"The Common
Core State
Standards
(CCSS) are the

first academic standards to be independently adopted by almost every state in the country. The purpose and intent of the Common Core standards for English Language Arts (ELA), as well as Literacy in History/Social Studies and Science education, are the focus of this book. This volume is aimed at educators, administrators, graduate students, university professors, and others who deal with

students in grades 3 through 5. Each of the chapters addresses one of the major English Language Arts domains: literature, informational texts, foundational skills, writing, speaking and listening, language, technology, and assessment. They contain invaluable information, insight, and research from literacy leaders in their respective fields. Their objective is

twofold: to provide a theoretical background and detailed explanation of each of the CCSS/ELA standards, as well as practical suggestions, classroom vignettes, models, instructional resources, and unit ideas to implement the standards"--
The Common Core in Action
 Turtleback Books
 This project is intended to enhance student comprehension in social studies by using the

novel, Johnny Tremain by Esther Forbes. Students will partake in several literature activities such as literature circles, fishbowls, and Socratic seminars to obtain a deep understanding of the novel but as well as the important people and the events that lead up to the American Revolution. According to Risinger (1992, p. 6), “student interest is heightened when literature is used as an

integral part of the social studies program.” When students are engaged, their comprehension increases. The lessons in this unit incorporate the Common Core State Standards for English Language Arts and the California Content Standards in social studies. This project serves as a means to enhance the learning process for students in a sense that they will be able to

connect with the characters and events in the text, therefore leading to a deeper understanding of the American Revolution. The lessons are designed to fully analyze each chapter in depth and to allow students to have meaningful discussions with one another. *Early Thunder* Bloomsbury Publishing USA Teaching literature unit based on the popular children's

Sophia's War
Houghton Mifflin Harcourt
British General Thomas Gage declared that the life of Joseph Warren

was equal to 500 ordinary colonials. Contemporaries claimed that had Warren survived the American Revolution, the name of Washington might have been obscure. Dr. Joseph Warren was one of the foremost leaders in the years prior to, and the earliest months of the War for Independence. It was Warren who united the First Continental Congress. It was Joseph Warren who

sent Paul Revere on his famous 'midnight' ride. It was Dr. Joseph Warren who acted as Commander in Chief to the army of rag-tag Provincial soldiers until an official appointment was made. His name and heroic deeds were once known by every school child in America - statues dedicated to him, towns, counties and streets named for him. Today his memory is all but forgotten, buried

beneath the dust of time. Yet, were it not for Dr. Joseph Warren's prominent role, American History as we know it would be greatly altered. Janet Uhlar was born in Quincy, Massachusetts - the hometown of John Adams, John Quincy Adams, John Hancock, and Josiah Quincy, Jr. Her fascination with the American Revolution began in childhood upon reading Esther Forbes'

Johnny Tremain. As a former home-schooling mom, Janet introduced forgotten heroes of the American Revolution to her children's history lessons, adding more depth and insight to this most pivotal time of our nation's history. Janet firmly believes that when the private lives and unique personalities of historical figures are presented, and the dynamics between these characters

brought out, history becomes much more than cold black print on a stark white page. History takes on a life of its own, with true flesh and blood individuals whose acts of courage, indifference, or cowardice shaped the world we live in today. This living history helps us relate to those who have gone before - offering inspiration, courage, and a sense of determination. Janet lives on Cape Cod in

Massachusetts .

 From the author of the National Book Award nominee *A TANGLE OF KNOTS* comes an inspiring novel about figuring out who you are and doing what you love. Albie has never been the smartest kid in his class. He has never been the tallest. Or the best at gym. Or the greatest artist. Or the most musical. In fact, Albie has a long list of the things he's not very good at. But then Albie gets a new babysitter, Calista, who helps him figure out all of the things he is good at and how he can take pride in himself. A perfect companion to Lisa Graff's National Book Award-nominated *A Tangle of Knots*, this novel explores a similar theme in a realistic contemporary world where kids will easily be able to relate their own struggles to Albie's. Great for fans of Rebecca Stead's *Liar and Spy*, RJ Palacio's *Wonder* and Cynthia Lord's *Rules*. Praise for Lisa Graff's novels *Tangle of Knots* (nominated for a National Book Award) * "Combining the literary sensibility of E. B. White with the insouciance of Louis Sachar, Graff has written a tangle that should satisfy readers for years to

come."--

Grasshopper Summer

Turtleback Books
The first book in a new horse trilogy from Pulitzer Prize winner Jane Smiley starring a feisty young rider. Eleven-year-old Ellen is a spunky—and occasionally misbehaving— young riding student. Her teacher Abby Lovitt (who readers might recognize from *The Georges and the Jewels*) is a high school student who introduces her to jumping, dressage techniques, and most

importantly, Ned. Ned is a colt who used to be a racehorse, until he hurt his leg and moved to Abby's ranch. Ellen and Ned seem to understand each other, and their companionship is immediate. But Ellen is only allowed to go to riding lessons when she behaves at school. And with all that's going on, from learning that she's adopted to finding out her parents are adopting a new baby, it's harder than

ever for Ellen to pay attention and behave in class and at home. Will Ellen be able to spend more time on the ranch with Ned? And will her parents ever let her have a horse of her own?

If an entire nation could seek its freedom, why

not a girl? As the Revolutionary War begins, thirteen-year-old Isabel wages her own fight...for freedom. Promised freedom upon the death of their owner, she and her sister, Ruth, in a cruel twist of fate become the property of a malicious New York City couple, the Locktons, who have no sympathy for the American Revolution and even less for Ruth and Isabel. When Isabel meets Curzon, a slave with ties

to the Patriots, he encourages her to spy on her owners, who know details of British plans for invasion. She is reluctant at first, but when the unthinkable happens to Ruth, Isabel realizes her loyalty is available to the bidder who can provide her with freedom. From acclaimed author Laurie Halse Anderson comes this compelling, impeccably researched novel that

shows the lengths we can go to cast off our chains, both physical and spiritual. *Absolutely Almost* Rowman & Littlefield Are your kids being indoctrinated in school? Unfortunately, it's increasingly likely. From "social justice" to critical race theory, and from advocacy and activism campaigns to planned "action weeks," teachers and schools nationwide are

abandoning neutrality in the classroom, embracing political agendas and partisan aims, and expecting students to get on board. Meanwhile, students with doubts or misgivings decline to voice objections due to fears of lowered grades, impacted college recommendati on letters, social ostracism, “cancellation,” public shaming, ridicule, and other formal and informal means of “correcting” them and making them toe the ideological line. Is this what we want for our kids? Will this kind of “education” produce able citizens or independent thinkers capable of self-government? The range of opinion has been narrowing in higher education for some time; now, heavy-handed thought constriction and chilled speech are choking our secondary, middle, and even elementary schools. The situation is dire—and America urgently needs a response. This book provides the tools we need to confront and remove hidden agendas, to uproot and reject educational biases, and to restore balance and integrity to America’s classrooms. It’s time to indoctrinate our schools! Balancing the Common Core
