CO2 Laser Cutting explains and describes how engineering materials are cut using a CO2 laser. Information is given on the cutting of metals and non metals on a wide range of levels from practical

advice and processing parameters to explanations of the physical and chemical reactions which take place in the cut zone. In an effort to make the book as readable and informative as possible the subject is treated in a descriptive rather than a mathematical way.CO2 Laser Cutting | John Powell | SpringerCO2 Laser Cutting by Powell, John (ebook) CO2 Laser Cutting by John Powell.
