This proceeding contains selected papers from the National Seminar on "The Role and Strategy of Higher Education through the Results of Research and Community Service Entering the Industrial Age 4.0" which conducted on November 23rd, 2019 in Banjarmasin, Indonesia. This National Seminar was organized by Sari Mulia University, Banjarmasin, Indonesia. This conference accommodates research topics and community service from various aspects such as health, humanities, science and technology. We would like to express our appreciation and gratitude to the invited experts who have provided insights to the participants of this national seminar, as well as the research committee and paper reviewers who have worked hard until there are 95 papers worthy of publication in the NS-UNISM 2019 proceedings. Papers in this proceedings are expected to provide academic benefits, especially in broadening our horizons of understanding in our area of expertise as academics and practitioners. We realize that what we present for this publication is far from perfect. Constructive criticism is welcome for improvement. Finally, I represent the national seminar committee and also on behalf of the Sari Mulia University, Banjarmasin, Indonesia expressing my gratitude for participating and congratulating the publication of the paper in the NS-UNISM 2019. We from the Civitas Academica Sari Mulia University, together with the Committee also want to say thank you so much to all persons who have supported and actively participated in the success of this event. Hopefully this proceeding can be used as a reference in developing academic studies, technology and improving learning activities in the fields of health, humanities, and science and technology. We are delighted to introduce the proceeding of the 1st Hasanuddin International Conference on Social and Political Sciences (HICOSPOS 2019). The phenomenon of climate change is avoidable since its effects are significantly on both environment and human beings live - such as human health, agriculture, food security, water supply, energy, ecosystem and. Here human beings play role as the actors as well as the victim. In addition, we also face society 5.0 in which integrated system of digital technology brings humans to achieve a high quality of life ideally, however, this state requires hard and sustainable efforts from all parties such as community of social and political sciences. Since every steps of society achievements also bring its consequences in terms of culture, and socio-political changes both positive and negative effects. Complexity phenomena of climate change in one side, and society 5.0 in other side, it turns should be responded by providing collaborative works among scholars and decision makers. International conference, therefore, becoming a scientific way to experts especially social and political sciences to share and contribute to solve the problems that arise from climate change and society 5.0. We hope that the proceeding will contribute to dynamic science discourse for responding social and climate changes challenges.
