Books

Ready to write your book? So why haven't you done it yet? If you're like most nonfiction authors, fears are holding you back.

Sound familiar? Is my idea good enough? How do I structure a book? What exactly are the steps to write it? How do I stay motivated? What if I actually finish it, and it's bad? Worst of all: what if I publish it, and no one cares? How do I know if I'm even doing the right things? The truth is, writing a book can be scary and overwhelming—but it doesn't have to be.

There's a way to know you're on the right path and taking the right steps. How? By using a method that's been validated with thousands of other Authors just like you. In fact, it's the same exact process used to produce dozens of big

bestsellers—including David Goggins's *Can't Hurt Me*, Tiffany Haddish's *The Last Black Unicorn*, and Joey Coleman's *Never Lose a Customer Again*.

The Scribe Method is the tested and proven process that will help you navigate the entire book-writing process from start to finish—the right way.

Written by 4x New York Times Bestselling Author

Tucker Max and publishing expert Zach Obront, you'll learn the step-by-step method that has helped over 1,500 authors write and publish their books. Now a Wall Street Journal Bestseller itself, *The Scribe Method* is specifically designed for business leaders, personal development gurus, entrepreneurs, and any expert in their field who has accumulated years of hard-won knowledge and wants to put it out into the world. Forget the rest of the books written by pretenders. This is the ultimate resource for anyone who wants to professionally write a great nonfiction book.

 This new 10th edition of John Figliozi's popular *Worldwide Listening Guide* explains radio listening in all of today's formats - "live," on-demand, WiFi, podcast, terrestrial, satellite, internet, digital and, of course, analog AM, FM and SW. The introductory section explains all the newest delivery methods for radio, and the devices used to access broadcasts from around the world at any time of day or night. Listening to programs from distant lands is no longer a late-night activity dependant upon shortwave propagation conditions. There is a whole other world of radio out there for your listening enjoyment. Thousands of radio stations worldwide use the Internet to stream their broadcasts. Traditional radio is being augmented by computers, laptops, tablets, smartphones, satellites, WiFi receivers and multiplexed digital transmission methods, greatly enhancing the listening experience. Use *The Worldwide Listening Guide* to join in the excitement of listening to worldwide radio, listening

to news, information, music and entertainment from around the world broadcast in English. The Guide is organized to make it easy and convenient to find radio programs of interest to you. All program listings are provided two ways: First, programs are listed by UTC time, station, days of broadcast, the type of program, and their frequencies and web addresses. Second, special Classified Listings are provided to help listeners find programs of specific interest. The 37 classified program listings make it easy to find programs by topic or subject area.

antenna, *Radio: A Complete Guide to the Industry* offers a concise, one-stop introduction to all aspects of the radio industry. Readers are taken on a lively tour of radio's history from the early experiments with wireless to today's satellite and digital radio. Industry veteran William A. Richter brings readers inside the typical station to explain who does what and how all the pieces fit together. The book also includes some brief interviews from working professionals for more perspective. Richter explains how ratings work, gives an overview of the major industry players, and guides readers through FCC regulations and other ethical and legal issues that impact radio. Written in a crisp, easy style, and including glossaries in each chapter, *Radio* is well suited for a range of courses on radio. It is a valuable resource for anyone interested in radio, from aspiring college DJs to general managers of radio stations.

This book is the first full-length critical study to explore the rapidly growing cadre of

amateur-authored, independently-published, and niche-market picture books that have been released during the opening decades of the twenty-first century.

Emerging from a powerful combination of the ease and affordability of desktop publishing software; the promotional, marketing, and distribution possibilities allowed by the Internet; and the tremendous national divisiveness over contentious socio-political issues, these texts embody a shift in how narratives for young people are being creatively conceived, materially constructed, and socially consumed in the United States. Abate explores how titles such as *My Parents Open Carry* (about gun laws), *It's Just a Plant* (about marijuana policy), and *My Beautiful Mommy* (about the plastic surgery industry) occupy important battle stations in ongoing partisan conflicts, while they are simultaneously changing the landscape of American children's literature. The book demonstrates how texts like *Little Zizi and Me Tarzan*, *You Jane* mark the advent of not simply a new commercial strategy in texts for young readers;

they embody a paradigm shift in the way that narratives are being conceived, constructed, and consumed. Niche market picture books can be seen as a telling barometer about public perceptions concerning children and the social construction of childhood, as well as the function of narratives for young readers in the twenty-first century. At the same time, these texts reveal compelling new insights about the complex interaction among American print culture, children's reading practices, and consumer capitalism. Amateur-authored, self-published, and specialty-subject titles reveal the way in which children, childhood, and children's literature are both highly political and heavily politicized in the United States. The book will be of interest to scholars and students in the fields of American Studies, children's literature, childhood studies, popular culture, political science, microeconomics, psychology, advertising, book history, education, and gender studies.

From the duo behind the massively successful and

award-winning podcast *Stuff You Should Know* comes an unexpected look at things you thought you knew. Josh Clark and Chuck Bryant started the podcast *Stuff You Should Know* back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making *Stuff You Should Know* one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book for the first time—featuring a completely new array of subjects that they've long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations,

sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with *Stuff You Should Know*. With Josh and Chuck as your guide, there's something interesting about everything (...except maybe jackhammers). [The History of Music Production](#) Macmillan "Bevy knows what's what, and she is the kind of woman you want in your corner. If you don't believe me . . . buy the book." —Whoopi Goldberg "Funny, wise, well-experienced, empathetic, colorful—Bevy brings the spirit of humanity wherever she goes." —Pharrell Williams From the host of the fabulous and popular show *Bevelations* on SiriusXM's Radio Andy channel, Bevy Smith's irreverent and inspiring memoir about learning to live a big, authentic, and unapologetic life—and how you can, too Bevy Smith was living what seemed like a glamorous dream as a fashion

advertising executive, blazing a lucrative career for herself in the whitewashed magazine world. She jetsetted to Europe for fashion shows, dined and danced at every hot spot, and enjoyed a mighty roster of lovers. So it came as quite a shock to Bevy when one day, after arriving at her luxury hotel in Milan, she collapsed on the Frette bedsheets and sobbed. Years of rolling with the in-crowd had taken its toll. Her satisfaction with work and life had hit rock bottom. But Bevy could not be defeated, and within minutes (okay, days) she grabbed a notepad and started realizing a truer path—one built on self-reflection and, ultimately, clarity. She figured out how to redirect her life toward meaningful creativity and freedom. In her signature lively and infectious voice (there's no one like Bevy!), *Bevelations* candidly shares how she reclaimed her life's course and shows how we too can manifest our most bodacious dreams. From repossessing her bold childhood nature to becoming her own brand to envisioning her life's next great destination (which will feature natural

hair, important charitable giving, and a midcentury house overlooking the Pacific Ocean), Bevy invites readers along on the route of her personal transformation to reveal how each of us can live our best lives with honesty, joy, and, when we're in the mood, a killer pair of shoes.

A deeply personal call to action for women of color to find power from within and to join together in community, advocating for a new corporate environment where we all belong—and are accepted—on our own terms. Women of color comprise one of the fastest-growing segments in the corporate workforce, yet often we are underrepresented—among the first, few, or only ones in a department or company. For too long, corporate structures, social zeitgeist, and cultural conditioning have left us feeling exhausted and downtrodden, believing that in order to “fit in” and be successful, we must hide or change who we are. As a former senior partner at a large global services firm, Deepa Purushothaman experienced these feelings of isolation and burnout. She met with hundreds of other women of color across industries and cultural backgrounds, eager to hear about their unique and shared experiences. In doing so, she has come to understand our collective setbacks—and the path forward in achieving our goals. Business must

evolve—and women of color have the potential to lead that transformation. We must begin by pushing back against toxic messaging—including the things we tell ourselves—while embracing the valuable cultural viewpoints and experiences that give us unique perspectives at work. By fully realizing our own strengths, we can build collective power and use it to confront microaggressions, outdated norms, and workplace misconceptions; create cultures where belonging is never conditional; and rework corporations to be genuinely inclusive to all. The First, the Few, the Only is a road map for us to make a profound impact within and outside our organizations while ensuring that our words are heard, our lived experiences are respected, and our contributions are finally valued.

Dr. Laura Schlessinger

An all-encompassing guide to skeptical thinking from podcast host and academic neurologist at Yale University School of Medicine Steven Novella and his SGU co-hosts, which Richard Wiseman

calls "the perfect primer for anyone who wants to separate fact from fiction." It is intimidating to realize that we live in a world overflowing with misinformation, bias, myths, deception, and flawed knowledge. There really are no ultimate authority figures-no one has the secret, and there is no place to look up the definitive answers to our questions (not even Google). Luckily, *The Skeptic's Guide to the Universe* is your map through this maze of modern life. Here Dr. Steven Novella-along with Bob Novella, Cara Santa Maria, Jay Novella, and Evan Bernstein-will explain the tenets of skeptical thinking and debunk some of the biggest scientific myths, fallacies, and conspiracy theories-from anti-vaccines to homeopathy, UFO sightings to N-rays. You'll learn the difference between science and pseudoscience, essential critical thinking skills, ways to discuss conspiracy theories with that crazy co-worker of yours, and how to combat sloppy reasoning, bad arguments, and superstitious thinking. So are you ready to join them on an epic scientific quest, one that has taken

us from huddling in dark caves to setting foot on the moon? (Yes, we really did that.) **DON'T PANIC!** With *The Skeptic's Guide to the Universe*, we can do this together.

"Thorough, informative, and enlightening, *The Skeptic's Guide to the Universe* inoculates you against the frailties and shortcomings of human cognition. If this book does not become required reading for us all, we may well see modern civilization unravel before our eyes." -- Neil deGrasse Tyson "In this age of real and fake information, your ability to reason, to think in scientifically skeptical fashion, is the most important skill you can have. Read *The Skeptics' Guide Universe*; get better at reasoning. And if this claim about the importance of reason is wrong, *The Skeptics' Guide* will help you figure that out, too." -- Bill Nye

Life Doesn't Get Any Better Than This is a collection of true and moving stories, from tales of fatherhood ('The Glance') to a touching recount of the way small gestures lodge themselves in your heart ('Old Lovers'). "It is hard to choose a single story in this collection and to say: 'This is the best,' or 'this is the one that you really have to read,'" writes Rabbi Jack Riemer, co-founder of the National Rabbinic Network, "Almost all of them pull at my sleeve and say: 'You're not going to talk about me?'"

In *The History of Music Production*, Richard James Burgess draws on his experience as a producer, musician, and author. Beginning in 1860 with

the first known recording of an acoustic sound and moving forward chronologically, Burgess charts the highs and lows of the industry throughout the decades and concludes with a discussion on the present state of music production. Throughout, he tells the story of the music producer as both artist and professional, including biographical

sketches of key figures in the history of the industry, including Fred Gaisberg, Phil Spector, and Dr. Dre. Burgess argues that while technology has defined the nature of music production, the drive toward greater control over the process, end result, and overall artistry come from producers. The result is a deeply

knowledgeable book that sketches a critical path in the evolution of the field, and analyzes the impact that recording and disseminative technologies have had on music production. A key and handy reference book for students and scholars alike, it stands as an ideal companion to Burgess's noted, multi-edition book *The Art of Music Production*.
