Read the #1 New York Times best-selling series before it continues in *A Map of Days*. Bonus features • Q&A with author Ransom Riggs • Eight pages of color stills from the film • Sneak preview of *Hollow City*, the next novel in the series *A Mysterious Island*. An abandoned orphanage. A strange collection of very curious photographs. It all waits to be discovered in *Miss Peregrine's Home for Peculiar Children*, an unforgettable novel that mixes fiction and photography in a thrilling reading experience. As our story opens, a horrific

family tragedy sets sixteen-year-old Jacob journeying to a remote island off the coast of Wales, where he discovers the crumbling ruins of Miss Peregrine's Home for Peculiar Children. As Jacob explores its abandoned bedrooms and hallways, it becomes clear that the children were more than just peculiar. They may have been dangerous. They may have been quarantined on a deserted island for good reason. And somehow—impossible though it seems—they may still be alive. A spine-tingling fantasy illustrated with haunting vintage photography, *Miss Peregrine's Home for Peculiar Children* will delight adults, teens, and anyone who relishes an adventure

in the shadows. "A tense, moving, and wondrously strange first novel. The photographs and text work together brilliantly to create an unforgettable story."—John Green, *New York Times* best-selling author of *The Fault in Our Stars* "With its X-Men: First Class-meets-time-travel story line, David Lynchian imagery, and rich, eerie detail, it's no wonder *Miss Peregrine's Home for Peculiar Children* has been snapped up by Twentieth Century Fox. B+"—*Entertainment Weekly* "'Peculiar' doesn't even begin to cover it. Riggs' chilling, wondrous novel is already headed to the movies."—*People* "You'll love it if you want a good thriller for the summer. It's a

mystery, and you'll race to solve it before Jacob figures it out for himself."—Seventeen Stories from a South African Childhood Delacorte Press

n a split second, life can steal a last breath ... and derail all future plans. While flying home after a phone call that left me heartbroken, a row to myself would have been ideal. Instead, I was unknowingly sitting shoulder to shoulder with a strikingly attractive single dad and ex-Marine. I could have pretended not to notice the man, but there was something familiar about him. It didn't take long before I pieced together where I knew him from or why he was back in my life. With chaos holding me hostage, I wanted to

hide but couldn't avoid Brett Pearson, our old family friend, and my teenage crush, because he kindly offered to help out with my family's business—The Barrel House. Handling my father's distillery would be a distraction from my brutal reality. Except, I never paid close attention to the art of making bourbon, unlike Brett, who was full of bourbon knowledge. He offered to teach me a thing or two, but all I could focus on was the way his lips moved when he spoke to me. I needed to grieve, and my head was in the wrong place at the wrong time, but my heart was splitting at the seams. Bourbon was spilled, drinks were shared, but could passion ignite from a dying last wish?

Orange Is the New Black meets Walter Dean Myer's *Monster* in this gritty, twisty, and haunting debut by Tiffany D. Jackson about a girl convicted of murder seeking the truth while surviving life in a group home.

Mary B. Addison killed a baby. Allegedly. She didn't say much in that first interview with detectives, and the media filled in the only blanks that mattered: a white baby had died while under the care of a churchgoing black woman and her nine-year-old daughter. The

public convicted Mary and the jury made it official. But did she do it? There wasn't a point to setting the record straight before, but now she's got Ted—and their unborn child—to think about. When the state threatens to take her baby, Mary's fate now lies in the hands of the one person she distrusts the most: her Momma. No one knows the real Momma. But does anyone know the real Mary?

"In a feat of razor-sharp journalism, Zimberoff asks all the right questions about Silicon Valley's hunger for a tech-driven food system. If you, like me, suspect they're selling the sizzle more than the steak, read *Technically Food* for

the real story.” —Dan Barber, the chef and co-owner of Blue Hill and Blue Hill at Stone Barns Eating a veggie burger used to mean consuming a mushy, flavorless patty that you would never confuse with a beef burger. But now products from companies like Beyond Meat, Impossible Foods, Eat Just, and others that were once fringe players in the food space are dominating the media, menus in restaurants, and the refrigerated sections of our grocery stores. With the help of scientists working in futuristic labs—making milk without cows and eggs without chickens—start-ups are creating wholly new food categories. Real food is being replaced by high-tech.

Technically Food: Inside Silicon Valley’s Mission to Change What We Eat by investigative reporter Larissa Zimberoff—€ is the first comprehensive survey of the food companies at the forefront of this booming business. Zimberoff pokes holes in the mania behind today’s changing food landscape to uncover the origins of these mysterious foods and demystify them. These sometimes ultraprocessed and secretly produced foods are cheered by consumers and investors because many are plant-based—often vegan—and help address societal issues like climate change, animal rights, and our planet’s dwindling natural resources. But

are these products good for our personal health? Through news-breaking revelations, *Technically Food* examines the trade-offs of replacing real food with technology-driven approximations. Chapters go into detail about algae, fungi, pea protein, cultured milk and eggs, upcycled foods, plant-based burgers, vertical farms, cultured meat, and marketing methods. In the final chapter *Zimberoff* talks to industry voices—including Dan Barber, Mark Cuban, Marion Nestle, and Paul Shapiro—to learn where they see food in 20 years. As our food system leaps ahead to a sterilized lab of the future, we think we know more about our food than we ever did. But because so much

is happening so rapidly, we actually know less about the food we are eating. Until now.

The first and only coloring book based on Fox's Emmy-winning animated hit TV show. Crossing the line from line art to Pop Art, *The Official Bob's Burgers Coloring Book* follows in the best-selling pop-culture coloring book footsteps of *Star Wars*, *Game of Thrones*, *Doctor Who*, *The Walking Dead*, and *Outlander*. This collection serves up not only images of the best moments of the show, but also enough puns and fun to have the show's ravenous fans salivating with hunger and hilarity. *Bob's Burgers* is enjoying a true pop-

cultural moment, with an original comic-book version by Dynamite Entertainment still setting records since its launch in 2014, a soundtrack album of original music from the series featuring music from indie band Sleater-Kinney (Portlandia's Carrie Brownstein), and now an ongoing, multi-city live tour that presents the cast and crew re-creating some of the most popular episodes in front of packed houses across the country.

Steakhouse Steaks Made Easy C.M. Albert Ryan Wells Olivia North was everything I always wanted. From the moment I laid eyes on her, I knew nothing would stop me from having her. Not even being her professor. In the end, I got her. Got

the white picket fence and historic home, too. But nothing could replace the babies we lost before they were ever born, or the sleepless nights that followed. We made a pact once, in those early days of grief. We would always put each other first and be honest about everything. Because the only way through our mourning would be together. Until it wasn't. When our last baby was stillborn, I was afraid I'd lose Olivia forever. The vibrant woman I'd married was slipping away under the weight of her unbearable pain. So, when Brighton Kerrington moves in next door to renovate his uncle's property, and I see light return to those haunted blue eyes, what do I do? The

one thing that could cost me my entire world. I'd do anything to see Liv happy again—even if it means ripping my own heart in two to sew hers back together again. But when pleasure replaces pain, the truth exposes more than we bargained for. What was meant to bind us together in love might be the very thing that tears us apart. They say the truth shall set you free. They never tell you the cost.

The Complete Guide to Flipping Properties A&C Black

A NEW YORK TIMES NOTABLE BOOK Once in a great while a writer comes along who can truly capture the drama and passion of the life of a family. David James Duncan, author of the novel *The River Why* and the

collection *River Teeth*, is just such a writer. And in *The Brothers K* he tells a story both striking and in its originality and poignant in its universality. This touching, uplifting novel spans decades of loyalty, anger, regret, and love in the lives of the Chance family. A father whose dreams of glory on a baseball field are shattered by a mill accident. A mother who clings obsessively to religion as a ward against the darkest hour of her past. Four brothers who come of age during the seismic upheavals of the sixties and who each choose their own way to deal with what the world has become. By turns uproariously funny and deeply moving, and beautifully written throughout,

The Brothers K is one of the finest chronicles of our lives in many years. Praise for The Brothers K “The pages of The Brothers K sparkle.”—The New York Times Book Review “Duncan is a wonderfully engaging writer.”—Los Angeles Times “This ambitious book succeeds on almost every level and every page.”—USA Today “Duncan’s prose is a blend of lyrical rhapsody, sassy hyperbole and all-American vernacular.”—San Francisco Chronicle “The Brothers K affords the . . . deep pleasures of novels that exhaustively create, and alter, complex worlds. . . . One always senses an enthusiastic and abundantly talented and versatile writer at work.”—The

Washington Post Book World “Duncan . . . tells the larger story of an entire popular culture struggling to redefine itself—something he does with the comic excitement and depth of feeling one expects from Tom Robbins.”—Chicago Tribune
Multiple Streams of Income Disney Electronic Content We live in a highly connected world with multiple self-interested agents interacting and myriad opportunities for conflict and cooperation. The goal of game theory is to understand these opportunities. This book presents a rigorous introduction to the mathematics of game theory without losing sight of the joy of the subject. This is

done by focusing on theoretical highlights (e.g., at least six Nobel Prize winning results are developed from scratch) and by presenting exciting connections of game theory to other fields such as computer science (algorithmic game theory), economics (auctions and matching markets), social choice (voting theory), biology (signaling and evolutionary stability), and learning theory. Both classical topics, such as zero-sum games, and modern topics, such as sponsored search auctions, are covered. Along the way, beautiful mathematical tools used in game theory are introduced, including convexity, fixed-point theorems, and probabilistic

arguments. The book is appropriate for a first course in game theory at either the undergraduate or graduate level, whether in mathematics, economics, computer science, or statistics. The importance of game-theoretic thinking transcends the academic setting—for every action we take, we must consider not only its direct effects, but also how it influences the incentives of others.

A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination,

and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre

Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award. *Keeping the Moon*

What does it take to turn a bully into a hero? Empathy and the power of forgiveness take center stage in this poignant novel by the award-winning author of *The Boy at the Back of the Class*. Getting in trouble is what Hector does best. He knows that not much is expected of him. In fact, he gets some of his most brilliant prank ideas while sitting in detention. But how far is too far? When Hector plays a prank on a homeless man and is seen and shamed by a schoolmate, he

reaches a turning point. He wants to be viewed differently and decides to do something that will change his fate for the better. But will anyone take him seriously? Readers will feel motivated to see the best in others and hopeful that bad things can be overcome with effort.

The riveting story of the entrepreneurs and

renegades fighting to bring lab-grown meat to the world. The trillion-dollar meat industry is one of our greatest environmental hazards; it pollutes more than all the world's fossil-fuel-powered cars. Global animal agriculture is responsible for deforestation, soil erosion, and more emissions than air travel, paper mills, and coal mining combined. It also, of course, depends on the slaughter of more than 60 billion animals per year, a number that is only increasing as the global appetite for meat swells. But a band of doctors, scientists, activists, and entrepreneurs have been racing to end animal agriculture as we know it, hoping to fulfill a dream of

creating meat without ever having to kill an animal. In the laboratories of Silicon Valley companies, Dutch universities, and Israeli startups, visionaries are growing burgers and steaks from microscopic animal cells and inventing systems to do so at scale--allowing us to feed the world without slaughter and environmental devastation. Drawing from exclusive and unprecedented access to the main players, from polarizing activist-turned-tech CEO Josh Tetrick to lobbyists and regulators on both sides of the issue, Billion Dollar Burger follows the people fighting to upend our food system as they butt up against the entrenched interests fighting viciously to

stop them. The stakes are monumentally high: cell-cultured meat is the best hope for sustainable food production, a key to fighting climate change, a gold mine for the companies that make it happen, and an existential threat for the farmers and meatpackers that make our meat today. Are we ready?

 Welcome to Empire Falls, a blue-collar town full of abandoned mills whose citizens surround themselves with the comforts and feuds provided by lifelong friends and neighbors and who find humor and hope in the most unlikely places, in this Pulitzer Prize-winning novel by Richard Russo. Miles Roby has been slinging burgers at the Empire Grill for 20 years, a job that cost him his college education and much of his self-respect. What keeps him there? It could be his bright, sensitive daughter Tick, who needs all his help surviving the local high school. Or maybe it's Janine, Miles' soon-to-be ex-wife, who's taken up with a

noxiously vain health-club proprietor. Or perhaps it's the imperious Francine Whiting, who owns everything in town—and seems to believe that “everything” includes Miles himself. In Empire Falls Richard Russo delves deep into the blue-collar heart of America in a work that overflows with hilarity, heartache, and grace. *Single in Suburbia*

A devilish debut by a brother-sister team invites us into the world of the elite Marlowe School, where some gifted students are having a hell of a year. (Age 14 and up) One night, in cities all across Europe, five children vanish -- only to appear, years later, at an exclusive New York party with a strange and elegant governess. Rumor and mystery follow the Faust teenagers to the city's most prestigious high school, where

they soar to suspicious heights with the help of their benefactor's extraordinary "gifts." But as the students claw their way up -- reading minds, erasing scenes, stopping time, stealing power, seducing with artificial beauty -- they start to suffer the sideeffects of their own addictions. And as they make further deals with the devil, they uncover secrets more shocking than their most unforgivable sins. At once chilling and wickedly satirical, this contemporary reimagining of the Faustian bargain is a compelling tale of ambition, consequences, and ultimate redemption.
