AP Us History Study Guide The Princeton Review

Before the 99% occupied Wall Street... Before the concept of social justice had impinged on the social conscience... Before the social safety net had even been conceived... By the turn of the 20th Century, the era of the robber barons, Andrew Carnegie (1835-1919) had already accumulated a staggeringly large fortune; he was one of the wealthiest people on the globe. He guaranteed his position as one of the wealthiest men ever when he sold his steel business to create the United States Steel Corporation. Following that sale, he spent his last 18 years, he gave away nearly 90% of his fortune to charities, foundations, and universities. His charitable efforts actually started far earlier. At the age of 33, he wrote a memo to himself, noting ..".The amassing of wealth is one of the worse species of idolatry. No idol more debasing than the

worship of money." In 1881, he gave a library to his hometown of Dunfermline, Scotland. In 1889, he spelled out his belief that the rich should use their wealth to help enrich society, in an article called "The Gospel of Wealth" this book. Carnegie writes that the best way of dealing with wealth inequality is for the wealthy to redistribute their surplus means in a responsible and thoughtful manner, arguing that surplus wealth produces the greatest net benefit to society when it is administered carefully by the wealthy. He also argues against extravagance, irresponsible spending, or self-indulgence, instead promoting the administration of capital during one's lifetime toward the cause of reducing the stratification between the rich and poor. Though written more than a century ago, Carnegie's words still ring true today, urging a better, more equitable world through greater social consciousness.

The AP World History course and test are being overhauled in 2019-2020. This revised edition captures the latest College Board test changes, which include a reduction in the time range covered by the

exam (now 1200 CE to present; was previously 8000 BCE to present.) For students specifically looking to brush up on AP World History content right before the exam--or to cram in a course's worth of topic review in a short time--our ASAP Exam book is a perfect fit! This book includes a brief structure and tips overview, but the real emphasis is on need-to-know content review, not strategy or practice. With key topic lessons and lots of charts, timelines, outlines, mnemonics, call-out boxes, and critical terms & dates lists, it's also perfectly positioned for visual learners.

During her first visit to the beautiful island of Pohnpei in the middle of the Pacific Ocean, anthropologist Martha Ward discovered people who grew quarter-ton yams in secret and ritually shared a powerful drink called kava. She managed a medical research project, ate dog, became pregnant, and responded to spells placed on her. Thirty years later she returned to Pohnpei to learn what had happened there since her first visit. Were islanders still relaxed and casual about sex? Were they still obsessed with titles and social rank? Was the island still lush and beautiful? Had the inhabitants remained healthy? This second edition of Ward's best-selling account is a rare, longitudinal study that tracks people, processes, and a place through decades of change. It is also an intimate record of doing fieldwork that immerses readers in the sights, smells, tastes, sounds, and the sensory richness of Pohnpei. Ward addresses the ageless ethnographic questions about family life, politics, religion, traditional medicine, magic, and death together with contemporary concerns about postcolonial survival, the

discontinuities of culture, and adaptation to the demands of a global age. Her insightful discoveries illuminate the evolution of a culture possibly distant from yet important to people living in other parts of the world.

Most observers have assumed that school segregation in the United States was exclusively a southern phenomenon. In fact, many northern communities, until recently, engaged in explicit "southern style" school segregation whereby black children were assigned to "colored" schools and white children to white schools. Davison Douglas examines why so many northern communities did engage in school segregation (in violation of state laws that prohibited such segregation) and how northern blacks challenged this illegal activity. He analyzes the competing visions of black empowerment in the northern black community as reflected in the debate over school integration.
