BRAIDEN LUIS

The Fourth Industrial Revolution Addison Wesley Longman

The groundbreaking investigative story of how three successive presidents and their military commanders deceived the public year after year about America's longest war, foreshadowing the Taliban's recapture of Afghanistan, by Washington Post reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: to defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives. Distracted by the war in Iraq, the US military became mired in an unwinnable guerrilla conflict in a country it did not understand. But no president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama, and Trump administrations sent more and more troops to Afghanistan and repeatedly said they were making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public's understanding of Vietnam, The Afghanistan Papers contains startling revelation after revelation from people who played a direct role in the war, from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In unvarnished language, they admit that the US government's strategies were a mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US government was presenting a distorted, and sometimes entirely fabricated, version of the facts on the ground. Documents unearthed by The Washington Post reveal that President Bush didn't know the name of his Afghanistan war commander—and didn't want to make time to meet with him. Secretary of Defense Donald Rumsfeld admitted he had "no visibility into who the bad guys are." His successor, Robert Gates, said: "We didn't know jack shit about al-Qaeda." The Afghanistan Papers is a shocking account that will supercharge a long overdue reckoning over what went wrong and forever change the way the conflict is remembered.

Government by the People Pearson

Renew and Sustain is an innovative, profitable, socially and environmental conscious approach towards a sustainable future. The book discusses this method, what sustainability is and why it makes sense to implement these solutions. This is accomplished via dialog with specific case studies

about sustainability and the value of being more sustainable.

The People's Government Harvard University Press

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure

that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Updated in a new 24th edition Government by the People, National, State, and Local Edition demonstrates that politics matters by emphasizing the accomplishments of a government of the people, by the people, and for the people. Building on decades of authoritative scholarship, this completely updated text continues to offer accessible, carefully crafted, and straightforward coverage of the foundations of American politics, as well as a consistent focus on the achievements of a government by the people. The National, State, and Local Edition includes the exact same coverage as the National version, but with additional chapters devoted to State & Local Politics.

National, State, and Local Version Verso Books

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Updated in a new 15th edition, *State and Local Politics: Government by the People*, is the most authoritative book for state and local politics. It continually sets the standards for other state and local politics books by anticipating readers' needs. Known for its esteemed author team who treat each new edition as a fresh challenge, *State and Local Politics: Government by the People* is the perfect text for understanding how America's state and local political systems work.

Government by the People Prentice Hall

Responding to the need for a more meaningful study of American government, Prentice Hall proudly presents this new Teaching and Learning Classroom (T.L.C.) Edition. Building on a long tradition of clear and accessible writing, sound scholarship, and currency set forth in the authors' comprehensive *Government by the People* text, this T.L.C. Edition offers the most visually appealing presentation of politics students will use--in the classroom, in society, and in life. This text is designed around the premise that students will read--get involved--and participate in politics so personal, it's as passionate as it is powerful.

Government in America 2014 Oxford University Press, USA

The People's Government is premised on the idea that democracy is based on two fundamental rights: freedom and liberty. Liberty is the right to be left alone, while freedom is the right to participate in a political community. How people view democracy depends on which of these two rights they think is more important. Liberal democrats place a higher value on liberty, while free democrats see freedom as the primary right. From this starting point, the author adds five dimensions to define and distinguish democratic societies: rights, participation and representation, inclusion, equality, and power. Liberal democracies emphasize individualism, negative rights,

representative government, inclusive citizenship, equal opportunity, and limited government. Free democracies stress community, positive rights, direct participation, exclusive citizenship, equal outcomes, and robust government. The book examines the most important arguments for and against democracy, and explores the life cycle of democracies - how countries democratize, mature, and fail. Finally, the author uses the five dimensions established earlier to evaluate and grade American democracy.

A Cutting Edge Approach to Being Socially Responsible, Environmentally Conscious, and Incredibly Profitable for Businesses, Schools, and Government. Pearson

Best selling American Government book for the Introduction to American Government Politics course.

Government in America Revel Access Card Jessica Kingsley Publishers

The emergence of severe acute respiratory syndrome (SARS) in late 2002 and 2003 challenged the global public health community to confront a novel epidemic that spread rapidly from its origins in southern China until it had reached more than 25 other countries within a matter of months. In addition to the number of patients infected with the SARS virus, the disease had profound economic and political repercussions in many of the affected regions. Recent reports of isolated new SARS cases and a fear that the disease could reemerge and spread have put public health officials on high alert for any indications of possible new outbreaks. This report examines the response to SARS by public health systems in individual countries, the biology of the SARS coronavirus and related coronaviruses in animals, the economic and political fallout of the SARS epidemic, quarantine law and other public health measures that apply to combating infectious diseases, and the role of international organizations and scientific cooperation in halting the spread of SARS. The report provides an illuminating survey of findings from the epidemic, along with an assessment of what might be needed in order to contain any future outbreaks of SARS or other emerging infections.

Government by the People W. W. Norton

Explore American politics through the Constitution *Government by the People, Brief 2012 Election Edition* offers the most classroom-tested introduction to the foundational principles, processes, and institutions of American government but in a more streamlined and flexible format. Learn how American politics affects public policy Revel(TM) Government in America: People, Politics, and Policy explores our government's impact on the daily lives of Americans by focusing on public policy. Authors George Edwards, Martin Wattenberg, and William Howell provide a framework for students to understand the difficult questions that decision makers of both political parties are facing: how should we govern and what should government do? In order to boost student engagement with key concepts, the 2016 Presidential Election Edition incorporates coverage of contemporary issues that dominate today's headlines, as well as the most up-to-date data. Revel is Pearson's newest way of delivering our respected content. Fully digital and highly engaging, Revel replaces the textbook and gives students everything they need for the course. Informed by extensive research on how people read, think, and learn, Revel is an interactive learning environment that enables students to read, practice, and study in one continuous experience -- for less than the cost of a traditional textbook. NOTE: Revel is a fully digital delivery of Pearson content. This ISBN is for the standalone Revel access card. In addition to this access card, you will need a course invite link, provided by your instructor, to register for and use Revel.

We the People Prentice Hall

The definitive account of the disappearance of forty-three Mexican students On September 26, 2014, a party of students from the Ayotzinapa Rural Teachers' College were en route to a protest when intercepted by local police. A confrontation ensued. Come the morning, the students were nowhere to be found. The crime that had transpired and the resultant cover-up brought the profound depths of corruption in the Mexican government and police force—as well as the vulnerability of

ordinary Mexicans—into stark relief. Investigative reporter Anabel Hernández reconstructs the terrible events of that night and its aftermath, giving us the most complete picture available. Her sources are unparalleled. In researching this book, she secured access to internal government documents that have not been made public and to surveillance footage the government has tried to hide and destroy. Hernández demolishes the Mexican state's official version of events, which the Peña Nieto government cynically dubbed the "historic truth." As her research shows, state officials at all levels, from police and prosecutors to the upper echelons of government, conspired to put together a fake case, concealing and manipulating evidence, and arresting and torturing dozens of "suspects," procuring forced confessions to back up the official lie. By following the role of the various Mexican state agencies through the events in such remarkable detail, *A Massacre in Mexico* shows with exacting precision precisely who is responsible for this monumental crime and who needs to be held accountable.

By the People Pearson Higher Ed

Explains why the environmental crisis should lead to an abandonment of "free market" ideologies and current political systems, arguing that a massive reduction of greenhouse emissions may offer a best chance for correcting problems.

Measuring Financial Inclusion and the Fintech Revolution Pearson

Ever since its first publication in 1992, *The End of History and the Last Man* has provoked controversy and debate. Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.
