Perfect Nonsense tells the complete story behind one of the most innovative and under-rated Golden Age artists, classic children's illustrators, and nonsense poets in American history. For more than 50 years, George Carlson created thousands of distinctive and dynamic cartoons, comics, riddles, and games that thrilled both children and adults with their fanciful spirit and nonsensical humor. There has never been a career retrospective of this startling cartoonist and illustrator — until now! Carlson's inspired cartoons — ranging from the intellectual to the surreal — place him at home with not only acknowledged masters of American humor

like George Herriman, S. J. Perelman, Milt Gross, Bill Holman, and Jack Kent, but also globally celebrated absurdists like Beckett, Pirandello, and his life-long inspiration, Lewis Carroll.

Weiner brings us into Benzer's Fly Rooms at the California Institute of Technology, where Benzer, and his associates are in the process of finding answers, often astonishing ones, to these questions. Part biography, part thrilling scientific detective story, *Time, Love, Memory* forcefully demonstrates how Benzer's studies are changing our world view--and even our lives. Jonathan Weiner, winner of the Pulitzer Prize for *The Beak of the Finch*, brings his brilliant reporting skills to the story of Seymour Benzer, the Brooklyn-born maverick scientist whose study of genetics and experiments with fruit fly genes has helped revolutionize our knowledge of the connections between DNA and behavior both animal and human.
