UFOs and the National Security State: 1941-1973 Nation Books

Based on a true story. A man's encounter with an extraterrestrial being breaks down the illusions of life and the institutions that govern such illusions, such as religion, science, and governmental sovereignty. The information is eye and mind opening and filled with the realities that intelligent life on earth is simply one planet out of billions that exist in the Milky Way galaxy, which is teeming with similar and much more exotic, super being, type life forms. The earth is not flat, it is not the center of the universe, and certainly is not unique in any way, shape, or form.

An Uncensored History of America's Top Secret Military Base Keyhole Publishing

Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology and also how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the humanpast and mythic themes.

Project Beta Red Wheel

Of the many books on UFOs and aliens, this one may be unique. Richard Dolan, one of the world's leading historians of the UFO subject, has analyzed the different alien types and agendas based on longstanding patterns observed by witnesses. This is both a careful review of the best evidence we have of human-alien interaction, as well as a bold speculation of just who the aliens are and what they want. Dolan's analysis starts with our ancient

pre-history and potential genetic modifications and monitoring by extraterrestrials. He also studies the long history of interaction with perfectly human-looking beings who somehow did not seem as though they were "from here." Such interactions have continued through the present day. Who are these beings? He also analyzes reports of gray aliens and other types, including reptilian types, insectoid types, hybrid beings, and a range of others. With a view toward understanding their psychology, their technological capabilities, and the nature of their interactions with people, he speculates as to what ultimate plans may be. He argues that the alien presence is especially important now. This is because of the rapid transformation of human civilization into something we have never before experienced. We still don't have a proper name for what we are going through, but it includes a combination of radical new technologies with a new social order that ultimately might make human civilization much more like the societies that these other beings already have. One that combines a tightly centralized and controlled social order with sophisticated science and technology.

UFOs, Religion, Technology Oxford University Press

The Government knows all about UFOs. And it knows all about you, too. It isn't paranoia if you think "they" are watching you: they really are! Nick Redfern's timely new book, "On the Trail of the Saucer Spies: UFOs and Government Surveillance," reveals that Government, Military and Intelligence agencies have been secretly spying on UFO researchers, writers, investigators, and witnesses for decades -- and for countless reasons. If you've been watching the skies, or watching those who have been watching the skies, the government may have been watching you! Highlights of this groundbreaking book include: the FBI's reports on people who claim to have met extraterrestrials; Top Secret surveillance of alien-abductees; the

real-life Men in Black who spy on UFO witnesses; phone-tapping and mail-interference of UFO researchers and authors; Scotland Yard's secret monitoring of UFO computer-hackers; classified files on researchers of the famous Roswell crash of 1947; official infiltration of Flying Saucer research groups; UFO writers suspected by the Government of working for hostile nations to uncover defense secrets; and much more. No one involved in the UFO mystery can afford to ignore this book. Nick Redfern is one of the world's foremost authorities on UFOs. His previous books include *A Covert Agenda*; *The FBI Files*; *Cosmic Crashes*; *Strange Secrets* (with Andy Roberts); *Three Men Seeking Monsters*; and *Body Snatchers in the Desert*. He has written for *Military Illustrated*; *Eye Spy*; *Fate*; *Fortean Times*; *Phenomena Magazine*; and the *London Daily Express* newspaper. He runs the American office of the British-based Center for Fortean Zoology.

The evidence in this book may not ultimately give you the "smoking gun" you are looking for on your journey, but I guarantee it will give you a box of bullets when you find it. In 1996, John Greenwald, Jr. began researching the secret inner workings of the U.S. Government at the age of fifteen. He targeted such agencies as the CIA, FBI, Pentagon, Air Force, Army, Navy, NSA, DIA, and countless others. Greenwald utilized the Freedom of Information Act (FOIA) to gain access to more than two million pages of documents. This archive includes information relating to UFOs, the JFK Assassination, chemical, biological, and nuclear weapons, and top secret aircraft. He took the millions of pages, and over the course of more than two decades, has built an archive known around the world, as *The Black Vault*. Inside *The Black Vault: The Government's UFO Secrets Revealed* takes you on a journey within the secret world of unidentified aerial phenomenon that has plagued the military since at least the 1940s. Declassified records prove that the UFO topic is one of the most highly classified and most elusive subjects the U.S. Government has ever dealt with. Each chapter explores various agencies and their documents, and Greenwald breaks down the meaning of why some of the most important documents are relevant to proving a massive cover-up. Along with declassified documents, Greenwald outlines the struggle it took him to get them. No other topic has proven so difficult, in more than 8,000 FOIA requests that he has filed. He explores why that might be and meets skeptics and debunkers head on, outlining why some of their more prominent rebuttals for it all cannot be true.

[Challenging the Borders of Knowledge](#) DIANE Publishing

The ultimate guide to Project Blue Book by one of the lead astronomers for the US Air Force program to investigate UFO sightings. Originally released in 1977, this new edition by the world's foremost authority on UFOs distills 12,000 sightings and 140,000 pages of Project Blue Book evidence into a coherent explanation. A US Air Force - sponsored UFO-basher for years, Hynek had completely changed his tune by the late 1960s. Whether you believe in little green men or an official government cover-up policy, *The Hynek UFO Report* is required reading. Have UFOs really been reported by every nation across the globe? Can all the eyewitness reports simply be fantasy? Are we victims of mass hallucination or just plain lies? Have close encounters actually occurred? Is the government concealing deep secrets at a hidden location? *The Hynek UFO Report* is rational, logical, and realistic. It is for anyone interested in UFOs, the possibility of extraterrestrial life, and the role of the US government in hiding the truth from the public.

Sacred Smoke Independently Published

This is the 2nd volume in Richard Dolan's series, "UFOs and the National Security State," which covers all aspects of the UFO phenomenon from the 1940s to the present day. Volume 2, "The Cover-Up Exposed, 1973-1991," analyzes the UFO sightings, politics, and research that occurred during the last two decades of the cold war. Working from archival sources, professional journals, and his own investigations, Dolan describes UFO encounters worldwide, demonstrating that the phenomenon is global, and the result of advanced technology. Many cases involved sensitive military airspace. These include intrusions over American and Canadian air bases; attempts to intercept a UFO over Tehran; the landing of an unknown object near two airbases in Britain; large boomerang-shaped craft near New York City; unexplained triangular craft seen throughout the U.S. and Europe; strange objects in Earth orbit seen by Soviet and American astronauts; and encounters with UFOs from around the world. Dolan also studies "UFO politics," describes the black-budget connection, and provides a geopolitical analysis to explain the whys and hows of UFO secrecy. Finally, he provides a history of UFO research itself. He recreates the discussions and debates concerning alien abductions, animal mutilations, intelligence community infiltration into UFO research, the controversial MJ-12 documents, the Gulf Breeze controversy, reverse engineering of alien technology, crop circles, and more. Dolan also studies the effect of such new technologies as the Internet on UFO research. This is a complete history of the phenomenon, the secrecy, and the response by researchers who sought to understand the mystery. Behind it all is the backdrop of a world in technological, economic, and political transformation. "UFOs and the National Security State: The Cover-Up Exposed, 1973-1991," takes the reader through a turning point in the history of the UFO phenomenon, as well as the history of the modern world.

Red Wheel/Weiser

Donald Kehoe investigated many of the earliest encounters between the U.S. Air Force and UFOs. Kehoe believed the Air Force was actively investigating these close encounters, and also came to the conclusion that the Earth has been visited by Beings from outer space for at least two and a half centuries. He also noted, that the sightings increased sharply with the coming of the Atomic Age after WWII. Using anecdotal evidence, Kehoe intimates that the government may have attained and adapted alien technology. Written in an engaging, narrative style, this book is a must have for any UFO library.

an unclassified history : volume one : 1941 to 1973 Three Rivers Press

Governments around the world have had to deal with the UFO phenomenon for a good part of a century. How and why they did so is the subject of *UFOs and Government*, a history that for the first time tells the story from the perspective of the governments themselves. It's a perspective that reveals a great deal about what we citizens have seen, and puzzled over, from the "outside" for so many years. The story, which is unmasked by the governments' own documents, explains much that is new, or at least not commonly known, about the seriousness with which the military and intelligence communities approached the UFO problem internally. Those approaches were not taken lightly. In fact, they were considered matters of national security. At the same time, the story reveals how a subject with such apparent depth of experience and interest became treated as if it were a triviality. And it explains why one government, the United States government, deemed it wise, and perhaps even necessary, to treat it so. Though

the book focuses primarily on the U. S. government's response to the UFO phenomenon, also included is the treatment of the subject by the governments of Sweden, Australia, France, Spain, and other countries. This large-format, fully illustrated book is the result of a team effort that called itself "The UFO History Group," a collection of veteran UFO historians and researchers who spent more than four years researching, consulting, writing, and editing to present a work of historical scholarship on government response to the UFO phenomenon. Michael Swords was the primary author of the United States chapters. The work was coordinated and edited by Robert Powell. Clas Svahn, Vicente-Juan Ballester Olmos, Bill Chalker, and Robert Powell contributed country chapters. Jan Aldrich was the primary content consultant, with additional content consultation and writing coming from Barry Greenwood and Richard Thieme. Steve Purcell was the primary photo illustration editor. From the foreword by Jerome Clark: "While UFOs and Government revisits an often unhappy history, the reading of it is far from an unhappy experience. The authors, eloquent, intelligent, sophisticated, and conscientious, provide us with the first credible, comprehensive overview of official UFO history in many years... Most of the current volume deals with U.S. military and intelligence responses to the UFO phenomenon, but it also features richly informative chapters that expand the story across the international arena. If you're looking for an example of a nation that dealt productively with the UFO reports that came its official way, you will take heart in the chapter on the French projects... From here on, every responsible treatment of UFOs and government will have to cite UFOs and Government prominently among its sources... this is the real story as accurately as it can be reconstructed in the second decade of the new century. I expect to keep my copy close at hand and to return to it often. While it cannot be said of many books, UFO-themed or otherwise, this is among the essential ones. Stray from it at your peril."

[The National Intelligence Problem of UFOs](#) Hampton Roads Publishing

Using recently declassified government files, the authors present a compelling argument that the government knows a great deal more about UFOs than it has shared with the public, and has in fact deliberately concealed the findings of more than 30 years of investigations. Photographs.

"About what might happen after an announcement is made that UFOs are real, ... [it] is the first work of non-fiction to tackle [the] questions about the new winners and losers in government, science, religion, media, culture, law, education, and politics"--Dust jacket.

The Report on Unidentified Flying Objects Hampton Roads Publishing

Is there a secret space program that is connected in some way to UFOs? In this booklet, historian Richard Dolan delves into this question, one of the most discussed in ufology today. Providing a wealth of data and context for the reader, he offers his own conclusion: yes, there is indeed such a program. But this program is not a simple extension of the normal operations of the U.S. government or military, much less of NASA. Instead, it seems to be the product of what Dolan has previously termed a "breakaway civilization," a radically advanced and increasingly separate structure that has access to classified science and data denied to the rest of us. Adapted from his classic lecture at the Secret Space Program and Breakaway Civilization conference in San Mateo, this is now offered as a volume in the Richard Dolan Lecture Series.

[Unidentified](#) e-artnow

Without question, this is a classic by one of the most exciting new authors in the UFO field today. After reading it, your view of reality will never be the same. The owl has held a place of reverence and mystique throughout history. And as strange as this might seem, owls are also showing up in conjunction with the UFO experience. Mike Clelland has collected a wealth of first-hand accounts in which owls manifest in the highly charged moments that surround alien contact. There is a strangeness to these accounts that defy simple explanations. This book explores implications that go far beyond what more conservative researchers would dare consider. But the owl connection encompasses more than the UFO experience. It also includes profound synchronicities, ancient archetypes, dreams, shamanistic experiences, personal transformation, and death. From the mythic legends of our ancient past to the first-hand accounts of the UFO abductee, owls are playing some vital role. This is also a deeply personal story. It is an odyssey of self-discovery as the author grapples with his own owl and UFO encounters. What plays out is a story of transformation with the owl at the heart of this journey.

The Government's UFO Secrets Revealed Createspace Independent Publishing Platform

For as long as people have talked about UFOs, they have wondered about when and how the governments of the world will acknowledge them. Among people following the subject, that's called Disclosure. In this second volume of the Richard Dolan Lecture Series, Historian Richard Dolan tackles an enormous subject. After explaining why UFOs are taken seriously in national security circles around the world, he provides his best analysis to date as to how the secrecy on UFOs has taken form, how it has corroded our society, and how it works internationally. He gives a fresh analysis on the black budget breakaway civilization, on the weaponization of secret technologies, the intelligences behind the UFO phenomenon, and how Russia and China fit into the global UFO cover-up. He drives his analysis home with four distinct disclosure scenarios: Fascist Disclosure, Premature Disclosure, Insider Disclosure, and People-Driven Disclosure. Finally, Dolan offers a unique view on how the UFO cover-up and possible disclosure could transpire during the presidency of Donald Trump. One thing is clear: we live in a world that hangs in the balance.

A.D. After Disclosure Createspace Independent Publishing Platform

Explores the psychological, sociological, political, and cultural facets of the search for intelligent life on other planets, and considers the likely human reactions if and when it is discovered

Richard M. Dolan is a gifted historian whose study of U.S. Cold War strategy led him to the broader context of increased security measures and secrecy since World War II. One aspect of such government policies that has continued to hold the public's imagination for over half a century is the question of unidentified flying objects. *UFOs and the National Security State* is the first volume of a two-part detailed chronological narrative of the national security dimensions of the UFO phenomenon from 1941 to the present. Working from hundreds of declassified records and other primary and secondary sources, Dolan centers his investigation on the American military and intelligence communities, demonstrating that they take UFOs seriously indeed. Included in this volume are the activities of more than fifty military bases relating to UFOs, innumerable violations of sensitive airspace by unknown craft and analyses of the Roswell controversy, the CIA-sponsored Robertson Panel, and the Condon Committee Report. Dolan

highlights the development of civilian anti-secrecy movements, which flourished in the 1950s and 1960s until the adoption of an official government policy and subsequent "closing of the door" during the Nixon administration.

This is the official U.S. Air Force report that provides information regarding an alleged crash of an unidentified flying object (UFO) that occurred in the desert near Roswell, New Mexico in July 1947, that is popularly known as the Roswell Incident. The Air Force's explanation for the Roswell Incident is Project Mogul, the top-priority classified project of balloon-borne experiments. 100's of photos, charts, tables and graphs; some for the first time anywhere. Actual sources are reproduced. Highly controversial; this report received extensive media attention. Many people think the report is a hoax. Read it yourself and decide.
