*How to Sell Almost Anything Online, Build a Business You Love, and Live the Life of Your Dreams* John Wiley & Sons  
From the creator of Product Launch Formula: A new edition of the #1 New York Times best-selling guide that's redefined online marketing and helped countless

entrepreneurs make millions. The revised and updated edition of the #1 New York Times bestseller *Launch* will build your business - fast. Whether you've already got an online business or you're itching to start one, this is a recipe for getting more traction and a fast start. Think about it: What if you could launch like Apple or the big Hollywood studios? What if your prospects eagerly counted down the days until they could buy your product? And you could do it no matter how humble

your business or budget? Since 1996, Jeff Walker has been creating hugely successful online launches. After bootstrapping his first Internet business from his basement, he quickly developed a process for launching new products and businesses with unprecedented success. And once he started teaching his formula to other entrepreneurs, the results were simply breathtaking. Tiny, home-based businesses started doing launches that brought in tens of thousands, hundreds of

thousands, and even millions of dollars. Whether you have an existing business or you're starting from scratch, this is how you start fast. This formula is how you engineer massive success. Now the question is this: Do you want to start slow, and fade away from there? Or are you ready for a launch that will change the future of your business and your life? *Tax the Rich!* Harvard Business Press

The rules have changed. The American Dream is no longer the "corner office." It's a successful business you can run from your home office, the beach, or wherever you desire. It's work you love that still allows you the freedom and income to live the life you truly want. Sound like a tall order? Well, thanks to the Internet, anyone can launch a business with little or no start-up capital or technical expertise. And in *Click Millionaires*, e-commerce expert Scott Fox teaches weary corporate warriors and aspiring entrepreneurs how to trade the 9-5 job they hate for an online business they love. The book explains how to combine outsourcing, software, and automated online marketing to build recurring revenues, all while working less and making fewer of the

lifestyle compromises that corporate "success" requires. Readers will learn how to:

- Find a lucrative niche on the Internet that matches their interests and skills
- Choose an online business model: from blogs, noozles, and audience communities to digital delivery, online services, affiliate marketing—even physical products
- Position themselves as experts
- Build their audience
- Design the lifestyle they want
- Balance passion and profits to realize their personal definition of success

Featuring stories of dozens of "regular folks" who have reinvented themselves as *Click Millionaires*, this inspiring and practical guide shows readers how to stop dreaming of a better life and start living it!

Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings

to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to

extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

Wherever people are working, there is some type of stress—and where there is

stress, there is the risk of burnout. It is widespread, the subject of numerous studies in the U.S. and abroad. It is also costly, both to individuals in the form of sick days, lost wages, and emotional exhaustion, and to the workplace in terms of the bottom line. But as we are now beginning to understand, burnout is also preventable. Burnout for Experts brings multifaceted analysis to a multilayered problem, offering comprehensive discussion of contributing factors, classic and less widely perceived markers of burnout, coping strategies, and treatment methods. International perspectives consider phase models of burnout and differentiate between burnout and related physical and mental health conditions. By focusing on specific job and life variables including workplace culture and gender aspects, contributors give professionals ample means for recognizing burnout as well as its warning signs. Chapters on prevention and intervention detail effective programs that can be implemented at the individual and organizational levels. Included in the coverage: · History of burnout: a phenomenon. · Personal and external

factors contributing to burnout. · Depression and burnout · Assessment tools and methods. · The role of communication in burnout prevention. · Active coping and other intervention strategies. Skillfully balancing scholarship and accessibility, Burnout for Experts is a go-to resource for health psychologists, social workers, psychiatrists, and organizational, industrial, and clinical psychologists.

How do the rich get rich? An updated edition of the "remarkable" New York

Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don't live in Beverly Hills or on Park Avenue. They live next door. America's wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don't realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as "rich" are actually a tiny minority of America's truly wealthy citizens—and behave quite differently than the majority. At the time of its first publication, *The Millionaire Next Door* was a groundbreaking examination of America's rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century. "Their surprising results reveal fundamental qualities of this group that are diametrically opposed to today's earn-and-consume culture."

A powerfully persuasive and thoroughly entertaining guide to the most effective way to un-rig the economy and fix inequality, from America's wealthiest "class traitors" Most American people believe the economy is rigged against them. And they're right. So how do you "un-rig" the economy? You start with the tax code. In 2017, Republican lawmakers rewrote the entire federal tax code, deliberately and permanently rigging the economy against working people in favor of the political donor class. In *Tax the Rich!* Morris Pearl, the millionaire chair of the Patriotic Millionaires, and Erica Payne, the organization's founder, take readers on an insider's tour of the nation's tax code and show how the rich (and the politicians they control) structured the tax code to make themselves even richer. They explain how to un-rig the economy through the tax code to reverse America's ever-growing and dangerously destabilizing concentration of wealth and power. Conversational and punchy chapters such as "Their Money vs. Your

Sweat,” “Economic Jenga,” and “When a Dollar Is Not Actually a Dollar,” feature charts, infographics, cartoons, and sidebars. They show exactly how we should tax wealthy individuals and corporations, focusing on existing mechanisms like marginal income tax and

capital gains, loopholes to eliminate, and new methods of taxation, such as a wealth tax, that could be used to achieve a fairer system. A final section debunks common tax myths, offering crucial information to push back against Fox News and opponents on the right. In the wake of the

economic devastation of COVID-19, never have the arguments in this book been more timely—or more critical. And who better to pull back the curtain on all the ways that the wealthy avoid paying taxes, and deprive the state of essential resources, than the rich themselves?
