The Old Regime and the Revolution Council of Europe

Transnational Management provides an integrated conceptual framework to guide students and instructors through the challenges facing today's multinational enterprises. Through text narrative and cases, the authors skilfully examine the development of strategy, organizational capabilities, and management roles and responsibilities for operating in the global economy. The key concepts are developed in eight chapters that are supplemented by carefully selected practical case studies from world-leading case writers. All chapters have been revised and updated for this eighth edition to reflect the latest thinking in transnational management while retaining the book's strong integrated conceptual framework. Ten new cases have been added, and four others updated. A full range of online support materials are available, including detailed case teaching notes, almost 200 PowerPoint slides, and a test bank. Suitable for MBA, executive education and senior undergraduate students studying international management, international business or global strategy courses, Transnational Management offers a uniquely global perspective on the subject.

Memories of 'the East' Pen and Sword

A gripping and fast-paced adventure story about one boy's life-threatening mission to support the secret resistance in Nazi-occupied Netherlands, based on the author's own childhood in Holland during World War II. It's the winter of 1944-45, and Michiel's country has been at war since he was eleven. Now he's fifteen, and his country is under Nazi occupation, including the town where Michiel lives and where his father is the mayor. No longer able to attend school, Michiel spends his days running urgent errands on his bicycle, avoiding Allied bombers and German soldiers alike. Then one day, his friendship with Dirk, the neighbor's older son and a member of the secret underground, involves him in the care of a wounded British pilot. When a German soldier is found murdered and the townspeople are blamed for his death, Michiel's already-risky mission turns life-threatening. Winter in Wartime is a fast-paced and exciting novel, which has never been out of print in the Netherlands since it was first published, nearly fifty years ago. Based on the author's own boyhood in wartime Holland, the action and adventure of Michiel's mission makes for a gripping read, while the anguish of his experience underscores the ultimate anti-war tenor of the novel.

This book gives an excellent overview of Flemish art from the Hermitage in St Petersburg. A large proportion was acquired in the eighteenth century by Catherine the Great, from superb collections such as those of Crozat and Brühl, which she bought up in their entirety. Many of these paintings originally hung in churches and monasteries in Antwerp and other European cities. Most attention focuses on the 'big three': Peter Paul Rubens, Anthony van Dyck and Jacob Jordaens. Rubens was the most important, the most talented, and the most influential seventeenth-century Flemish painter. He was also a phenomenon in his day, a true homo universalis. The portraits produced by Van Dyck for

the court of King Charles I of England also share the limelight, along with impressive history paintings by Jordaens, exuding the vibrant atmosphere in which he excelled. Exhibition: De Nieuwe Kerk - Hermitage, Amsterdam, 17.9.2011 to 16.3.2012.

When we think of drugs, we immediately think of the old guard drugs like cocaine, heroin and hemp. Other than that, there are for some time synthetic drugs (XTC) made in many forms, colors and effects. We talk in this book about the ordinary old-fashioned drugs in the form of cocaine. We're going to expose what is behind and who are the true drug dealers. The old-fashioned drug is still the trade with which the super rich enrich themselves. Also, it is the elite who use a lot of this stuff. You can make it clear that most of the top in the business world, but also the politics and those who move into higher layers, are the permanent users of the cocaine stuff. Often in the most pure form and often used daily like a breakfast and dinner. But first I like to elaborate some things; what is cocaine and who are the driving forces behind these drugs according to world organizations of detecting drugs. Let's talk about drugs."

Non-violent resistance (NVR) is an approach for parents and other caregivers that helps to increase presence and overcome impulsive and dangerous behaviors, while reducing conflict and escalation. The practical, evidence-based advice accompanies a detailed list of all the new applications of NVR and an overview of the supporting literature. A step-by-step presentation of the treatment is laid out alongside a useful model on escalation and its prevention. The approach achieves high parent engagement and cooperation, with over twenty controlled studies showing that NVR effectively reduces parental helplessness, parental impulsiveness, parent-child conflicts, and family discord.

James Patterson has taken the European thriller to a masterful new level with Private Berlin, an adrenaline-charged, spectacularly violent and sexy novel with unforgettable characters of dark and complex depths. Private Berlin proves why Patterson is

truly the world's #1 bestselling author.

The Vanishing Archipelago

The 1989 pro-democracy movement in China constituted a huge challenge to the survival of the Chinese communist state, and the efforts of the Chinese Communist party to erase the memory of the massacre testify to its importance. This consisted of six weeks of massive pro-democracy demonstrations in Beijing and over 300 other cities, led by students, who in Beijing engaged in a hunger strike which drew wide public support. Their actions provoked repression from the regime, which - after internal debate - decided to suppress the movement with force, leading to a still-unknown number of deaths in Beijing and a period of heightened repression throughout the country. This book assesses the impact of the movement, and of the ensuing repression, on the political evolution of the People's Republic of China. The book discusses what lessons the leadership learned from the events of 1989, in particular whether these events consolidated authoritarian government or facilitated its adaptation towards a new flexibility which may, in time, lead to the transformation of the regime. It also examines the impact of 1989 on the pro-democracy movement, assessing whether its change of strategy since has consolidated the movement, or if, given its success in achieving economic growth and raising living standards, it has become increasingly irrelevant. It also examines how the repression of the movement has affected the economic policy of the Party, favoring the development of large State Enterprises and provoking an impressive social polarisation. Finally, Jean-Philippe Béja discusses how the events of 1989 are remembered and have affected China's international relations and diplomacy; how human rights, law enforcement, policing, and liberal thought have developed over two decades.

By the acclaimed Dutch author of *Beyond Sleep: a thriller set in Nazi occupied Holland: "fast-moving, frighteningly real yet verging on the incredible"* (Milan Kundera, author of *The Unbearable Lightness of Being*). During the German occupation of Holland, tobacconist Henri Osewoudt is visited by a mysterious man named Dorbeck—a man who bears a strangely striking resemblance to Osewoudt himself. Dorbeck recruits him to perform simple, but top-secret missions on orders from London. But as the assignments keep coming, they get increasingly dangerous. Soon Osewoudt is being asked to commit murder in the name of Gestapo resistance. After the war, Osewoudt is taken for a traitor and captured. To prove his sacrifices for the Resistance, he must find the untraceable doppelgänger in an existential thriller "crackling with tension . . . bringing to mind Camus and the Sartre of *Les Chemins de la Liberté*" (The Telegraph). "Striking, suspenseful . . . Brilliant." —The Observer

Seen through the eyes of John Fletcher-Cooke, the horrifying, but by now often-told story of the treatment meted out by the Japanese to their prisoners of war takes on an entirely new light. His is a book written without bitterness but at the same time a book which does not look back on suffering

shared in the self-congratulatory spirit of an old comrades reunion. For Sir John has two remarkable advantages, one possible unique and the other certainly very rare. Firstly, throughout his captivity he kept a diary on which this book is based, and which, as the reader will discover, he was almost unbelievably lucky to preserve. Secondly, as the reader will discover by reading between the lines, he never for one moment gave way to despair. During his years as a prisoner of war he witnessed and was subjected to a wider spectrum of man's inhumanity to man than he could have expected to experience had Torquemada himself been his tutor. To say the he emerged from his descent into hell a wiser and better man is not to condone his suffering. It only emphasizes the fact that indomitable courage and great strength of character are often revealed only in adversity. Sir John subsequently revisited Japan and the places where he was imprisoned. He also met some of the men who had once been his persecutors. The final chapters of this very remarkable book reveal once again the humanity, compassion and understanding which enabled him to survive when so many others died.

Produced for the Council of Europe project " Learning and teaching about the history of Europe in the 20th century", this book concentrates on the how rather than the what of teaching. Besides a study of selected themes and topics, it covers the teaching of sensitive issues, the reading of visual archives, analysing history on television and the Internet and assessing new technologies. Some of these new sources have not been made part of standard teacher training, yet they have a powerful role in the way young people perceive the past. The author is a Senior Research Fellow at Leirsinn Research Centre, University of Highlands and Islands Millennium Institute.

In this newest edition of her bestselling book, Barbara H. Rosenwein integrates the history of European, Byzantine, and Islamic medieval cultures—as well as their Eurasian connections—in a dynamic narrative. The text has been significantly updated to reflect growing interest in the Islamic world and Mediterranean region. Stunning plates featuring art and architecture weave together events, mentalities, and aesthetics. Medievalist Riccardo Cristiani authors a new feature on material culture that examines the intricacies of manuscript production and the lustrous glazes of Islamic ceramics. A fully revised map program offers user-friendly spot maps that clarify events right where they are discussed as well as dazzling topographical maps that reveal the very contours of the medieval world. Helpful genealogies, figures, architectural plans, and lists of key dates complement the text. All maps, genealogies, and figures are available on the History Matters website (www.utphistorymatters.com) for easy download. Students will find this site equally useful for its hundreds of study questions and their click-to-reveal answers.
