Facts about the Cities Wiley

Many reference works offer compilations of critical documents covering individual liberty, local autonomy, constitutional order, and other issues that helped to shape the American political tradition. Yet few of those works are available in a form suitable for classroom use, and traditional textbooks give short shrift to these important issues. The American Republic overcomes that knowledge gap by providing, in a single volume, critical, original documents revealing the character of American discourse on the nature and importance of local government, the purposes of federal union, and the role of religion and tradition in forming America's drive for liberty. The American Republic is divided into nine sections, each illustrating major philosophical, cultural, and policy positions at issue during crucial eras of American development. Readers will find documentary evidence of the purposes behind European settlement, American response to English acts, the pervasive role of religion in early American public life, and perspectives in the debate over independence. Subsequent chapters examine the roots of American constitutionalism, Federalist and Anti-Federalist arguments concerning the need to protect common law rights, and the debates over whether the states or the federal government held final authority in determining the course of public policy in America. Also included are the discussions regarding disagreements over internal improvements and other federal measures aimed at binding the nation, particularly in the area of commerce. The final section focuses on the political, cultural, and legal issues leading to the Civil War. Arguments and attempted compromises regarding slavery, along with laws that helped shape slavery, are highlighted. The volume ends with the prelude to the Civil War, a natural stopping-off point for studies of early American history. By bringing together key original documents and other writings that explain cultural, religious, and historical concerns, this volume gives students, teachers, and general readers an effective way to begin examining the diversity of issues and influences that characterize American history. The result unquestionably leads to a deeper and more thorough understanding of America's political, institutional, and cultural continuity and change.

Bruce P. Frohnen is Associate Professor of Law at Ohio Northern University College of Law. He holds a J.D. from the Emory University School of Law and a Ph.D. in Government from Cornell University. Click here to print or download [The American Republic index](#).

American Military History Volume 1 SIU Press

The second edition of *Policing: Continuity and Change* effectively combines theory, research, policy, and practical experience. Strategies for policing in the United States have evolved rapidly in the last four decades. This concise introduction provides the necessary background to understand the challenges of policing, the innovations in the field, and the reforms shaping the profession. Discussions of recruitment, socialization, and organization delineate who the police are, what they do, and how the police culture affects officers. The authors highlight the proactive skills necessary for solving problems and for productive interactions with community members. They emphasize the need for policies and training regarding use of force. This vital, up-to-date overview explores the implications for policing as departments employ new technologies and respond to demands for accountability.

Disaster Law and Policy Harper

"A higher education text on the history of the United States since World War II"--

Nationalisms in International Politics Waveland Press

Often obscured in the history of the nineteenth-century US-Mexico borderlands, European-born

entrepreneurs played a definitive role in pushing the Rio Grande borderlands into Atlantic markets. These borderlands entrepreneurs tried to transform the Lower Rio Grande and its surroundings from a regional crossroads of trade to a hub of the Atlantic economy. Though they were often stymied by mismanagement, notions of ethnic and cultural superiority, and eruptions of violence, these entrepreneurs persistently attempted to remake the region into a modern commercial utopia. Their actions challenged United States imperial expansion into the Rio Grande borderlands as they tried to modernize the region according to European cultural precepts through constructing colonies populated with Europeans, building strong networks of local and global significance, and striving to dominate trade in the region. *Globalizing the Lower Rio Grande* reframes the narrative of the borderlands through the perspectives of Europeans who actively shaped the historical trajectory of the region. It highlights the actions of folks like English-born John C. Beales, who convinced a party of Europeans to trek overseas and overland to the isolated Las Moras Creek to build a colony from scratch; Alexander Bourgeois d'Orvanne, former mayor of Clichy-la-Garenne in France, who manipulated powerful French and German leaders to support a settlement scheme on the Rio Grande; Spanish-born José San Román and the way he constructed massive transatlantic networks of credit and exchange; and Joseph Kleiber from Strasbourg, who facilitated the construction of a European-owned railroad line along the Rio Grande. Though ultimately undermined and outmaneuvered by their American rivals, European-born borderlands entrepreneurs like these collectively globalized the Lower Rio Grande.

Liberalism and Its Discontents McGraw-Hill Education

U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). U.S. History covers key forces that form the American experience, with particular attention to issues of race, class, and gender.

The Unfinished Nation Princeton University Press

Describes Castro's insurrection from a 1955 fund raising trip to the United States to the Cuban Revolution.

The Construction Chart Book Aspen Publishers

The book, "" Antiquities of the Jews; Book - VIII "" , has been considered important throughout the human history, and so that this work is never forgotten we have made efforts in its preservation by republishing this book in a modern format for present and future generations. This whole book has been reformatted, retyped and designed. These books are not made of scanned copies and hence the text is clear and readable.

Operating System Concepts McGraw-Hill College

The Art of Public Speaking University of North Texas Press

Lucas' "The Art of Public Speaking" is the leading public speaking textbook in the field. Whether a novice or an experienced speaker when beginning the course, every student will learn how to be a better public speaker through Lucas' clear explanations. Creative activities, vivid examples, annotated speech samples, and foundation of classic and contemporary rhetoric provide students a strong understanding of public speaking. When instructors teach from this textbook, they benefit from Lucas' Integrated Teaching Package. The Annotated Instructor's Edition and Instructor's Manual, both written by Steve Lucas, provide teaching tips and give outlines on how to use the various supplements. As a result, instructors are able to see various teaching examples, how to integrate technology, and analyses and discussion questions for video clips in class. The Annotated Instructor's Edition, Instructor's Manual, Test Bank, CDs, videos, and other supplements provide instructors the tools needed to create a dynamic classroom. This edition has a supplement to meet the needs of online classes, Teaching Public Speaking Online with The Art of Public Speaking.

The American Republic Oxford University Press, USA

Lawrence Durrell called Alexandra David-Neel 'the most astonishing woman of our time.' She was the first European to explore Tibet at a time when foreigners were banned; few have led a life of adventure to equal hers. Using never before available material from the secret files of the India Office, the *Fosters* chronicle the life of this extraordinary woman including details of her mastery of secret mystical practices, including out of body travel, long distance telepathy, vampiric shamanism and tantric sex.

Reveille in Washington John Wiley & Sons

Disaster Law and Policy examines the growing field concerned with disaster prevention, emergency response, compensation and insurance, human rights, and community recovery. The first book on disaster law to appear in the wake of Katrina, this fascinating text provides the key building blocks for a thoughtful analysis of the issues that surround disaster-relief policy and procedure. Exploring the legal issues that surround Katrina and other natural disasters in the U.S. and around the world, *Disaster Law and Policy*, features: effective tools for legal analysis of issues emerging from disastrous events discussion problems and class exercises an interdisciplinary approach that combines law, public policy, economics, and science broad coverage—from environmental and land use law to insurance, tort law, and civil rights issues discussion of public expectations of government response in crisis, compared to actual government and private sector preparedness and capabilities examination of post disaster issues such as Medicaid, the role of environmental litigation, communications, law enforcement, evacuation, and the work of the Army Corps of Engineers on the levees in New Orleans Adopting a wider perspective that looks at the legal ramifications of disasters across the United States and around the world, the Second Edition offers: a new chapter on the causes of disasters and their relationship to laws designed to protect health, safety, and the environment a new chapter on risk and uncertainty that examines the latest ideas to come out of economics, complexity theory, and organizational management a new chapter on international disaster law that looks at recent developments in disaster-risk management, the protection of human rights, and the preservation of ecosystem services Coverage includes discussion of the 2005 Asian Tsunami, China's Sichuan Earthquake, and Cyclone Nargis in Myanmar/Burma a new chapter on recovery from disaster that features an extended class exercise A unique and timely text in a burgeoning field, *Disaster Law and Policy*, Second Edition, is ideal for use in a seminar or a course on disaster issues—and—or as a supplement in courses on environmental law or land use.

Probability and Statistics for Computer Scientists, Second Edition Alpha Edition

When the young Swedish-descended Alexandra Bergson inherits her father's farm in Nebraska, she must transform the land from a wind-swept prairie landscape into a thriving enterprise. She dedicates herself completely to the land—at the cost of great sacrifices. *O Pioneers!* [1913] is Willa Cather's great masterpiece about American pioneers, where the land is as important a character as the people who cultivate it. WILLA CATHER [1873-1947] was an American author. After studying at the University of Nebraska, she worked as a teacher and journalist. Cather's novels often focus on settlers in the USA with a particular emphasis on female pioneers. In 1923, she was awarded the Pulitzer Prize for the novel *One of Ours*, and in 1943, she was elected to the American Academy of Arts and Sciences.

The Western Historical Quarterly Prentice Hall

How did liberalism, the great political tradition that from the New Deal to the 1960s seemed to dominate American politics, fall from favor so far and so fast? In this history of liberalism since the 1930s, a distinguished historian offers an eloquent account of postwar liberalism, where it came from, where it has gone, and why. The book supplies a crucial chapter in the history of twentieth-century American politics as well as a valuable and clear perspective on the state of our nation's politics today. *Liberalism and Its Discontents* moves from a penetrating interpretation of Franklin D. Roosevelt and the New Deal to an analysis of the profound and frequently corrosive economic, social, and cultural changes that have undermined the liberal tradition. The book moves beyond an examination of the internal weaknesses of liberalism and the broad social and economic forces it faced to consider the role of alternative political traditions in liberalism's downfall. What emerges is a picture of a dominant political tradition far less uniform and stable—and far more complex and contested—than has been argued. The author offers as well a masterly assessment of how some of the leading historians of the postwar era explained (or failed to explain) liberalism and other political ideologies in the last half-century. He also makes clear how historical interpretation was itself a reflection of liberal assumptions that began to collapse more quickly and completely than almost any scholar could have imagined a generation ago. As both political history and a critique of that history, *Liberalism and Its Discontents*, based on extraordinary essays written over the last decade, leads to a new understanding of the shaping of modern America.

A Patriot's History of the United States Oxford University Press

Student Voice: From Invisible to Invaluable is about why and how today's leaders need to connect with students for success. The premise of this book is that student voice is often invisible and that is possibly why schools have changed little since the 19th Century. From digital citizenship to teacher evaluation, we submit that the voice of students can be and needs to be amplified. The authors wrote this book to help elevate the power and influence of student voice in the transformation and leadership of our schools. The authors provide context that helps frame where education has been, where it stands today, and where the authors propose we go in school leadership. To truly transform, schools leaders in the classroom, principal's office, and district office need to elevate the voice of the student. There is no greater way to inspire our children than to let them have a say in their own education. We simply cannot create the leaders of tomorrow when we do not let them lead today. This book will provide examples of excellence, stories of success, and practical tips to help you move student voice from invisible to invaluable.

America's History Penguin

Give Me Liberty! is the #1 book in the U.S. history survey course because it works in the classroom. A single-author text by a leader in the field, *Give Me Liberty!* delivers an authoritative, accessible, concise, and integrated American history. For the Record CRC Press

W.E.B. DuBois immortalized Philadelphia's Black Seventh Ward neighborhood, one of America's oldest urban black communities, in his 1899 sociological study *The Philadelphia Negro*. In the century after DuBois's study, however, the district has been transformed into a largely white upper middle class neighborhood. *Black Citymakers* revisits the Black Seventh Ward, documenting a century of banking and tenement collapses, housing activism, black-led anti-urban renewal mobilization, and post-Civil Rights political change from the perspective of the Black Seventh Warders. Drawing on historical, political, and sociological research, Marcus Hunter argues that black Philadelphians were by no means mere casualties of the large scale social and political changes that altered urban dynamics across the nation after World War II. Instead, Hunter shows that black Americans framed their own understandings of urban social change, forging dynamic inter- and intra-racial alliances that allowed them to shape their own migration from the old Black Seventh Ward to emergent black urban enclaves throughout Philadelphia. These Philadelphians were not victims forced from their homes - they were citymakers and agents of urban change. *Black Citymakers* explores a century of socioeconomic, cultural, and political history in the Black Seventh Ward, creating a new understanding of the political agency of black residents, leaders and activists in twentieth century urban change.
