AQA A Level Sociology Student Book 2 (Collins AQA A Level Sociology) Polity While the formal definition of divorce may

be concise and straightforward (legal termination of a marital union, dissolving bonds of matrimony between parties), the effects are anything but, particularly when children are involved. The Americans for Divorce Reform estimates that "40 or possibly even 50 percent of marriages will end in divorce if current trends continue." Outside the U.S., divorce rates have markedly increased across developed countries. Divorce and its effects are a significant social factor in our culture and others. It might be said that a whole "divorce industry" has been constructed, with divorce lawyers and mediators, family counselors, support groups, etc. As King Henry VIII's divorces showed, divorce has not always been easy or accepted. In some countries, divorce is not permitted and even in Europe, countries such as Spain, Italy, Portugal, and the Republic of Ireland legalized divorce only in the latter quarter of the 20th century. This multi-disciplinary encyclopedia covers curricular subjects related to divorce as examined by disciplines ranging from marriage and the family to anthropology, social and legal history, developmental and clinical psychology, and religion, all through a lens

of cultural sociology. Features: 550 signed entries, A-to-Z, fill 3 volumes (1,500 pages) in print and electronic formats, offering the most detailed reference work available on issues related to divorce, both in the U.S. and globally. Cross-References and Further Readings guide readers to additional resources. A Chronology provides students with context via a historical perspective of divorce. In the electronic version, the comprehensive Index combines with Cross-References and thematic Reader's Guide themes to provide convenient search-and-browse capabilities. For state and nation entries, uniform entry structure combined with an abundance of statistics facilitates comparison between and across states and nations. Appendices provide further annotated sources of data and statistics. *Rethinking Sexual Equality* Univ of California Press

Introducing Sociology for AS Level John Wiley & Sons

In this book, one of the foremost sociologists of the present day, turns his gaze upon the key figures and seminal institutions in the rise of sociology. Turner examines the work of Karl Marx, Max Weber, Karl Mannheim, Georg Simmel, Emile Durkheim and Talcott Parsons to produce a rich and authoritative perspective on the classical tradition. He argues that classical sociology has developed on many fronts, including debates on the family, religion, the city, social stratification, generations and citizenship. The book defends classical perspectives as a living tradition for understanding contemporary social life and demonstrates how the classical tradition produces an agenda for contemporary sociology.

Culture, cultural difference, and cultural conflict always surround us. Cultural sociologists aim to understand their role

across all aspects of social life by examining processes of meaning-making. In this crisp and accessible book, Lyn Spillman demonstrates many of the conceptual tools cultural sociologists use to explore how people make meaning. Drawing on vivid examples, she offers a compelling analytical framework within which to view the entire field of cultural sociology. In each chapter, she introduces a different angle of vision, with distinct but compatible approaches for explaining culture and its role in social life: analyzing symbolic forms, meaning-making in interaction, and organized production. This book both offers a concise answer to the question of what cultural sociology is and provides an overview of the fundamental approaches in the field.

Praised for its conversational tone, personal examples, and helpful pedagogical tools, the Fourth Edition of Explorations in Classical Sociological Theory: Seeing the Social World is organized around the modern ideas of progress, knowledge, and democracy. With this historical thread woven throughout the chapters, the book examines the works and intellectual contributions of major classical theorists, including Marx, Spencer, Durkheim, Weber, Mead, Simmel, Martineau, Gilman, Douglass, Du Bois, Parsons, and the Frankfurt School. Kenneth Allan and new co-author Sarah Daynes focus on the specific views of each theorist, rather than schools of thought, and highlight modernity and postmodernity to help contemporary readers understand how classical sociological theory applies to their lives.

3 things to know about the focus of Dynamic Business Law, 2e: Emphasis on

ETHICAL DECISION-MAKING. In chapter 2, the authors introduce a framework for making ethical business decisions that students can use on a regular basis. Following each case there are questions designed to train students to apply this approach. Then repeatedly throughout the chapters, questions about business ethics are raised in the text. This framework is designed to help improve the learning process of students and to give a sense of relevancy to the ethical decision making process. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. Emphasis on the BUSINESS in business law. Dynamic Business Law emphasises the tie of legal issues back to the core business curriculum. This will help both students and faculty. Students need to understand how the concepts they learn in this course tie into their business careers. Instructors can easily show that the study of business

law is best seen as a foundational component of the larger study of business administration. Dynamic Business Law now includes Connect Business Law as a packaging option. Connect includes Interactive Applications for each chapter of the textbook and helps students apply legal concepts to business, stimulates critical thinking, and reinforces key topics. Overview: Dynamic Business Law, 2e is appropriate for the two-term business law course. Emphasis on the BUSINESS in business law. Dynamic Business Law emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly "defending" the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law contains a helpful instructor's manual, particularly

for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. Instructor's Supplements: The Online Learning Center contains the complete IM, Test Bank, PowerPoint, image library, and video clips. Instructor's Manual: The Instructor's Manual provides a clear outline of how to begin using this text and is especially helpful to adjuncts who teach Business Law. Sample syllabi are included, as well as detailed lecture outlines incorporating PowerPoints and other materials professors can bring into their lectures. Exciting and new examples from outside the text are also included, and can be discussed in class to help generate excitement and involvement in the course from students. Test Bank: The Test Bank, developed by Vonda Laughlin of Carson-Newman College, contains a variety of true/false, multiple choice, and essay

questions - as well as “scenario-based” questions, which are application-based, and use a situation described in a narrative, with 3 - 5 multiple-choice test questions based on the situation described in the narrative. We've aligned our Test Bank with the new AACSB guidelines, tagging each question according to its knowledge and skills areas. Categories include Global, Ethics and Social Responsibility, legal and other External Environment, communication, Diversity, Group Dynamics, Individual Dynamics, Production and IT. Designations aligning questions with Learning Objectives, features, and case, exist as well. PowerPoint Presentation slides: Developed by Jeff Penley at Catawba Valley Community College, we offer two different sets of slides for professors. The “Basic” set consists of an outline of each chapter. The “Premium” set expands on this outline to include hypotheticals and ethical dilemmas, allowing the instructor to incorporate application into the lecture. Instructor Video DVD (ISBN: 0077339118, 13-digit: 9780077339111): The Instructor Video DVD contains video clips from CBS that highlight current legal issues.

Instructor Notes, located on the OLC, give insight into how to incorporate segments into the classroom and offer questions to stimulate discussion. Most of these videos are also part of Premium content - a big plus for instructors teaching online/hybrid courses.
