The contents are based on the syllabuses and past papers of the University of Cambridge and the University of London (Edexcel).</p>	<p><i>General Certificate English</i> Cambridge University Press From Testing to Assessment: English as an International Language provides a critical review of conventional and alternative approaches to the assessment of English literacy skills in various parts of the world. It presents empirical studies conducted in three major settings: in</p>

countries such as Japan and Brazil where English functions as the language of international commerce; in multilingual countries such as Nigeria and Zimbabwe where English is the national language of education and government; and in such countries as Canada, the United Kingdom and the United States where English is the dominant language. The book opens with a discussion of language

assessment in relation to debates about the nature of literacy; it concludes with a discussion of policy implications, which is grounded in literacy theory as well as in practical constraints such as available human and material resources. *Print and Online Student Book Pack* Cambridge University Press
A subject-specific guide for teachers to supplement

professional development and provide resources for lesson planning. Approaches to learning and teaching First Language English is the result of collaboration between Cambridge University Press and Cambridge International Examinations. Considering the local and global contexts when planning and teaching an international syllabus, the title presents ideas for First Language English with

practical examples that help put theory into context. Teachers can download online tools for lesson planning from our website. This book is ideal support for those studying professional development qualifications or international PGCEs. *Complete Literature in English for Cambridge IGCSE and O Level Foundation Books* This book offers a critical analysis of radicalization in Pakistan by deconstructing the global and the official state narratives designed to restrain Pakistani radicalization. Chapters are centered around three distinct themes: educational norms, religious practices and geo-political aspects of radicalization to examine the prevalent state and global practices which propagate Pakistani radicalization discourse. The book argues that there is both a global agenda, which presents Pakistan as the epicenter and sponsor of terrorism, and a domestic, or official, agenda that portrays Pakistan as the state which sacrificed and suffered the most in the recent War on Terror, which allow the country to gain sympathy as a victim. Delineating both conflicting agendas through a critical

analysis of global and state practices in order to understand the myths and narratives of radicalization in Pakistan constructed by powerful elites, the book enables readers to gain a better understanding of this phenomenon.

A multidisciplinary critical approach to comprehending radicalization in Pakistan with innovative prescriptions for counter-radicalization policy, this

book will be of interest to researchers working in the fields of International Relations, Security Studies, Asian Politics, as well as Religious Studies and Education, in particular in the context of South Asia.
