Good day, everyone! My name is Felicia Belphe Metrone. I am the only daughter of Baron Alphonse Lartes Metrone. I am 7 years old. I haven't always been Baron Metrone's daughter, though. I was originally a 29 year old man who lived in Cornwall. One day I was hit by a truck and as a result, I was reincarnated into what at

first seemed to be medieval Europe. But what's this? We are a noble family, but why is our house so run down? Why are the fields looking so lifeless? Why does our army consist of one person? Why do we have so much land but it's all barren? Why? Why? Why?

Haunting and atmospheric, this debut novel portrays the heartbreak, hardship and moments of surprising grace in the life of a man struggling to realize his destiny. A young man of astonishing promise when he emigrated from Ghana in 1955, Samuel Tyne was determined to accomplish great things. Fifteen long years later, he's an insignificant government employee who hates his job when he unexpectedly inherits his uncle's crumbling mansion in Aster, Alberta. Despite his wife's resistance and the sullen complaints of his thirteen-year-old twin daughters, Samuel quits his job and moves his family to the town. For here, he believes, is that fabled second chance, and he is determined not to fail again. At first, Aster seems perfect — to Samuel, the formerly all-black town represents the return to a communal, idyllic way of life. But he soon discovers the town's problems: a history of in-fighting, a strict town council and a series of mysterious fires that put all the townsfolk on edge. When his daughters cease speaking and refuse to explain their increasingly strange behaviour, Samuel turns more and more to the refuge of his electronics shop. As his ambitions intensify, the life he has struggled so hard to improve begins to disintegrate around him, and a dark current of menace in the town is turned upon the Tyne family.

'I'M THE KING OF THE WORLD' That was the cry from Leonardo DiCaprio as he stood astride the bow in *Titanic* - the movie that would go on to smash all records, raking in a whopping GBP1.1 billion worldwide. Now, few Hollywood movers and shakers would dispute that statement as Leo has rocketed to become one of the highest paid actors in the world. And his position looks set to be secure after an incredible 2013 which saw Hollywood's hottest talent appearing as the eponymous Jay Gatsby in the *Great Gatsby*, following swiftly on the heels of the great success of Quentin Tarantino's blockbuster, *Django Unchained*. Yet, although he's spent over 15 years at the top of his profession, Leonardo remains something of an enigma - his often daring movie choices suggest an actor still striving for perfection.

Prom Nights from Hell Back Bay Books

In the explosive finale to the epic romantic saga, Bella has one final choice to make. Should she stay mortal and strengthen her connection to the werewolves, or leave it all behind to become a vampire? When you loved the one who was killing you, it left you no options. How could you run, how could you fight, when doing so would hurt that beloved one? If your life was all you had to give, how could you not give it? If it was someone you truly loved? To be irrevocably in love with a vampire is both fantasy and nightmare woven into a dangerously heightened reality for Bella Swan. Pulled in one direction by her intense passion for Edward

Cullen, and in another by her profound connection to werewolf Jacob Black, a tumultuous year of temptation, loss, and strife have led her to the ultimate turning point. Her imminent choice to either join the dark but seductive world of immortals or to pursue a fully human life has become the thread from which the fates of two tribes hangs. This astonishing, breathlessly anticipated conclusion to the Twilight Saga illuminates the secrets and mysteries of this spellbinding romantic epic. An Anthropologist Explores the Virtually Human Little, Brown Books for Young Readers

I turned off my brain. It was time to hunt. I took a deep breath, drawing in the scent of the blood inside the humans below. They weren't the only humans around, but they were the closest. Who you were going to hunt was the kind of decision you had to make before you scented your prey. It was too late now to choose anything. Bree Tanner can barely remember life before she had uncannily powerful sense, superhuman reflexes and unstoppable physical strength. Life before she had a relentless thirst for blood. . .life before she became a vampire. All Bree knows is that living with her fellow newborns has few certainties and even fewer rules: watch you back, don't draw attention to yourself and, above all, make it home by sunrise or die. What she doesn't know: her time as an immortal is quickly running out. Then Bree finds an unexpected friend in Diego, a newborn just as curious as Bree about their mysterious creator, whom they know only as her. As they come to realize that the newborns are pawns in a game larger than anything they could've imagined, Bree and Diego must choose sides and decided whom to trust. But when everything you know about vampires is based on a lie, how do you find the truth? In an irresistible combination of danger, mystery and romance, Stephenie Meyer tells the devastating story of the newborn army as they prepare to close in on Bella Swan in the Cullens, following their encounter to its unforgettable conclusion.

New Moon: The Graphic Novel Simon and Schuster

The glamorous world of a silent film star's wife abruptly crumbles when she's forcibly quarantined at the Carville Lepers Home in this page-turning story of courage, resilience, and reinvention set in 1920s Louisiana and Los Angeles. Based on little-known history, this timely book will strike a chord with readers of Fiona Davis, Tracey Lange, and Marie Benedict. Based on the true story of America's only leper colony, *The Second Life of Mirielle West* brings vividly to life the Louisiana institution known as Carville, where thousands of people were stripped of their civil rights, branded as lepers, and forcibly quarantined throughout the entire 20th century. For Mirielle West, a 1920's socialite married to a silent film star, the isolation and powerlessness of the Louisiana Leper Home is an unimaginable fall from her intoxicatingly chic life of bootlegged champagne and the star-studded parties of Hollywood's Golden Age. When a doctor notices a pale patch of skin on her hand, she's immediately branded a leper and carted hundreds of miles from home to Carville, taking a new name to spare her family and famous husband the shame that accompanies the disease. At first she hopes her exile will be brief, but those sent to Carville are more prisoners than patients and their disease has no cure. Instead she must find community and purpose within its walls, struggling to redefine her self-worth while fighting an unchosen fate. As a registered nurse, Amanda Skenandore's medical background adds layers of detail and authenticity to the experiences of patients and medical professionals at Carville - the isolation, stigma, experimental treatments, and disparate community. A tale of repulsion, resilience, and the Roaring '20s, *The Second Life of Mirielle West* is also the story of a health crisis in America's past, made all the more poignant by the author's experiences during another, all-too-recent crisis. PRAISE FOR AMANDA SKENANDORE'S BETWEEN EARTH AND SKY "Intensely emotional...Skenandore's deeply introspective and moving novel will appeal to readers of American history." —Publishers Weekly

The Virtual Tabloid that Witnessed the Dawn of the Metaverse Harper Collins

The wholly virtual world known as Second Life has attracted more than a million active users, millions of dollars, and created its own—very real—economy. The Making of Second Life is the behind-the-scenes story of the Web 2.0 revolution's most improbable enterprise: the creation of a virtual 3-D world with its own industries, culture, and social systems. Now the toast of the Internet economy, and the subject of countless news articles, profiles, and television shows, Second Life is usually known for the wealth of real-world companies (Reuters, Pontiac, IBM) that have created "virtual offices" within it, and the number of users ("avatars") who have become wealthy through their user-created content. What sets Second Life apart from other online worlds, and what has made it such a success (one million-plus monthly users and growing) is its simple user-centered philosophy. Instead of attempting to control the activities of those who enter it, the creators of Second Life turned them loose: users (also known as Residents) own the rights to the intellectual content they create in-world, and the in-world currency of Linden Dollars is freely exchangeable for U.S. currency. Residents have responded by generating millions of dollars of economic activity through their in-world designs and purchases—currently, the Second Life economy averages more than one million U.S. dollars in transactions every day, while dozens of real-world companies and projects have evolved and developed around content originated in Second Life. Wagner James Au explores the long, implausible road behind that success, and looks at the road ahead, where many believe that user-created worlds like Second Life will become the Net's next generation and the fulcrum for a

revolution in the way we shop, work, and interact. Au's story is narrated from both within the corporate offices of Linden Lab, Second Life's creator, and from within Second Life itself, revealing all the fascinating, outrageous, brilliant, and aggravating personalities who make Second Life a very real place—and an illuminating mirror on the real (physical) world. Au writes about the wars they fought (sometimes literally), the transformations they underwent, the empires of land and commerce they developed, and above all, the collaborative creativity that makes their society an imperfect utopia, better in some ways than the one beyond their computer screens.
