A foundation of Chinese life sciences and medicine, the Huang Di Nei Jing Su Wen is now available for the first time in a complete, fully annotated English translation. Also known as Su Wen, or The Yellow Emperor's Inner Classic, this influential work came into being over a long period reaching from the 2nd century bce to the 8th century ce. Combining the views of different schools, it relies exclusively on natural law as conceptualized in yin/yang and Five Agents doctrines to define health and disease, and repeatedly emphasizes personal responsibility for the length and quality of one's life. This two-volume edition includes excerpts from all the major commentaries on the Su Wen, and extensive annotation drawn from hundreds of monographs and articles by Chinese and Japanese authors produced over the past 1600 years and into the twentieth century.

Nel volume, il sessuologo e psicoterapeuta Fabrizio Russo propone una panoramica delle conoscenze psicologiche e psicopatologiche per comprendere il comportamento sessuale, dedicando ampio spazio alle disfunzioni sessuali, alle perversioni sessuali e al loro trattamento. Il testo, illustrato da Marcella Tarantino, viene arricchito dai contributi della filosofa Irene Famà, della biologa Cinzia Boffa, del medico Antonella Moretto e della psicoterapeuta Federica Ciocca, per offrire un approccio integrato alla sessualità. Grazie a questo approccio multidisciplinare, il volume si rivolge a un pubblico ampio: dai lettori che a qualsiasi titolo nutrono interesse per le discipline psicologiche, umanistiche o scientifiche, a quelli che desiderano trovare spunti di riflessione sulla propria affettività, sessualità e sul modo di relazionarsi con l'altro sesso.

Un approccio multidisciplinare alla sessualità

'Sometimes called coining, spooning or scraping, Gua sha is defined as

instrument-assisted unidirectional press-stroking of a lubricated area of the body surface that intentionally creates 'transitory therapeutic petechiae' representing extravasation of blood in the subcutis.' Gua sha has been used for centuries in Asia, in Asian immigrant communities and by acupuncturists and practitioners of traditional East Asian medicine worldwide. With the expansion of traditional East Asian medicine, Gua sha has been used over broad geographic areas and by millions of people. It is valuable in the treatment of pain and for functional problems with impaired movement, the prevention and treatment of acute infectious illness, upper respiratory and digestive problems, and many acute or chronic disorders. Research has demonstrated Gua sha radically increases surface microperfusion that stimulates immune and anti-inflammatory responses that persist for days after treatment. The second edition expands on the history of Gua sha and similar techniques used in early Western Medicine, detailing traditional theory, purpose and application and illuminated by science that focuses its relevance to

modern clinical practice as well as scholarly inquiry. This book brings the technique alive for practitioners, with clear discussion of how to do it - including correct technique, appropriate application,

individualization of treatment - and when to use it, with over 50 case examples, and superb color photographs and line drawings that demonstrate the technique. NEW TO THIS EDITION • New chapter on immediate and significant Tongue changes

as a direct result of Gua sha • Research and biomechanisms • Literature review from Chinese language as well as English language medical journal database • New case studies • Over 30 color photographs
