Clymer Evinrude/Johnson Outboard Shop Manual 1.5-125 HP, 1956-1972

Haynes Manuals N. America, Incorporated  
The first edition of Outboard Engines set the standard for a clear, easy-to-follow primer on engine basics, troubleshooting, care, and repair. This new edition, significantly expanded, brings the subject up to date, with full coverage of the new four-stroke engines, conventional electronic and direct fuel-injection systems, oil-mix systems in the new clean two-strokes, and more. You'll save time and money doing your own engine repairs and maintenance.

**The Old Outboard Book**  
A&C Black

From c. 1100 until c. 1170, Latin prosimetrical texts characterized by dialogue, allegory, and philosophical speculation enjoyed a notable popularity within the cultural ambit of the French cathedral schools. Inspired by Boethius (TM) "Consolation of Philosophy," the prosimetrum writers applied his literary techniques to the ethical

and anthropological concerns of their own era, producing texts of great artistry in the process.

This book investigates the rise of the Boethian impulse in Latin, the innovations of the twelfth-century writers, the difficulties that arose when they attempted to recapture the certainty that characterized the "Consolation," and the survival of aspects of this literary mode in later Latin and vernacular literature.
