Configuring Funds Management for SAP Public Sector Management SAP Press

Get greater insight into your cash operations with this comprehensive guide to cash management in SAP S/4HANA! Start by configuring bank account management (BAM), cash positioning, and liquidity management. Then perform your key processes: maintaining banks, processing cash transactions, forecasting liquidity, and more. Choose your deployment model, dive into the new One Exposure from Operations data model, and see what it takes to migrate your cash data. Cash in on SAP S/4HANA!

Functionality and Implementation Galileo Press Inc

Whether you're entering data, using SAP software on a daily basis, or need a foundational knowledge of navigating the SAP system, this book offers detailed steps and screenshots that walk you through the processes you need to do your job: logging on to the system,

navigation and maintenance, creating reports, printing, and more.

SAP Treasury and Risk Management

This book is for the professional financial manager, accountant, or bookkeeper who needs to learn the basics of SAP R/3 FI quickly, without wading through a morass of technical jargon. Featuring a clear, functional outline, copious sample screens, and simple step-by-step instructions, *Using SAP R/3 FI* presents the most widely used FI functions in plain, argot-free English, following menu lines from the actual program. The book also provides details about using FI for international business, such as translating the chart of accounts, keeping accounts in foreign currency, entering transactions in foreign currency, and revaluing accounts and open items in different currencies. You'll also learn the highlights of integrating R/3 FI with SD (order entry, shipping, and invoicing) and MM (purchasing, receiving, and inventory control). This remarkably detailed manual shows you how to use R/3 FI for all your basic accounting functions, including * General ledger * Accounts receivable * Accounts payable * System administration * And much, much more.

SAP Transaction Codes John Wiley & Sons

- Understand and implement strategies for optimizing financials reporting capabilities
- Master the best practices for simplifying, streamlining, and automating financial and management reporting
- Learn how to integrate Financials reporting with SAP ERP, SAP NetWeaver BW, and SAP BusinessObjects

This introduction to SAP S/4HANA Finance shows you next-generation finance in the new suite: financial accounting, management accounting, risk management, financial planning, and more. Consider how each process works in SAP S/4HANA, and explore the SAP Fiori apps that help you meet today's business user and reporting requirements. From previewing project planning to navigating deployment options, take your first steps toward financial transformation! a. The Basics Explore financial transformation with SAP's new platform. Discover the system, the database, the UI, and more--all from a business perspective. Then, understand how an SAP S/4HANA Finance implementation would impact your organization. b. Core Processes Financial transformation affects every

process. See what SAP S/4HANA does for management accounting, treasury and risk management, financial close, consolidation, reporting, and more. c. From Planning to Go-Live Get a head start on project preparation! See how SAP S/4HANA Finance fits into your IT landscape, and explore your deployment options: on-premise, hybrid, or cloud. Highlights Include: 1) Universal Journal 2) SAP HANA 3) Management accounting 4) Financial close and consolidation 5) Reporting and analytics 6) Treasury and Risk Management 7) SAP Fiori applications 8) Deployment and adoption 9) Financial transformation 10) SAP S/4HANA

E- Commerce by Dr. Sandeep Srivastava , Er. Meera Goyal , Shalu Porwal - SAP PRESS

This book on 'Configuring SAP General Ledger Accounting' in SAP S/4HANA Finance, covers configuring your SAP system for making use of the important functional areas of SAP General Ledger (G/L) Accounting. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you comprehend a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy reference. You will come across

with appropriate menu paths and Transactions, to help you to navigate the various activities. The coverage includes: Case Study SAP General Ledger Accounting: Overview Features & Functionalities Pre-requisites for Configuring SAP G/L Accounting Master Data Business Transactions Periodic Processing Preparation for Productive Start Information System The book starts with a case study, setting up the tone for further discussions, outlining the various business processes that you will be configuring towards implementing SAP G/L Accounting for your business. You will come across with the case study brief per configuration activity / step, in each Chapter. We discuss the overview of SAP G/L Accounting, before moving on to discuss its important features and functionalities. You will learn about extensibility, ledger concept, document splitting, parallel accounting, segment reporting, fast close and integration of SAP FI with SAP Controlling. We, then, move on to discuss the pre-requisites for configuring SAP G/L Accounting. Here, you will learn about the important FI general settings and also on how to configure the fields, ledgers and currencies. You will learn more about parallel accounting and the FI integration with CO. While on G/L master data, we discuss the G/L account master data, the profit center master data and segment master data. We bring out, in detail, the preparations that you need to make for creating these master data, besides elaborating their creation and processing. You will, then, be taken to learn about the functionality as well as the configuration of G/L business transactions, including document splitting, open item clearing, bank account interest calculation, and adjustment posting / reversal. In periodic

processing for G/L, you will learn about the various closing operations like check/count, valueate, reclassify, allocation and carry forward. We, then, discuss the preparations that you need to make for productive start of SAP G/L Accounting system. You will learn about the preparations, in detail, for new implementation, as well as for migration from an existing non-HANA SAP system. Finally, towards the end, we discuss the G/L information system. You will learn about the various G/L reports that are available for your business, including the drilldown reports and reports created with Report Painter / Report Writer. In all, you can use this book as a desktop-reference or a refresher for configuring SAP G/L Accounting. As the Chapters have been progressively elaborated, you will find the book very informative and easy to read.

SAP Activate World Bank Publications

Explore each area of S/4HANA Cash Management, including business functionality and configuration. Understand the many changes users need to be aware of in moving from SAP ERP Central Component (ECC) to S/4 HANA Cash Management. Find out what has changed, and what has stayed the same. Explore Bank Communication Management and Multi-Bank Connectivity. Identify the initial steps required for basic management of banks, house banks, and house bank accounts in S/4 HANA. Take a detailed look at cash operations. Learn more about One Exposure, the data storage structure for the data that feeds cash management reports. Get an overview of release 1809 and identify some of the new functionality delivered with SAP Cash Management powered by SAP HANA in release 1809. - Principle areas of Cash Management powered by S/4HANA - Comparison between ECC and SAP S/4HANA functionality, including an overview of release 1809 - Deployment options and implementation steps - SAP Cash Management implementation tips and tricks

Customizing Financial Accounting in SAP SAP PRESS

SAP S/4HANA is here, and the stakes are high. Get your project right with this guide to SAP Activate! Understand the road ahead: What are the phases of SAP Activate? Which activities happen when? Start by setting up a working system, then walk through guided configuration, and learn how to deploy SAP S/4HANA in your landscape: on-premise, cloud, or hybrid. Take advantage of SAP Activate's agile methodology, and get the guidance you need for a smooth and successful go-live! In this book, you'll learn about:

- a. Foundations Get up to speed with SAP Activate. Learn about key concepts like fit-to-standard and fit/gap analysis, understand the methodology, and walk through the key phases of project management.
- b. Tools and Technologies Open up your SAP Activate toolkit. See how to access SAP Activate content with SAP Best Practices Explorer, SAP Solution Manager, and more. Then, use SAP Best Practices and SAP Model Company to set up a working system for your workshops.
- c. Deployment Deploy SAP S/4HANA, step by step. Follow detailed instructions to plan, prepare for, and execute your on-premise or cloud deployment activities according to SAP Activate. Walk through key scenarios for a hybrid implementation of SAP S/4HANA in your landscape. Highlights Include: 1) Deployment 2) Guided configuration 3) Agile project delivery 4) SAP Best Practices 5) SAP Model Company 6) Organizational change management 7) SAP S/4HANA 8) SAP S/4HANA Cloud 9) Hybrid landscapes 10) C_ACTIVATION certification

Bank Communication Management in SAP S/4HANA SAP PRESS

This book, SAP FICO Black Book, brings to you a simple to the point non-

technical jargon free discussion on SAP FICO along with comprehensive real life examples based on authors real life implementations. One of the first FICO books which cover business cycles rather than plain technical configuration. Targeting intermediate and advanced-level readers, this book discusses Implementation Tools; Enterprise Structure; New GL Configuration; Online Document Splitting; AR; AP; AA; Bank accounting; Integration of FI with Other Modules; Business Processes; Controlling; Cost Center Accounting; Product Costing; Material Ledger Configuration and Profit Center Accounting. The author has spent the last 10 years of his career acquiring this knowledge through the trial and error method. It covers the end user as well as technical configuration perspective. It can serve as a starting point for the people who want to comprehend how the financial and managerial accounting functions in an ERP. Most of the FICO text deals with technical configuration and throws little light on its functional implementation. This book is author's humble attempt to bridge the gap by providing real life scenarios along with technical details.

Understand how successful software works Espresso Tutorials GmbH

A budget is only as powerful as it is customized. Given your organization's unique business structure and requirements, set up Funds Management in SAP PSM to keep your costs and expenses on track. First set up your master data and define a budgetary structure; then integrate budgetary management, actuals and commitments updates, and AVC processes.
