Extraordinary black book. By the original editor Lulu.com

A new edition of the classic New York Times bestseller edited by Toni Morrison, offering an encyclopedic look at the black experience in America from 1619 through the 1940s with the original cover restored. "I am so pleased the book is alive again. I still think there is no other work that tells and visualizes a story of such misery with seriousness, humor, grace and triumph."—Toni Morrison Seventeenth-century sketches of Africans as they appeared to marauding European traders. Nineteenth-century slave auction notices. Twentieth-century sheet music for work songs and freedom chants. Photographs of war heroes, regal in uniform. Antebellum reward posters for capturing runaway slaves. An 1856 article titled "A Visit to the Slave Mother Who Killed Her Child." In 1974, Middleton A. Harris and Toni Morrison led a team of gifted, passionate collectors in compiling these images and nearly five hundred others into one sensational narrative of the black experience in America—The Black Book.

Now in a newly restored hardcover edition, *The Black Book* remains a breathtaking testament to the legendary wisdom, strength, and perseverance of black men and women intent on freedom. Prominent collectors Morris Levitt, Roger Furman, and Ernest Smith joined Harris and Morrison (then a Random House editor, ultimately a two-time Pulitzer Prize-winning Nobel Laureate) to spend months studying, laughing at, and crying over these materials—transcripts from fugitive slaves’ trials and proclamations by Frederick Douglass and celebrated abolitionists, as well as chilling images of cross burnings and lynchings, patents registered by black inventors throughout the early twentieth century, and vibrant posters from “Black Hollywood” films of the 1930s and 1940s. Indeed, it was an article she found while researching this project that provided the inspiration for Morrison’s masterpiece, *Beloved*. A labor of love and a vital link to the richness and diversity of African American history and culture, *The Black Book* honors the past,

reminding us where our nation has been, and gives flight to our hopes for what is yet to come. Beautifully and faithfully presented and featuring a foreword and original poem by Toni Morrison, *The Black Book* remains a timeless landmark work. *The Black Book; or, Corruption unmasked! Being an account of places, pensions and sinecures .. To which is added correct lists of both Houses of Parliament; showing their family connections ... Once, somebody had asked me, “How do I define a good teacher?” The question had left with me a corollary question as to, “Who exactly is a good teacher?” Well, In India,

Teachers or Guru are revered as Gods. Guru is regarded as “dispeller of darkness” (from gu, “darkness” and ru, “that which dispels”). Thus a teacher removes the darkness of ignorance from the students mind and inculcates the thirst for knowledge. They shape the lives of every individual thereby making them responsible citizens of the country. I strongly believe- for the nation to progress and become a developed nation, teachers play the primary role. Excellent teachers believe that it is pupils' effort and teaching quality that determine how well a child performs academically and not the ability of the child. When you strive to become a good teacher and to create a good classroom, four core qualities are essential- Knowledge, the skills to convey that knowledge, the ability to make the material you are teaching interesting & relevant and a deep seated respect for the student. Without these 4 qualities, the inherent aspects of good teaching will cease to exist. Teaching as a profession has seen a great paradigm shift from the Gurukul system to the chalk and talk system.

Currently the system has evolved to online classrooms with a blend of Virtual Reality, Augmented and Mixed Reality. It is very important for the teacher these days to engage students effectively using various pedagogies to invoke attention and enhance the attention span of the young students. Teachers must be familiar with various pedagogical tools imparting high value knowledge and educate students to think critically and become decision makers of the future. This book therefore focuses primarily on the 4 essentials stated above, the common problems teachers face and the tips to become a better teacher and excel in the profession. Teaching is an art and this art can only be mastered with practice. The Bonus Tips will also help teachers to get better and inspire more students. With good online lectures available at their fingertips, this generation students seek for motivators, influencers and facilitators than mere teachers.
