Behavior - YouTubeLab

11 Animal Behavior

Introduction: Ethology

is the study of animal

behavior. An animal's

behavior is its

response to sensory  
input. There are three  
types of behaviors:  
orientation, agonistic,  
and mating.

Orientation behaviors  
take the animal to its  
most favorable  
environment. Taxis is  
when an animal moves  
toward or away from a  
stimulus. ... Continue
