Amazon.com: Complex Analysis (Undergraduate Texts in ... Complex Analysis Springer Joseph Bak  
 Dr. Joseph Bak is the Assistant Chair of the Mathematics department at The City College of New York. Joseph Bak's primary area of research is approximation theory. Dr. Donald J. Newman (July 27, 1930 - March 28, 2007) was a champion problem solver. His mathematical specialties included complex analysis, approximation theory and number theory. Complex Analysis | Joseph Bak | Springer  
 Accessible to students at their early stages of mathematical study, this full first year course in complex analysis offers new and interesting motivations for classical results and introduces related topics stressing motivation and technique. Numerous illustrations, examples, and now 300 exercises, enrich the text. Complex Analysis - Springer

 Complex Analysis - Joseph Bak, Donald J. Newman - Google Books  
 Complex analysis was made, in part, to compute definite and indefinite integrals. So having a book that does not teach you how to use the residue theorem to compute an integral is doing you a disservice. This is another reason why books like Rudin's Real and Complex Analysis are not good first choices for textbooks. Complex Analysis (Undergraduate Texts in Mathematics ...  
 Joseph Bak, Donald J. Newman - Complex Analysis.pdf (PDF) Joseph Bak, Donald J. Newman - Complex Analysis.pdf ...  
 Abstract. Numbers of the form  $\sqrt{a + b\sqrt{-1}}$ , where  $a$  and  $b$  are real numbers—what we call complex numbers. appeared as early as the 16th century. Cardan (1501–1576) worked with complex numbers in solving quadratic and cubic equations. In the 18th century, functions involving complex numbers were found by Euler to yield solutions to differential equations. The Complex Numbers | SpringerLink - link.springer.com
