An Introduction to Canadian Criminal Procedure and Evidence, Sixth Edition, offers a comprehensive introduction to criminal procedure and provides a critical overview of the gathering and admissibility of evidence. The text is aligned with how the criminal justice process proceeds: from an investigative stage and initial encounter between police and suspect, to the early involvement of defence lawyers and Crown prosecutors, to the inside of the courtroom and jury selection, to the conduct of trials and the application of rules of evidence to such proceedings. It first addresses the out-of-court and pre-trial realities of the criminal justice process such as search and seizure, electronic surveillance, admissions and confessions, police powers of arrest and release, and an accused person's due process rights, including the right to full disclosure. The text then discusses the rules that govern in-court proceedings, including the rules that determine the compellability of witnesses, what can and cannot be said by witnesses, what inferences trial judges or juries may or may not draw from evidence, and how juries are created.

Learning Canadian Criminal Law Scarborough, Ont. : Carswell
Concise yet thought provoking, this text helps you learn about the structure and function of Canada's Criminal justice system and introduces such things as community policing, the role communities play in criminal justice, restorative justice, victims of crime in the criminal justice process and Aboriginal peoples and criminal justice.

Towards a Codification of Canadian Criminal Law Butterworths Canada

"This casebook focuses on the tension between the rights of accused, especially since the Charter of Rights and Freedoms, and the interests of effective law enforcement.

Canadian Criminal Justice Agincourt, Ont. : Carswell

"The eighth edition of *Criminal Justice in Canada* chronicles many of the proposed and actual changes in criminal justice, ranging from the decriminalization of cannabis to the landmark ruling in *R. v. Jordan*, regarding the right to be tried in a timely manner. As with each previous edition, updated content has made the book more informative, engaging, and accessible. Since criminal justice is an ever-evolving field of study, the shifting contexts of the social world will continue to impact and influence our criminal justice system and its policy responses."--

Canadian Criminal Law in a Rapidly Changing World Taylor & Francis

Criminal Law in Canada is a core introductory text intended to give students the practical understanding of criminal law that they require to become successful criminal justice system practitioners. *Criminal Law in Canada* uses an integrated case-oriented approach to appeal to students. It discusses the general principles underlying Canadian criminal law in the context of specific cases decided by the courts. By combining the study of general principles with a close analysis of specific cases, students learn to apply the principles of criminal law to concrete, factual situations that they will face in everyday life or read about in the media.

Canadian Criminal Procedure Thomson Nelson

"This comprehensive text provides vital background information and a coherent structure for understanding the law. Focusing on the substantive aspects of the criminal justice system and the trial context, this casebook covers the adversary system, how the elements of crime are proven, defences and sentencing practices. Features include a concentration on the main sources (including the Criminal Code), key judicial decisions and critical review, judicious editing of the increasingly lengthy reasons for judgment in major cases, an extended introductory section and problems based on actual decisions or designed to provoke thought on current social issues."--Pub. desc.

An Introduction to Canadian Criminal Procedure and Evidence Scarborough, Ont. : Nelson

Derived from the renowned multi-volume International Encyclopaedia of Laws, this book provides a practical analysis of

criminal law in Canada. An introduction presents the necessary background information about the framework and sources of the criminal justice system, and then proceeds to a detailed examination of the grounds for criminal liability, the justification of criminal offences, the defences that diminish or excuse criminal liability, the classification of criminal offences, and the sanctions system. Coverage of criminal procedure focuses on the organization of investigations, pre-trial proceedings, trial stage, and legal remedies. A final part describes the execution of sentences and orders, the prison system, and the extinction of custodial sanctions or sentences. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable resource for criminal lawyers, prosecutors, law enforcement officers, and criminal court judges handling cases connected with Canada. Academics and researchers, as well as the various international organizations in the field, will welcome this very useful guide, and will appreciate its value in the study of comparative criminal law.

Criminal Law and the Canadian Criminal Code Kluwer Law International B.V.

Canadian Criminal Cases: Selected Highlights is an original collection of 42 edited criminal cases that have played a fundamental role in shaping contemporary criminal law in Canada. Each of the cases featured in this edition begins with a succinct commentary establishing the case's relevance to specific legal concepts and principles. *Canadian Criminal Cases* allows students to acquaint themselves with groundbreaking Canadian criminal cases without having to purchase an encyclopedic casebook.

Canadian Criminal Justice Scarborough, Ont. : Nelson Thomson Learning

A History of Law in Canada is an important three-volume project. Volume One begins at a time just prior to European contact and continues to the 1860s, Volume Two covers the half century after Confederation, and Volume Three covers the period from the beginning of the First World War to 1982, with a postscript taking the account to approximately 2000. The history of law includes substantive law, legal institutions, legal actors, and legal culture.

The authors assume that since 1500 there have been three legal systems in Canada – the Indigenous, the French, and the English. At all times, these systems have co-existed and interacted, with the relative power and influence of each being more or less dominant in different periods. The history of law cannot be treated in isolation, and this book examines law as a dynamic process, shaped by and affecting other histories over the long term. The law guided and was guided by economic developments, was influenced and moulded by the nature and trajectory of political ideas and institutions, and variously exacerbated or mediated intercultural exchange and conflict. These themes are apparent in this examination, and through most areas of law including land settlement and tenure, and family, commercial, constitutional, and criminal law.

Criminal Law in Canada Thomson Nelson

For practice at a plausible price this is a newly revised edition. This book specifically designed for self-motivated self-study students who are seeking significant score improvement in the Law School. Relied on by students, professors, and practitioners. It is brilliant, basic and remarkably effective. The remarkable, trustworthy book is extremely useful to teach yourself the subject from the first day of class until your last review before the final. The first duty of a law book is to state the law as it is, truly and accurately, and then the reason or principle for it as far as it is known. Books are printed using fonts of 9 points size or larger and the text is printed in 1 column unless specifically noted.

Learning Canadian Criminal Law Thomson Carswell

In Minority Report, Precrime imprisons people for crimes they would have committed had they not been prevented. With Philip K. Dick as inspiration, the authors posit that developments in Canadian law indicate a trend toward imposing punishments at earlier stages of the prosecutorial process. As risk management logics shift to precautionary ones, the law has responded by developing criminal regulation techniques in light of the "war on terror": the need to ensure security, the proliferation of digital

data, and the design of drones, social networking, and cloud storage to gather data. The book is a provocative read for scholars and students in criminal law, policing, and surveillance. Canadian Criminal Law Scarborough, Ont. : Nelson Canada Criminal Law in Canada is a case-oriented approach, in which the student is encouraged to study not only the general principles of criminal law but also the specific details of decided cases. Using this method, students learn to apply these principles of criminal law to concrete factual situations that arise in everyday life or to situations that they may encounter in their professional lives. Contemporary changes in the Canadian Criminal Code are thoroughly examined and compared with precedent-setting cases, thereby creating a context for understanding and interpreting criminal law in Canada.

Canadian Criminal Law Pearson Education Canada

The Second Edition offers a comprehensive and critical introduction to the law of Canadian criminal procedure and evidence, with an emphasis on the relevance of social science to the criminal litigation process. Criminal procedure and evidence is continually evolving as a result of decisions from the Supreme Court of Canada and amendments to the criminal code and other legislation by Parliament. These changes have been incorporated in the new edition to provide a text that is current and one that reflects the latest developments in our system.

Canadian Criminology Today offers a clear, contemporary, and comprehensive introduction to criminology that encourages students to think critically about the causes of crime and the outcomes of crime-prevention strategies. Throughout the text,

Schmallegger and Volk use plentiful examples and current case studies to present the consequences of criminological theory for social policy and the practical issues associated with crime control. Special attention is paid to both Canadian issues and emerging forms of criminality worldwide to ensure students are well prepared for future careers in the Canadian criminal justice system.

The Canadian Criminal Justice System

"This book has been written to fill a serious gap in the legal literature that is available to University and College students who wish to study critical aspects of Criminal Law in depth, but do not intend to pursue a career in the Law. How legislators and judges respond to the threats posed by constantly evolving and adaptive forms of criminal behaviour, aided and abetted by increasingly sophisticated digital technology, is a topic that is of great interest to students in many disciplines. Knowledge of the Criminal Law is an increasingly important area of expertise for all Canadians and this book is designed to make this knowledge available in a style that is intended for the average student rather than for future lawyers who are required to pay very close attention to complex forms of language that may require months of study to disentangle."--

An Introduction to Canadian Criminal Procedure and Evidence for the Social Sciences. Instructor's Manual

Ranging from mainstream to critical, Criminal Justice in Canada: A Reader contains a widely diverse selection of largely original readings on the criminal justice system. It focuses on the most topical issues and pressing problems in today's society, such as plea-bargaining, prisoner's rights and wrongful convictions in Canada.
