Hundreds of thousands of seafarers made a significant contribution to the Allied war effort in the Second World War. Seafarers of different nationalities sailed with

different nations' merchant fleets, with risks comparable to servicemen in the armed forces. This is the first time the history of the seafarers from most of the Allied maritime nations has been gathered to one anthology. The multinational contributors of this anthology share their insights on the history of seafarers in the

merchant fleets of the USA, Great Britain, Norway, the Netherlands, Greece and Yugoslavia. The history of Chinese and Indian seafarers on Allied ships is also explored, together with more general topics such as coastal convoys and surveillance of seafarers. The variety of articles in this book underlines the value of collecting the history of a broad

spectrum of nationalities of both ships and crews. Collectively, the articles bring new and different perspectives on the history of seafarers in the Allied merchant fleets during the Second World War.

Freedom of speech is a fundamental human right and a core value in liberal democracies. It is also, however, one of our time's most contested issues, constantly claimed to be either too wide-ranging, at the peril of vulnerable minority groups, or too limited, restricting dissent and democratic deliberation. Employing a sociological lens on the dynamics of the public sphere, this book investigates how the boundaries of free speech are contested and

negotiated through social processes which silence certain groups and opinions while amplifying others. The book focuses on key topics in current free speech debates - immigration, religion and culture. Drawing on population-representative survey data, media analysis and in-depth interviews, the authors paint a broad picture of how boundaries of free speech are defined and maintained, experienced and challenged, in the rapidly changing Norwegian public sphere.

An aging Jeebleh has returned to Somalia to visit old friends in his beloved Mogadiscio. He is accompanied by his son-in-law, Malik, a journalist intent on covering the region's ongoing turmoil. Instead of chaos, however, the two are

greeted by an eerie calm, enforced by white-robed figures bearing whips. Soon, Malik's brother, Ahl, arrives in Puntland, the region notorious as a pirates' base. Ahl is searching for his stepson, who has vanished from the States, apparently recruited by an imam allied to Somalia's rising insurgency. As Somalis brace for an Ethiopian invasion, the brothers' efforts draw them deeper into the fabric of the country. Then the borders are breached, the country's uneasy quiet

shattered, and Malik and Ahl experience firsthand the derailments of war. Timely and illuminating, Crossbones reaffirms Nuruddin Farah's stature as 'the literary voice of his country on the world stage' (Minneapolis Star Tribute).

Find Your Voice as a Presenter Routledge The digital music revolution and the rise of piracy cultures has transformed the music world as we knew it. Digital Music Distribution aims to go beyond the polarized and reductive

perception of 'piracy wars' to offer a broader and richer understanding of the paradoxes inherent in new forms of distribution. Covering both production and consumption perspectives, Spilker analyses the changes and regulatory issues through original case studies, looking at how digital music distribution has both changed and been changed by the cultural practices and politicking of ordinary youth, their parents, music counter cultures, artists and

bands, record companies, technology developers, mass media and regulatory authorities. Exploring the fundamental change in distribution, Spilker investigates paradoxes such as: The criminalization of file-sharing leading not to conflicts, but to increased collaboration between youths and their parents; Why the circulation of cultural content, extremely damaging for its producers, has instead been advantageous for the manufacturers of recording equipment;

Why more artists are recording in professional sound studios, despite the proliferation of good quality equipment for home recording; Why mass media, hit by many of the same challenges as the music industry, has been so critical of the way it has tackled these challenges. A rare and timely volume looking at the changes induced by the digitalization of music distribution, Digital Music Distribution will appeal to undergraduate students and policy makers interested in fields such

as Media Studies, Digital Media, Music Business, Sociology and Cultural Studies.

*Digital Music Distribution* Createspace Independent Publishing Platform North in the World presents 121 poems by Rolf Jacobsen (1907-1994), one of Norway's greatest modern poets. Garnering the highest praise of critics, Jacobsen won many of Norway's and Sweden's most prestigious literary awards, including the Swedish Academy's Dobloug Prize and the

Grand Nordic Prize, also known as the "Little Nobel." But he also has earned a wide popular audience, because ordinary readers can understand and enjoy the way he explores the complex counterpoint of nature and technology, progress and self-destruction, daily life and cosmic wonder. Drawing from all twelve of his books, and including one poem collected posthumously, *North in the World* offers award-winning English translations of Jacobsen's

poems, accompanied by the original Norwegian texts. The translator, the American poet Roger Greenwald, worked with Jacobsen himself to correct errors that had crept into the Norwegian texts over the years. An in-depth introduction by Greenwald highlights the main features of Jacobsen's poetry, and extensive endnotes, as well as indexes to titles and first lines in both languages, enhance the usefulness of the book for general readers and scholars alike. The result

is the definitive bilingual edition of Jacobsen's marvelous poetry. *Childhood Obesity* McGraw-Hill Education Following the neoliberal turn in the 1980s, leading global companies have established an influential trend in business through adoption of the doctrine of corporate social and environmental responsibility (CSR). This book critically explores the new megatrend and its varying interpretations and presents overviews of several fields of CSR practice: governance,

business ethics, SRI/ESG investment, communication, reporting, labour relations/HR, supply chain management, life cycle analysis, climate strategy, innovation, leadership and public policy. The book also presents visions of CSR development going forward. While the book contributes to the international research frontier, it also reflects its Nordic context, both with respect to authorship and empirical focus. Chapters on leading companies and on state CSR initiatives

illustrate how the Nordic tradition has fostered pioneering CSR positions both in business and public policy. In the final chapter the book engages in the broader international debate on CSR, democracy, and value creation, with leading international critical thinkers in dialogue with industrial strategists.

"[Sigrid Undset] should be

the next Elena Ferrante.” —Slate A Penguin Classic Kristin Lavransdatter interweaves political, social, and religious history with the daily aspects of family life to create a colorful, richly detailed tapestry of Norway during the fourteenth-century. The trilogy, however, is more than a journey into the past. Undset's own life—her familiarity with Norse sagas and folklore and with a wide range of medieval literature, her experiences as a daughter, wife, and

mother, and her deep religious faith—profoundly influenced her writing. Her grasp of the connections between past and present and of human nature itself, combined with the extraordinary quality of her writing, sets her works far above the genre of "historical novels." This new translation by Tina Nunnally—the first English version since Charles Archer's translation in the 1920s—captures Undset's strengths as a stylist. Nunnally, an award-winning translator, retains

the natural dialog and lyrical flow of the original Norwegian, with its echoes of Old Norse legends, while deftly avoiding the stilted language and false archaisms of Archer's translation. In addition, she restores key passages left out of that edition. Undset's ability to present a meticulously accurate historical portrait without sacrificing the poetry and narrative drive of masterful storytelling was particularly significant in her homeland. Granted independence in 1905

after five hundred years of foreign domination, Norway was eager to reclaim its national history and culture. Kristin Lavransdatter became a touchstone for Undset's contemporaries, and continues to be widely read by Norwegians today. In the more than 75 years since it was first published, it has also become a favorite throughout the world. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world.

With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators. Synnöve Solbakken Hachette UK Gunnar Harding, perhaps

the most prominent living Swedish poet after Tomas Tranströmer, has won all the major Swedish literary awards, yet has scarcely been translated for English language readers. Guarding the Air: Selected Poems of Gunnar Harding presents 112 poems drawn from eleven of the thirteen books Harding has published that contain poetry in verse. The book contains a brief introduction by the translator; a useful guide to Harding's poetry in the form of his prefaces to his three Swedish volumes of

selected poems; an extensive set of endnotes, many of which include or rely on comments by the poet; and an index to poem titles.

Blind Faith, or Is The Bible Really God's Inspired Word? Can You Ever Know For Sure? Join best-selling author Hank Hanegraaff for a stirring defense of the Bible as the Word of God and your only reliable foundation for life. In answering the riveting question, "Has God spoken?", Hanegraaff uses manuscript evidence, archeology, predictive prophecy, and much more to memorably demonstrate that the Bible is divine rather than merely human in origin. Hanegraaff demolishes

modern objections to Scripture, such as: There are more mistakes in manuscript copies of the Bible than there are words in the New Testament. The biblical account of King David is no more factual than tales of King Arthur—there simply is no evidence in archeology or history for Israel's quintessential king. Contemporary prophets are proven 100 percent wrong, 100 percent of the time, and biblical prophets are just as unreliable. Has God Spoken? joins its
