**Political Ideas in Modern Britain** Summerdale Pub Limited  
The rise of the New Right and the collapse of state communism in 1989 has fundamentally changed political thinking in the late twentieth century. His accessible account of political thinking in Britain since the 1880s now includes detailed analysis of: \* the demise of traditional conservatism and socialism \* the rise and decline of

the New Right \* the growth of feminism, liberalism and pluralism  
 Political Ideas in Modern Britain charts the changing intellectual landscape of political thinking, illustrating how contemporary political thought is both rooted in tradition and a radical transformation of it. Whether the future is liberal, communitarian, pluralist, or simply uncertain, this is an essential guide for students of British politics. Rodney Barker is Senior Lecturer in Government at the London School of Economics and Political Science.

An innovative guide to applying the strategies of a bodyguard to

create a Buddhist "security plan" for protecting ourselves from suffering • Presents the unique concept of the "bodyguard" and its protection tactics as a metaphor for explaining and implementing Buddhist teachings • Recasts the Four Noble Truths as the Four Noble Tactical Truths, the Eightfold Path as the Eight Tactics Plan, and the notion of Interbeing in the Buddhist world as the Tactics of Interdepending • Offers a new, modern understanding for the new generation of Buddhist practitioners intrigued by a more Western take on Buddhism Drawing from his extensive experience as a professional protection agent, Jeff Eisenberg uses the tactics and strategies that a bodyguard employs in protecting a client from a threat as a blueprint for creating a Buddhist "security plan." This plan provides the practical tools to protect one's self from the threat of suffering in our world. Using the metaphor of being the Buddha's bodyguard to understand the Buddhist teachings, the book details how to protect our inner "Buddha nature" and secure our mental and emotional wellbeing. We all have the chance to train ourselves to be more proactive in our own safety and avoid becoming a victim. And if we are victimized, this training will prepare us to take appropriate actions that will aid in our ability to survive with much less injury and trauma. As the author affirms: "It is vital to realize that a physical altercation is the last thing that happens in a chain of events. And while we must never blame the victim, our safety is our responsibility. Many situations can be avoided, or their severity greatly lessened, if we pay attention during the chain of events that leads up to it and respond appropriately." While this book is not about personal protection per se, it applies personal protection theory and specific tactics utilized by

bodyguards to Buddhist practice, laying out strategies to protect our inner Buddha from attack. Thus the Four Noble Truths are applied to the concept of “threat” in the form of Four Noble Tactical Truths, the Eight Tactics Plan echoes the Eightfold Path, and the Tactics of Interdepending embrace the notion of Interbeing in the Buddhist world. With “paying attention” and mindfulness being key concepts of both a bodyguard’s profession and Buddhist practice, this pioneering book speaks to Buddhists and non-Buddhists alike.

The ancient Mogul Empire embraced almost as much of India as is controlled by the British today, and extended westward into Europe as far as Moscow and Constantinople. It was founded by a young warrior known as Timour the Tartar, or Tamerlane, as he is more frequently called in historical works. He was a native of Kesh, a small town fifty miles south of Samarkand, the capital of Bokhara, which was known as Tartary in those days. This young man conquered more nations, ruled over a wider territory and a larger number of people submitted to his authority than to any other man who ever lived, before or since.

The legal profession is one of honor, respect and dignity--compensated not only with treasure, pleasure and honor but with the right to right a wrong. In *David and Goliath in the Modern Court*, author Virgilio J. Santiago provides insight into the Philippine justice system and the role of lawyer to attain truth and dispense justice not only in the Philippines but in all courts of justice, the primordial duty of courts of justice being to attain truth and dispense justice. As Santiago grew up in Manila, he had little ambition. His desires included becoming a driver, marrying his sweetheart, and living a simple life. It took an accident and a possible jail sentence to change his mind. On March 15, 1965, he realized his mother's dream for him to become an attorney. In this memoir, Santiago recalls the highlights of his career and relates details of clients, cases, trials, and verdicts. *David and Goliath in the Modern Court* narrates Santiago's quest to attain truth and justice, and it describes how courts in the Philippines traversed the labyrinth path of lies, fraud, and schemes to stop evil.

"The dramatic story of the soldiers at the heart of the Roman empire . . . traces the history of the praetorians and the emperors they served."—Adrian Goldsworthy, author of *Philip and Alexander: Kings and Conquerors* Founded by Augustus around 27 B.C., the elite Praetorian Guard was tasked with the protection of the emperor and his family. As the centuries unfolded, however, Praetorian soldiers served not only as protectors and enforcers but also as powerful political players. Fiercely loyal to some emperors, they vied with others and ruthlessly toppled those who displeased them, including Caligula, Nero, Pertinax, and many more. Guy de la Bédoyère provides a compelling first full narrative history of the Praetorians, whose dangerous ambitions ceased only when Constantine permanently disbanded them. de la Bédoyère introduces Praetorians of all echelons, from prefects and messengers to artillery experts and executioners. He explores the delicate position of emperors for whom prestige and guile were the only defenses against bodyguards hungry for power. Folding fascinating details into a broad assessment of the

Praetorian era, the author sheds new light on the wielding of power in the greatest of the ancient world's empires. "Any future researcher into the subject will certainly begin here."—The Times (London) "A lively and up-to-date history of the Praetorian Guard, the anti-coup divisions of the Roman emperors from Augustus to Constantine. De la Bédoyère tells their story with clarity and panache, and his book can be most warmly recommended both to aspiring tyrants and the ordinary armchair historian."—The Sunday Times "Fast paced and engaging."—The Sunday Telegraph "A definitive and highly readable account."—Tom Holland, author of *Rubicon: The Last Years of the Roman Republic* Streetwise Yale University Press

This is the story of the real bodyguard, Lee Sansum, ex-Royal Military Policeman, martial arts champion, and expert in close protection. Part of Mohamed and Dodi Al-Fayed's protection team, Lee had to guard the most famous woman in the world, Princess Diana. He formed a close bond with Diana and the young princes, particularly Harry, and it was only by a stroke of luck that he was not in the car the night Diana died. That night proved to be the turning point in his own life. Over the course of his career, Lee has worked with the rich and famous, such as Hollywood stars Tom & Nicole, Pele and Sylvester Stallone, and he gives a candid account of what it's like to work in a job where lives are literally at stake. Growing up in a tough part of Greater Manchester, Lee learnt the hard way that to survive you need to stand up to bullies and be harder than your opponent. A career in the Royal Military Police took him to the "Bandit Country" of South Armagh, where he pulled an AWOL squaddie out of a honey trap moments before an IRA active service unit arrived to kill him.

He worked undercover in Northern Ireland and joined the SIB, the Army's own internal affairs unit, before entering the world of private security, operating in the world's hotspots, such as Libya and the breakaway state of Somaliland. Lee's story is one of quiet strength, of how reading a situation is invaluable to getting out of trouble. It is one of achieving personal goals and overcoming trauma through the help of his wife, Kate, and through his love of martial arts. It is also a fitting tribute to one of the outstanding figures of our age.

Although military operations against terrorist forces often garner the headlines, those who protect government, military, and business leaders from assassination or kidnapping are also in the front lines against terrorism. Based on techniques of the U.S. Secret Service, U.S. State Department Security, the Special Air Service, the Royal Corps of Military Police, the Metropolitan Police, the KGB and its successor the FSB, France's GSPR, and other protective units around the world, *The Bodyguard Manual* details the steps a protective team takes to prevent attack as well as the tactics which are employed when it is necessary to counter an attack in progress. From security aboard Concorde, the Orient Express, or the Queen Elizabeth 2, to protecting a military general officer in combat, *The Bodyguard Manual* allows the reader to "stand post" with the professional bodyguard.

New York Times bestselling author Katherine Center's *The Bodyguard* is unabashedly romantic, laugh-out-loud funny, and the perfect summer read. She's got his back. Hannah Brooks looks more like a kindergarten teacher than somebody who could kill you with a wine bottle opener. Or a ballpoint pen. Or a dinner napkin. But the truth is, she's an Executive Protection Agent (aka bodyguard), and she just got hired to protect superstar actor Jack Stapleton from his middle-aged, corgi-breeding stalker. He's got her heart. Jack Stapleton's a household name--captured by paparazzi on beaches the world over, famous for, among other things, rising out of the waves in all manner of clingy board shorts and glistening like a Roman deity. But a few years back, in the wake of a family tragedy, he dropped from the public eye and went off the grid. They've got a secret. When Jack's mom gets sick, he comes home to the family's Texas ranch to help out. Only one catch: He doesn't want his family to know about his stalker. Or the bodyguard thing. And so Hannah--against her will and her better judgment--finds herself pretending to be Jack's girlfriend as a cover. Even though her ex, like a jerk, says no one will believe it. What could possibly go wrong Hannah hardly believes it, herself. But the more time she spends with Jack, the more real it all starts to seem. And there lies the heartbreak. Because it's easy for Hannah to protect Jack. But protecting her own, long-neglected heart? That's the hardest thing she's ever done.
