelter* -- turned a friendly source into a nemesis, O'Neill knew he was onto something. But every discovery brought more questions: Who were Manson's real friends in Hollywood, and how far would they go to hide their ties? Why didn't law enforcement, including Manson's own parole officer, act on their many chances to stop him? And how did Manson -- an illiterate ex-con -- turn a group of peaceful hippies into remorseless killers? O'Neill's quest for the truth led him from reclusive celebrities to seasoned spies, from San Francisco's summer of love to the shadowy sites of the CIA's mind-control experiments, on a trail rife with shady cover-ups and suspicious coincidences. The product of two decades of reporting, hundreds of new interviews, and dozens of never-before-seen documents from the LAPD, the FBI, and the CIA, *Chaos* mounts an argument that could be, according to Los Angeles Deputy District Attorney Steven Kay, strong enough to overturn the verdicts on the Manson murders. This is a book that overturns our understanding of a pivotal time in American history.

Hunting Charles Manson Grove/Atlantic, Inc.

In January 2002, forty-six-year-old Christa Worthington was found stabbed to death in the kitchen of her Truro, Cape Cod, cottage, her curly-haired toddler clutching her body. A former Vassar girl and scion of a prominent local family, Christa had abandoned a glamorous career as a fashion writer for a simpler life on the Cape, where she had an affair with a married fisherman and had his child. After her murder, evidence pointed toward several local men who had known her. Yet in 2005, investigators arrested Christopher McCowen, a thirty-four-year-old African-American garbage collector with an IQ of 76. The local headlines screamed, "Black Trash Hauler Ruins Beautiful White Family" and "Black Murderer Apprehended in Fashion Writer Slaying," while the sole evidence against McCowen was a DNA match showing that he'd had sex with Worthington prior to her murder. There were no fingerprints, no witnesses, and although the state medical examiner acknowledged there was no evidence of rape, the defendant was convicted after a five-week trial replete with conflicting

testimony, accusations of crime scene contamination, and police misconduct—and was condemned to three lifetime sentences in prison with no parole. Rarely has a homicide trial been refracted so clearly through the prism of those who engineered it, and in *Reasonable Doubt*, bestselling author and biographer Peter Manso is determined to rectify what has become one of the most grossly unjust verdicts in modern trial history. In his riveting new book he bares the anatomy of a horrific murder—as well as the political corruption and racism that appear to be endemic in one of America's most privileged playgrounds, Cape Cod. Exhaustively researched and vividly accessible, *Reasonable Doubt* is a no-holds-barred account of not only Christa Worthington's murder but also of a botched investigation and a trial that was rife with bias. Manso dug deep into the case, and the results were explosive. The Cape DA indicted the author, threatening him with fifty years in prison. The trial and conviction of Christopher McCowen for rape and murder should worry American citizens, and should prompt us to truly examine the lip service we pay to the

presumption of innocence . . . and to reasonable doubt. With this explosive and challenging book Manso does just that.

"Grips you by the throat from beginning to end."—Cleveland Plain Dealer *ALONE WITH HER NEW HUSBAND* on a tiny Pacific atoll, a young woman, combing the beach, finds an odd aluminum container washed up out of the lagoon, and beside it on the sand something glitters: a gold tooth in a scorched human skull. The investigation that follows uncovers an extraordinarily complex and puzzling true-crime story. Only Vincent Bugliosi, who recounted his successful prosecution of mass murderer Charles Manson in the bestseller *Helter Skelter*, was able to draw together the hundreds of conflicting details of the mystery and reconstruct what really happened when four people found hell in a tropical paradise. And *the Sea Will Tell* reconstructs the events and subsequent trial of a riveting true murder mystery, and probes into the dark heart of a serpentine scenario of death.

Selected by the Modern Library as one of the 100 best nonfiction books of all time

From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a

participant in the events.

The growth of mass incarceration in the United States eludes neat categorization as a product of the political Right. Liberals played important roles in both laying the foundation for and then participating in the conservative tough-on-crime movement that is largely credited with the rise of the prison state. But can progressive politics, with their benevolent intentions, nevertheless contribute to the expansion of mass incarceration? In *Progressive Punishment*, Judah Schept offers an ethnographic examination into that liberal discourses about therapeutic justice and rehabilitation can uphold the logic, practices, and institutions that comprise the carceral state. Schept examines how political leaders on the Left, despite being critical of mass incarceration, advocated for a "justice campus" that would have dramatically expanded the local criminal justice system. At the root of this proposal, Schept argues, is a confluence of neoliberal-style changes in the community that naturalized prison expansion as

political common sense for a community negotiating deindustrialization, urban decline, and the devolution of social welfare. While the proposal gained momentum, local activists worked to disrupt the logic of expansion and instead offer alternatives to reduce community reliance on incarceration. A well-researched and well-narrated study, *Progressive Punishment* provides an important and novel perspective on the relationship between liberal politics, neoliberalism, and mass incarceration. -- from back cover.

"Bugliosi, the quintessential prosecutor, has written a crime book that should be read by every lawyer and judge in America."—F. Lee Bailey On December 11, 1966, a mysterious assassin shot Henry Stockton to death, set his house on fire, and left the scene without a trace. A year later, when a woman was found brutally killed, shreds of evidence suggested a connection between the two murders. In the Palliko-Stockton trial, prosecutor

Vincent Bugliosi offered a brilliant summation that synthesized for the jury the many inferences and shades of meaning in the testimony, fitting all the pieces together in a mosaic of guilt. But will the jury be persuaded?

Aileen Wuornos was executed in Florida, on the 9th of October, 2002 at the age of

46. She was the 10th woman to be sentenced to death in the USA since the death penalty resumed in 1976. Convicted for the murder of six men, in a two month period, Aileen claimed she acted in self defence however the investigation into these claims was poor and she later retracted her statement announcing to the Supreme Court, "I'm one who seriously hates human life and would kill again." All-too-often female prostitutes have been the victims of male serial killers - the killings of Aileen 'Lee' Wuornos were the inverse of this. She was a child prostitute, fleeing an abusive childhood at the hands of her grandparents, which led straight into a disastrous adulthood of difficult affairs with both men and women. Her metamorphosis from victim to attacker had brutal consequences: a stream of dead men. Following a renewed interest in this woman after the film "Monster", this is her story in her own words.

“Gives us a portrait close to the truth” of the man responsible for the Tate-LaBianca murders that changed Hollywood and ended the sixties (The New York Times Book Review). This astonishing book lays bare the life and the mind of a man whose acts have left us horrified. His story provides an enormous amount of new information about his life and how it led to the Tate-LaBianca murders and reminds us of the complexity of the human condition.

Born in the middle of the Depression to an unmarried fifteen-year-old, Manson lived through a bewildering succession of changing homes and substitute parents, until his mother finally asked the state authorities to assume his care when he was twelve. Regimented and often brutalized in juvenile homes, Manson became immersed in a life of petty theft, pimping, jail terms, and court appearances that culminated in seven years of prison. Released in 1967, he suddenly found himself in the world of hippies and flower children, a world that not only accepted him, but even glorified his anti-establishment values. It was a

combination that led, for reasons only Charles Manson can fully explain, to tragedy. Manson’s story, distilled from seven years of interviews and examinations of his correspondence, provides sobering insight into the making of a criminal mind, and a fascinating picture of the last years of the sixties. “A glimpse of part of the American experience that is rarely described from the inside . . . It compels both interest and horror.”—The Washington Post “Provides a fascinating glimpse into the mind of a truly dangerous human being.”—Los Angeles Herald Examiner
