American diners began to flock to Chinese restaurants more than a century ago, making Chinese food the first mass-consumed cuisine in the United States. By 1980, it had become the country's most popular ethnic cuisine. Chop Suey, USA offers the first comprehensive interpretation of the rise of Chinese food, revealing the forces that made it ubiquitous in the American gastronomic landscape and turned the country into an empire of consumption. Engineered by a politically disenfranchised, numerically small, and economically exploited group, Chinese food's tour de America is an epic story of global cultural encounter. It reflects not only changes in taste but also a growing appetite for a more leisurely lifestyle. Americans fell in love with Chinese food not because of its gastronomic excellence but because of its affordability and convenience, which is why they preferred the quick and simple dishes of China while shunning its haute cuisine. Epitomized by chop suey, American Chinese food was a forerunner of McDonald's, democratizing the once-exclusive dining-out experience for such groups as marginalized Anglos, African Americans, and Jews. The rise of Chinese food is also a classic American story of immigrant entrepreneurship and perseverance. Barred from many occupations, Chinese Americans successfully turned Chinese food from a despised cuisine into a dominant force in the restaurant market, creating a critical lifeline for their community. Chinese American restaurant workers developed the concept of the open kitchen and popularized the practice of home delivery. They streamlined certain Chinese dishes, such as chop suey and egg foo young, turning them into nationally recognized brand names.

Famous for the inspiring slogan, 'Jai Jawan, Jai Kisan', Lal Bahadur Shastri's prime ministership saw India ensuring respect for the farmer and the soldier. In his brief yet eventful tenure of nineteen months, he resolved some of the most contentious problems facing the country, by taking all segments of society along. The book takes a closer look at his pioneering efforts at ensuring self-sufficiency in foodgrains by ushering in the Green Revolution. As the inspiration behind the original 'surgical strikes', it also highlights the laudatory manner in which Shastri motivated the soldiers to effectively respond to Pakistan's military adventurism, by giving the green signal to the military to enter Pakistani soil. Insightful, thought-provoking, and written in a lucid style by one of India's most respected political commentators, Lal Bahadur Shastri focuses on the leader's greatest strengths—integrity, humility, simplicity and a self-effacing nature.

"Local editors Schaper and Horwitz have assembled a noteworthy collection of noir-infused stories mixed with laughter...The Akashic noir short-story anthologies are avidly sought and make ideal samplers for regional mystery collecting." --Library Journal "The best pieces in the collection turn the clichés of the genre on their head . . . and despite the unseemly subject matter, the stories are often surprisingly funny." —City Pages (Minneapolis) Brand-new stories from John Jodzio, Tom Kaczynski, and Peter Schilling, Jr., in addition to the original volume's stories by David Housewright, Steve Thayer, Judith Guest, Mary Logue, Bruce Rubenstein, K.J. Erickson, William Kent Krueger, Ellen Hart, Brad Zellar, Mary Sharratt, Pete Hautman, Larry Millett, Quinton Skinner, Gary Bush, and Chris Everheart. "St. Paul was originally called Pig's Eye's Landing and was named after Pig's Eye Parrant--trapper, moonshiner, and proprietor of the most popular drinking establishment on the Mississippi. Traders, river rats, missionaries, soldiers, land speculators, fur trappers, and Indian agents congregated in his establishment and made their deals. When Minnesota became a territory in 1849, the town leaders, realizing that a place called Pig's Eye might not inspire civic confidence, changed the name to St. Paul, after the largest church in the city . . . Across the river, Minneapolis has its own sordid story. By the turn of the twentieth century it was considered one of the most crooked cities in the nation. Mayor Albert Alonzo Ames, with the assistance of the chief of police, his brother Fred, ran a city so corrupt that according to Lincoln Steffans its 'deliberateness, invention, and avarice has never been equaled.' As recently as the mid-'90s, Minneapolis was called 'Murderopolis' due to a rash of killings that occurred over a long hot summer . . . Every city has its share of crime, but what

makes the Twin Cities unique may be that we have more than our share of good writers to chronicle it. They are homegrown and they know the territory--how the cities look from the inside, out . . ."
