Winds of Strife Lucas Books

A new era of exciting adventures and shocking revelations continues to unfold, as the legendary Star Wars saga sweeps forward into astonishing new territory. Civil war looms as the fledgling Galactic Alliance confronts a growing number of rebellious worlds—and the approaching war is tearing the Skywalker and Solo families apart. Han and Leia return to Han's homeworld, Corellia, the heart of the resistance. Their children, Jacen and Jaina, are soldiers in the Galactic Alliance's campaign to crush the insurgents. Jacen, now a complete master of the Force, has his own plans to bring order to the galaxy. Guided by his Sith mentor, Lumiya, and with Luke's young son Ben at his side, Jacen embarks on the same path that his grandfather Darth Vader once did. And while Han and Leia watch their only son become a stranger, a secret assassin entangles the couple with a dreaded name from Han's past: Boba Fett. In the new galactic order, friends and enemies are no longer what they seem. . . . Features a

bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years!

By his early thirties, Paul Allen was a world-famous billionaire—and that was just the beginning. In 2007 and 2008, Time named Paul Allen, the cofounder of Microsoft, one of the hundred most influential people in the world. Since he made his fortune, his impact has been felt in science, technology, business, medicine, sports, music, and philanthropy. His passion, curiosity, and intellectual rigor—combined with the resources to launch and support new initiatives—have literally changed the world. In 2009 Allen discovered that he had lymphoma, lending urgency to his desire to share his story for the first time. In this classic memoir, Allen explains how he solved problems, what he learned from his many endeavors—both the triumphs and the failures—and his compelling vision for the future. He reflects candidly on an extraordinary life. The book also features previously untold

stories about everything from the true origins of Microsoft to Allen's role in the dawn of private space travel (with SpaceShipOne) and in discoveries at the frontiers of brain science. With honesty, humor, and insight, Allen tells the story of a life of ideas made real.

First published by the Combat Studies Institute Press. The resulting anthology begins with a general overview of urban operations from ancient times to the midpoint of the twentieth century. It then details ten specific case studies of U.S., German, and Japanese operations in cities during World War II and ends with more recent Russian attempts to subdue Chechen fighters in Grozny and the Serbian siege of Sarajevo. Operations range across the spectrum from combat to humanitarian and disaster relief. Each chapter contains a narrative account of a designated operation, identifying and analyzing the lessons that remain relevant today.

Unleash the Force and fight the Empire. The Emperor has swept away the last

vestiges of the Old Republic. Darth Vader and his dark apprentice hunt down the surviving Jedi one by one, but a few escape capture and find refuge on backwater worlds. Fewer still reach deep into the Force, unleashing powers beyond their wildest imaginings. Meanwhile, other brave heroes rise to oppose the tyranny of the Empire, heralding the birth of the Rebellion. This campaign guide draws its inspiration from *The Force Unleashed*, a revolutionary new video game from Lucasfilm, Ltd. It presents a complete campaign setting during the period between Episode III: *Revenge of the Sith* and Episode IV: *A New Hope*. The guide offers exciting new character options and Force powers for players as well as adventure content, campaign seeds, and ready-to-play adversaries for Gamemasters. This supplement is designed for use with the *Star Wars Roleplaying Game Saga Edition* core rulebook.

"They burned me and mine. I'm not done until I burn them and theirs in return."

Witch-hunts have plagued the kingdom of Olyanath for decades. Thousands were slain due to the king's paranoia of women who practice Senspiritic magic. No more. Nye and his companions have seen enough of murder and misogyny. Fifteen years have passed since he joined the witch-hunters, and now, at long last, an opportunity to destroy them from the inside reveals itself. An opportunity to overthrow the king and end his reign of cruelty. But fifteen years of pretense have taken a toll. The strive for vengeance has steered Nye toward a path of violence and villainy. His hands are stained by the blood of countless innocents, his heart is

scorched by grief, and his sanity hangs by a thread. Even if he can kill the king and see this revolution through, it may not suffice to purge the voices from his head.
