 TheLochaber, Highlands, Scotland. The
 People's Choice. Glencoe, in addition to
 offering one of the most stunning views in
 Scotland, is also attributed to being one of
 the best-exposed examples of cauldron
 subsidence. The origins of the volcanic
 rocks posed many problems for the early
 geologists such as Robert Jameson (1774 -
 1854) and John MacCulloch (1773 - 1835)
 who visited the glen in the early
 1800's.Glencoe - The Geological
