Practical Ethics Samuel French, Incorporated

For thirty years, Peter Singer's *Practical Ethics* has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other

questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.

Pirates' Treasure! eNet Press

"an energetic, sardonic, often comical musical about a composer during a medical emergency. Gordon collapses into his lunch and awakes in the hospital, surrounded by his maritime-enthusiast lover, his mother, a co-worker, the doctor, and the nurses. Reluctantly, he had been composing a song for a children's television show that features a frog - Mr. Bungee - and the specter of this large green character and the unfinished work haunts him throughout his medical ordeal. What was thought to be a tumor turns out to be something more operable, and Gordon recovers, grateful for a chance to compose the songs he yearns to produce."--Publisher.
