**Italian Songs and Arias for Medium Voice - Teacher Edition** Cambridge University Press (Vocal Collection). For well over a century, the G. Schirmer edition of 24 Italian Songs & Arias of the 17th and 18th Centuries has introduced millions of beginning singers to serious Italian vocal literature. Offered in two accessible keys suitable for all singers, it is likely to be the first publication a voice teacher will ask a first-time student to purchase. The classic Parisotti realizations result in rich, satisfying accompaniments which allow singers pure musical enjoyment. For ease of practice, carefully prepared accompaniments are also available that were recorded by John Keene, a New York-based concert accompanist and vocal coach who has performed throughout the United States for radio and television. Educated at the University of Southern California, Keene has taught accompanying at the university level and collaborated with Gian Carlo Menotti and Thea Musgrave on productions of their operas.

Historians of French politics, art, philosophy and literature have long known the tensions and fascinations of Louis XV's reign, the 1750s in particular. David Charlton's study comprehensively re-examines this period, from Rameau to Gluck and elucidates the long-term issues surrounding opera. Taking Rousseau's *Le Devin du Village* as one narrative centrepiece, Charlton investigates this opera's origins and influences in the 1740s and goes on to use past and present research to create a new structural model that explains the elements of reform in Gluck's tragédies for Paris. Charlton's book opens many new perspectives on the musical practices and politics of the period, including the *Querelle des Bouffons*. It gives the first detailed account of intermezzi and opere buffe performed by Eustachio Bambini's troupe at the Paris Opéra from August 1752 to February 1754 and discusses Rameau's comedies *Platée* and *Les Paladins* and their origins.
