SUSAN BURKE

The Law of Delict in South

Africa Penguin Random
House South Africa
Fundamentals of

Nanoparticles: Classifications, Synthesis Methods, Properties and Characterization explores the nanoparticles and architecture of nanostructured materials being used today in a comprehensive, detailed manner. This book focuses primarily on the characterization, properties and synthesis of nanoscale materials, and is divided into three major parts. This is a valuable reference for materials scientists, and chemical and mechanical engineers working in R&D

and academia, who want to learn more about how nanoparticles and nanomaterials are characterized and engineered. Part one covers nanoparticles formation, self-assembly in the architecture nanostructures, types and classifications of nanoparticles, and signature physical and chemical properties, toxicity and regulations. Part two presents different ways to form nanometer particles, including bottom-up and top-down approaches, the

classical and non-classical theories of nanoparticles formation and self-assembly, surface functionalization and other surface treatments to allow practical use. Part three covers characterization of nanoparticles and nanostructured materials, including the determination of size and shape, in addition to atomic and electronic structures and other important properties. - Includes new physical and chemical techniques for the synthesis of

nanoparticles and architecture
nanostructures - Features an in-depth treatment of nanoparticles and nanostructures, including their characterization and chemical and physical properties - Explores the unusual properties of materials that are developed by modifying their shape and composition and by manipulating the arrangement of atoms and molecules - Explains important techniques for the synthesis, fabrication and the characterization

of complex nano-architectures
Uit Oxford University Press, USA
An engaging and succinct overview of young adult literature, using a genre approach and an emphasis on immersion in literature. Thoroughly engaging readers in the pleasure and excitement of reading excellent books-and ultimately preparing tomorrow's teachers to integrate literature into middle and high school curricula-this text focuses on reading young adult books, not

talking about them. It presents short chapters that include extensive recommended booklists organized by genre and topic, and relates young adult literature to current issues such as standards, the literary canon, censorship, close reading, critical literacy, and resistant readers. Essentials of Young Adult Literature, 3/e gives readers what they most need to know about teaching literature to young adults in a concise and direct way, using brief lists, examples, figures,

and tables in combination with prose, and freeing up class time for immersive involvement with literature. Recommended booklists at the end of each genre chapter support students in locating excellent young adult titles for their own reading. This new edition adds many new young adult books and retains those that remain most popular with students. Many titles with a global or multicultural focus are now integrated into the genre chapters, and a separate chapter that

addresses critical issues specific to these books. Features within chapters are updated to include important research developments, recent young adult books, outstanding new authors, and current issues and controversies. Connections to the Common Core State Standards are woven throughout, and the revised chapter on nonfiction now responds to the recent emphasis on informational text structures and formats. Logical, well-organized

structure, and succinct yet comprehensive coverage Focuses on reading young adult books, not talking about them In-depth coverage of multicultural and international young adult literature Includes numerous useful organizing features *MindF**k* Penguin Random House South Africa Set in South Africa, *MindF**k* is a powerful, disturbing, and at times frightening story. Chris Burns, and his friends - Kerbs and Sky Eyes - take to the road, heading for

the MindF**k rock festival. Along the way they pick up the gorgeous Partygirl. Burns and Partygirl connect immediately. But on the first night, while the rockmusic blasts from the stage, something unexpected happens - Burns's world gets turned on its head as one of the boys emerges from the tent with blood on his hands. MindF**k is a real page-turner. The gripping, character-focused, first-person narrative delves right to the heart of a life on-the-edge and virtually out of control. Gritty,

hard-hitting, and often shocking, it is packed with drama, emotion, suspense and intrigue from one page to the next. And there is a serious sting in the tail. MindF**k is part of the Cutting Edge series: fast-paced, quick reads for teens and young adults looking for fiction which chimes with their perspective on life. Mindf**k is a title in the highly contemporary Cutting Edge fiction series for young adults. The series features fast-paced quick reads. Each book focuses on difficult topics

and situations that many teenagers will have experienced first-hand or through friends. Cutting Edge is ideal for readers aged 14+ with a reading age of 12+.

Essentials of Young Adult Literature Penguin Random House South Africa

Trent is die naweek alleen by die huis. Ná 'n rowwe partytjenag saam met sy vriende wat met 'n motorongeluk eindig, word Trent met 'n moeilike besluit gekonfronteer: Wat moet hy doen met die geld wat

hy op die ongelukstoneel gekry het?
Afkop William Andrew Frankie is mal oor skaatsplank ry en kunsflieks. Sy wonder oor Milan, die geheimsinnige, stil ou in haar klas met die swart hare en bleek vel. En sy wonder oor die papie--rot en die Banksy-boek wat sy een oggend buite haar venster kry. Milan neem kitaarlesse, hou van flieks, old school-musiek soos Pink Floyd en Led Zeppelin en maak snags stensils. Hy wonder wat deesdae met hom aangaan - is hy siek of

verlief? Wat dit ook al is, dit het begin die oomblik toe hy Frankie by die Waterfront gesien het ...

 Brent is in graad tien. Hy's gewild. Hy speel rugby. Hy het soort van 'n meisie. En hy is gay. Nog nooit tevore is daar so openlik, eerlik, sensitief en op die man af in 'n Afrikaanse tienerboek geskryf oor 'n seun se stryd om vrede te maak met sy homoseksualiteit nie.
Van Heerden Neethling

Unlawful Competition
 "The book is a true student textbook that combines a strong theoretical foundation with a practical applied approach. A clear, concise yet rigorous introduction to the general principles of delictual law. Revised and updated, the second edition focuses more strongly on problem solving application. The text supports learning and the development of independent academic skills through various learning features which bring an applied, critical

and reflective approach to the content. The structure of the book reflects the logical and systematic process of enquiry that is followed when assessing or preparing for a delictual matter, and it reflects clearly the distinctions between the Aquilian action, Germanic action and Actio iniuriarum. Pedagogically developed as a learning resource for students with varying backgrounds and skills levels. Supported by

ancillary teaching materials which assist in teaching and learning."-- Publisher's website.
Suurlemoen!
Hierdie is 'n aand vir laastes. 'n Aand om jou kopie van The Catcher in the Rye in jou rugsak te druk en afskeid te neem van die huis waar jou pa elke aand te diep in sy whiskeyglas kyk. 'n Aand om die lysie uit te haal met die name van almal by die skool wat dink jy's 'n freak. 'n Aand om die

donker ding binne-in jou beter te leer ken. Mòre gaan ek 'n gun saamvat skool toe.
Fundamentals of Nanoparticles
Cody en Owen ken mekaar nie, maar al twee word voortgedryf deur 'n donker krag van sy eie. Tot Lauren hulle paaie laat kruis en sy hulle gemeenskaplike obsessie word. Dit kan net rampspoedig eindig.
