In his Nautilus Award-winning classic *Touching Spirit Bear*, author Ben Mikaelson delivers a powerful coming-of-age story of a boy who must overcome the effects that violence has had on his life. After severely injuring Peter Driscall in an empty parking lot,

mischief-maker Cole Matthews is in major trouble. But instead of jail time, Cole is given another option: attend Circle Justice, an alternative program that sends juvenile offenders to a remote Alaskan Island to focus on changing their ways. Desperate to avoid prison, Cole fakes humility and agrees to go. While there, Cole is mauled by a mysterious white bear and left for dead. Thoughts of his abusive parents, helpless Peter, and his own anger cause him to examine his actions and seek redemption—from the spirit bear that attacked him, from his victims, and, most importantly, from himself. Ben Mikaelson paints a vivid picture of a juvenile offender, examining the roots of his anger without absolving him of responsibility for his actions, and questioning a society in which angry people make victims of their peers and communities. *Touching Spirit Bear* is a

poignant testimonial to the power of a pain that can destroy, or lead to healing. A strong choice for independent reading, sharing in the classroom, homeschooling, and book groups.

"Prealgebra is designed to meet scope and sequence  
requirements for a one-semester prealgebra course. The text  
introduces the fundamental concepts of algebra while addressing  
the needs of students with diverse backgrounds and learning  
styles. Each topic builds upon previously developed material to  
demonstrate the cohesiveness and structure of mathematics.  
Prealgebra follows a nontraditional approach in its presentation of  
content. The beginning, in particular, is presented as a sequence  
of small steps so that students gain confidence in their ability to  
succeed in the course. The order of topics was carefully planned  
to emphasize the logical progression throughout the course and  
to facilitate a thorough understanding of each concept. As new  
ideas are presented, they are explicitly related to previous  
topics."--BC Campus website.
